(57) **CLAIM**

The ornamental design for a a display screen of a communications device with a graphical user interface, as shown and described.

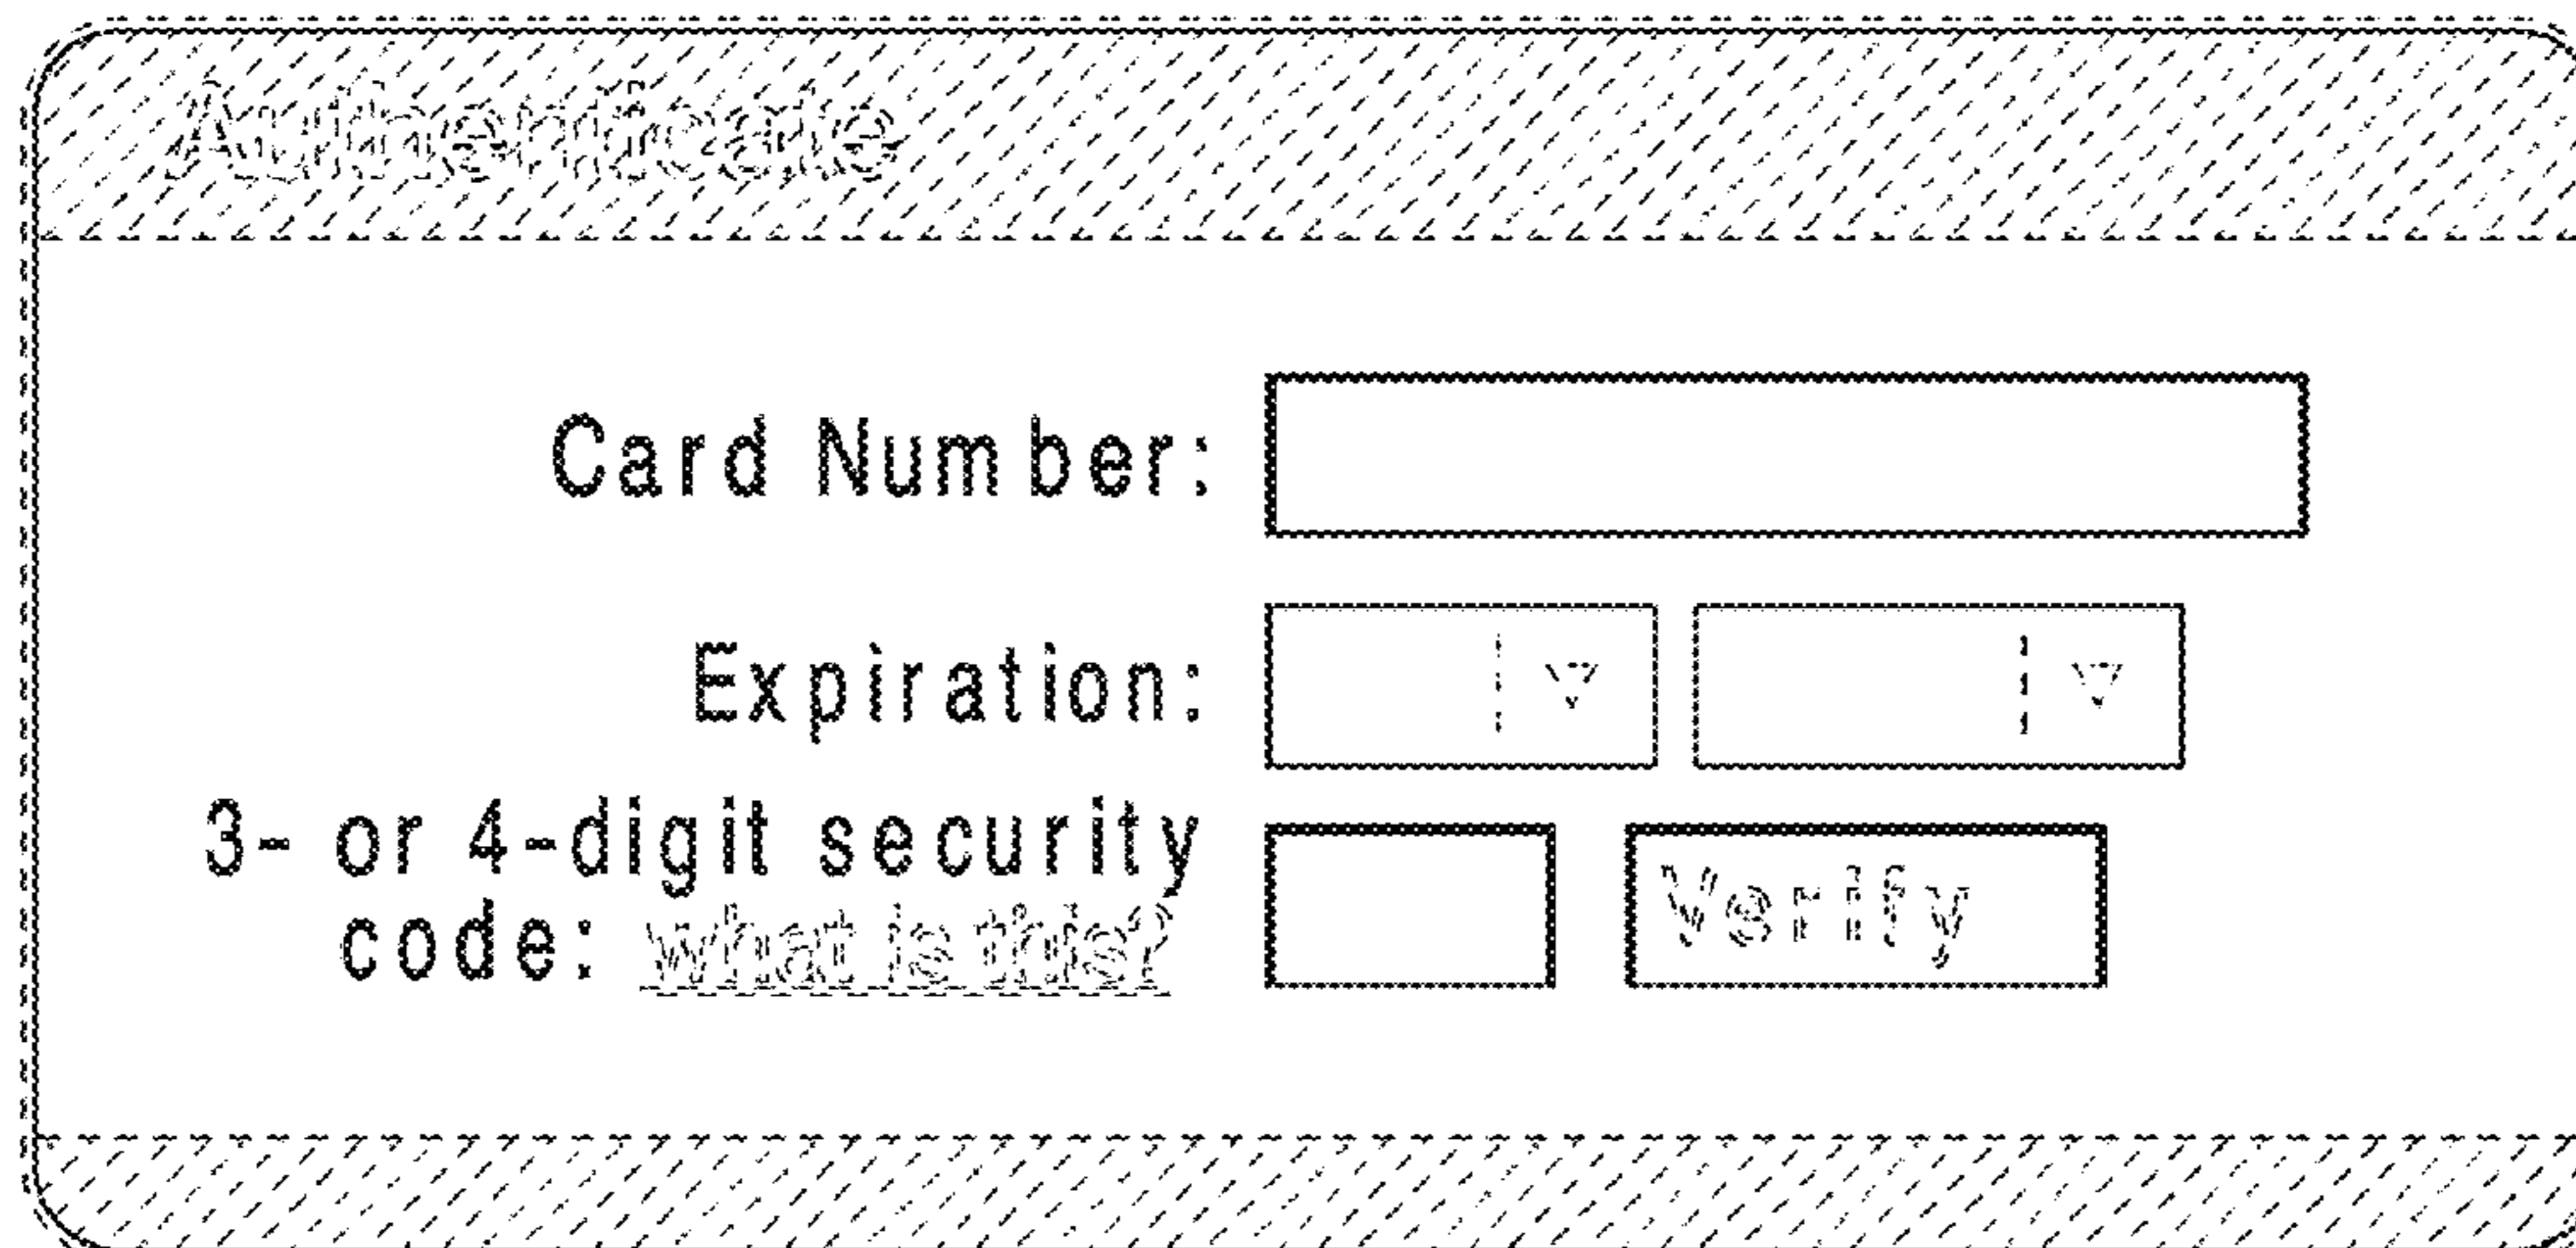

DESCRIPTION

FIG. 1 is a front view of a display screen of a communications device with a graphical user interface showing our new design; and,

FIG. 2 is a front view thereof, shown in the context of different environment.

The broken line showings of the display screen of a communications device in FIGS. 1-2 and the images, text and other elements of the graphical user interface in FIG. 2 are included for the purpose of illustrating environmental structure and portions of the display screen of a communications device with a graphical user interface. The broken lines form no part of the claimed design.

1 Claim, 2 Drawing Sheets

The diagram shows a rounded rectangular interface with a hatched top and bottom border. Inside, the text "American Express" is faintly visible at the top left. Below it, the label "Card Number:" is followed by a single wide input field. Underneath, the label "Expiration:" is followed by two smaller input fields, each containing a vertical separator and a downward-pointing triangle. Below these, the label "3- or 4-digit security code: what is this?" is followed by a single input field and a button labeled "Verify".
