(57) **CLAIM**

We claim the ornamental design for a lid of a junction box, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a lid of a junction box, showing our new design;
FIG. 2 is a top view thereof;
FIG. 3 is a bottom view thereof;
FIG. 4 is a right side elevational view thereof;
FIG. 5 is a top perspective view thereof;
FIG. 6 is bottom perspective view thereof; and,
FIG. 7 is reference perspective view thereof showing the lid of a junction box of our new design in use.

The broken lines indicate structure that is for illustrative purposes only and form no part of the claimed design.

A lid of a junction box according to the present design application is a lid for a junction box which stores and protects an electric wire connection part for coupling or branching electric wires. As shown in FIG. 7, the lid of a junction box is attached to an upper opening of a junction box body so as to cover the junction box body.
