(57) **CLAIM**

The ornamental design for a medical device keypad interface, substantially as shown and described.

**DESCRIPTION**

A portion of the disclosure of this patent document may contain material to which a claim for copyright and trademark is made. The copyright and trademark owner has no objection to the reproduction of the patent document or the patent disclosure, as it appears in the U.S. Patent Office records, but reserves all other copyright and trademark rights whatsoever. FIG. 1 is a three dimensional view of a medical device keypad interface in an embodiment of the present invention; and, FIG. 2 is a front view of a medical device keypad interface shown in FIG. 1.

The broken lines shown on the medical device keypad in FIGS. 1 and 2, which are immediately adjacent to claimed surfaces, represent the bounds of the claimed design, while all other broken lines are directed to the environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
