FIG. 1 is a top surface view of my template for quilting fabric design showing both solid and dashed lines associated with placement marks and instructive numbers in whole and fractional symbols (but other forms of numbering may be used) for the process of precisely cutting pieces of fabric useful in quilting and wherein the solid and dashed lines are measuring and visual guides. The dashed lines are not for illustrative purposes, but rather indicate stitching locations in different shapes as a visual aid for a quilter using my template for quilting fabric design invention;

FIG. 2 is a right side edge view of my template for quilting fabric design, with the left side edge view being the same;

FIG. 3 is a bottom edge view of my template for quilting fabric with the top edge view being the same; and,

FIG. 4 is a bottom surface view of my template for quilting fabric design showing the top surface guidance numbers in reverse when viewed through the clear acrylic. Otherwise the bottom view is flat and lacking in any ornamentation.
