(57) **CLAIM**

The ornamental design of ace of hearts package design, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first embodiment of an ace of hearts package design.

FIG. 2 is a right side elevational view thereof, the left side being a mirror image of the right side.

FIG. 3 is a top side elevational view thereof, the bottom side being a mirror image of the top side.

FIG. 4 is a front elevational view of a second embodiment of an ace of hearts package design.

FIG. 5 is a top side elevational view thereof, the bottom side being a mirror image of the top side.

FIG. 6 is a front elevational view of a third embodiment of an ace of hearts package design.

FIG. 7 is a top side elevational view thereof, the bottom side being a mirror image of the top side.

FIG. 8 is a front elevational view of a fourth embodiment of an ace of hearts package design; and,

FIG. 9 is a top side elevational view thereof, the bottom side being a mirror image of the top side.

The rear of the package for each embodiment is flat and unornamented or, in the alternative, identical to the front elevational view. Specifically, the rear of the package as depicted in the first embodiment may be either flat and unornamented or identical to the front elevational view as shown in FIG. 2; the rear of the package as depicted in the second embodiment may be either flat and unornamented or identical to the front elevational view as shown in FIG. 4; the rear of the package as depicted in the third embodiment may be either flat and unornamented or identical to the front elevational view as shown in FIG. 5; the rear of the package as depicted in the fourth embodiment may be either flat and unornamented or identical to the front elevational view as shown in FIG. 8. The right sides of the second, third, and fourth embodiments are identical to the right side shown in FIG. 2, with the left side for each being a mirror image of the right side.
