(57) **CLAIM**

The ornamental design for a pillow remote control, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a pillow remote control, showing the new design in a slightly rumpled condition, as may result from use;

FIG. 2 is a front view thereof, shown in an alternate, unused condition;

FIG. 3 is a back view thereof, also in the alternate, unused condition;

FIG. 4 is a right side view thereof, in the alternate, unused condition;

FIG. 5 is a left side view thereof, in the alternate, unused condition;

FIG. 6 is a top view thereof, also in the alternate, unused condition; and,

FIG. 7 is a bottom view thereof, in the alternate, unused condition.

The straight broken lines around the periphery of the design represent stitching that is part of the claimed design. All other broken lines in the figures depict portions of the pillow remote control that form no part of the claimed design.
