(57) **CLAIM**

The ornamental design for a rest for binoculars, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing a top, a front, and a left of my new design for a rest for binoculars, wherein the rest is shown with a strap extending from a right side of a base and attached to a left side of the base.

FIG. 2 is another perspective view showing the top and the front of the rest, wherein the rest is shown with the strap extending from the right side of the base and attached to the left side of the base.

FIG. 3 is another perspective view showing a bottom, a back, and a right of the rest, wherein the rest is shown with the strap in a different position.

FIG. 4 is a plan view showing the top of the rest, wherein the rest is shown with the strap extending outward from the right side of the base.

FIG. 5 is a plan view showing the bottom of the rest, wherein the rest is shown with the strap extending outward from the right side of the base.

FIG. 6 is an elevation view showing the front of the rest, wherein the rest is shown with the strap extending outward from the right side of the base.

FIG. 7 is an elevation view showing the back of the rest, wherein the rest is shown with the strap extending outward from the right side of the base.

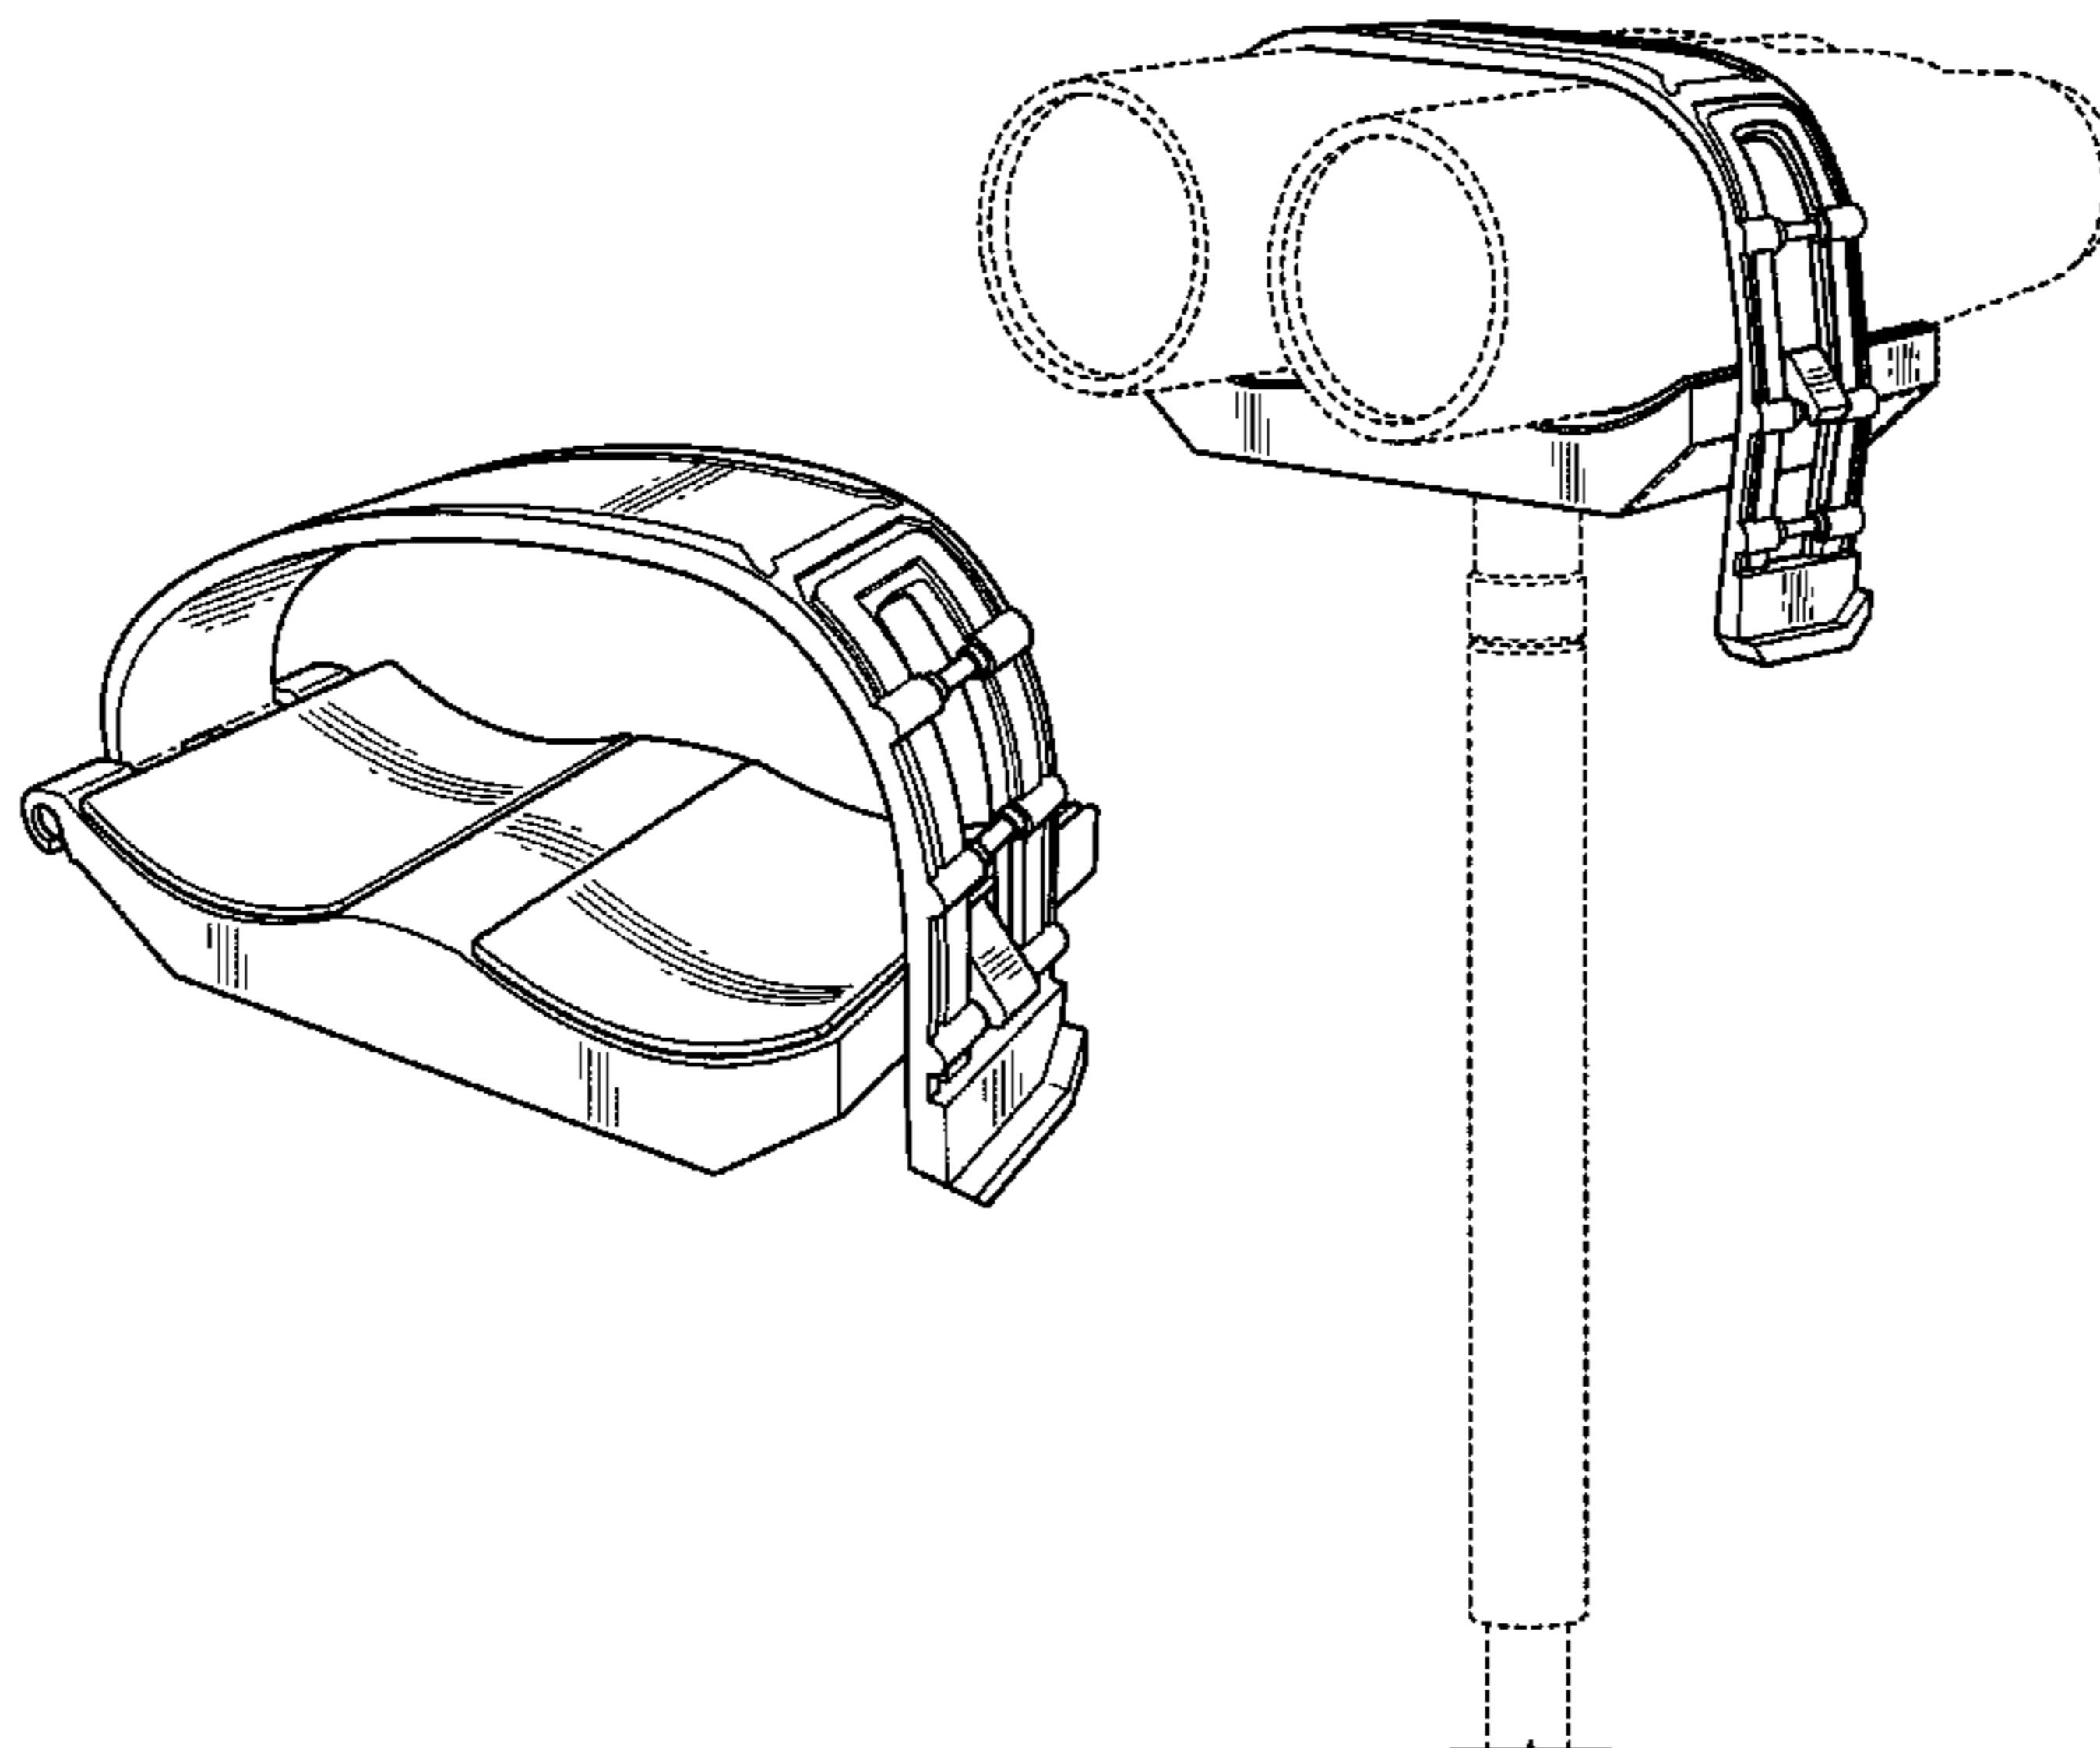

FIG. 8 is an elevation view showing the left of the rest.

FIG. 9 is an elevation view of the right of the rest, wherein the rest is shown with the strap extending outward from the right side of the base; and,

FIG. 10 is a perspective view of the rest supporting binoculars and disposed on a stand.

The broken line showing of a pin in FIGS. 3 and 8-9 and of binoculars and a stand in FIG. 10 are for illustrative purposes only and form no part of the claimed design. The broken ones immediately adjacent to the shaded areas in FIGS. 3, 5, and 8-10 represent unclaimed boundaries of the design.
