(57) **CLAIM**

The ornamental design for whitening product package with surface indicia, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color

drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a color drawing of a front view of a first embodiment of whitening product package with surface indicia showing our new design. The embodiment of FIG. 1 comprises an area of pink color having a CIE L*a*b* value of about 67, 49, -2 and a Color Space Volume of less than about 10,000 and an area of violet color having a CIE L*a*b* value of about 18, 35, -54 and a Color Space Volume of less than about 10,000; FIG. 2 is a color drawing of a front view of a second embodiment of whitening product package with surface indicia showing our new design. The embodiment of FIG. 2 comprises an area of cyan color having a CIE L*a*b* value of about 63, -32, -40 and a Color Space Volume of less than about 10,000 and an area of violet color having a CIE L*a*b* value of about 18, 35, -54 and a Color Space Volume of less than about 10,000;

FIG. 3 is a color drawing of a front view of a third embodiment of whitening product package with surface indicia showing our new design. The embodiment of FIG. 3 comprises an area of deep red color having a CIE L*a*b* value of about 35, 58, 31 and a Color Space Volume of less than about 10,000 and an area of violet color having a CIE L*a*b* value of about 18, 35, -54 and a Color Space Volume of less than about 10,000;

FIG. 4 is a color drawing of a front view of a fourth embodiment of whitening product package with surface indicia showing our new design. The embodiment of FIG. 4 comprises an area of metallic silver and an area of violet color having a CIE L*a*b* value of about 18, 35, -54 and a Color Space Volume of less than about 10,000;

FIG. 5 is a color drawing of a front view of a fifth embodiment of whitening product package with surface indicia showing our new design. The embodiment of FIG. 5 comprises an area of burgundy color having a CIE L*a*b* value of about 30, 49, -3 and a Color Space Volume of less than about 10,000 and an area of violet color having a CIE L*a*b* value of about 18, 35, -54 and a Color Space Volume of less than about 10,000; FIG. 6 is a color drawing of a perspective view of a first embodiment of whitening product package with surface indicia showing our new design. The embodiment of FIG. 6 comprises an area of pink color having a CIE L*a*b* value of about 67, 49, -2 and a Color Space Volume of less than about

10,000 and an area of violet color having a CIE L*a*b* value of about 18, 35, -54 and a Color Space Volume of less than about 10,000;

FIG. 7 is a right side view of a first embodiment of whitening product package with surface indicia showing our new design.

FIG. 8 is a left side view of a first embodiment of whitening product package with surface indicia showing our new design.

FIG. 9 is a rear view of a first embodiment of whitening product package with surface indicia showing our new design.

FIG. 10 is a top view of a first embodiment of whitening product package with surface indicia showing our new design; and,

FIG. 11 is a bottom view of a first embodiment of whitening product package with surface indicia showing our new design.

The broken lines shown depict environmental subject matter only and form no part of the claimed design.
