(57) **CLAIM**

The ornamental design for a tube strip for automated processing systems, as shown and described.

DESCRIPTION

FIG. 1 is a top isometric view of a tube strip for automated processing systems according to an embodiment of the present invention.

FIG. 2 is a bottom isometric view of the tube strip for automated processing systems shown in FIG. 1.

FIG. 3 is a front elevation view of the tube strip for automated processing systems shown in FIG. 1, the rear view being a mirror image of the front view.

FIG. 4 is a right side view of the tube strip for automated processing systems shown in FIG. 1, the left side view being a mirror image of the right side view.

FIG. 5 is a top plan view of the tube strip for automated processing systems shown in FIG. 1; and,

FIG. 6 is a bottom plan view of the tube strip for automated processing systems shown in FIG. 1.

The broken lines in the drawing views are included for the purpose of illustrating portions of the tube strip for automated processing systems that form no part of the claimed design.
