(57) **CLAIM**

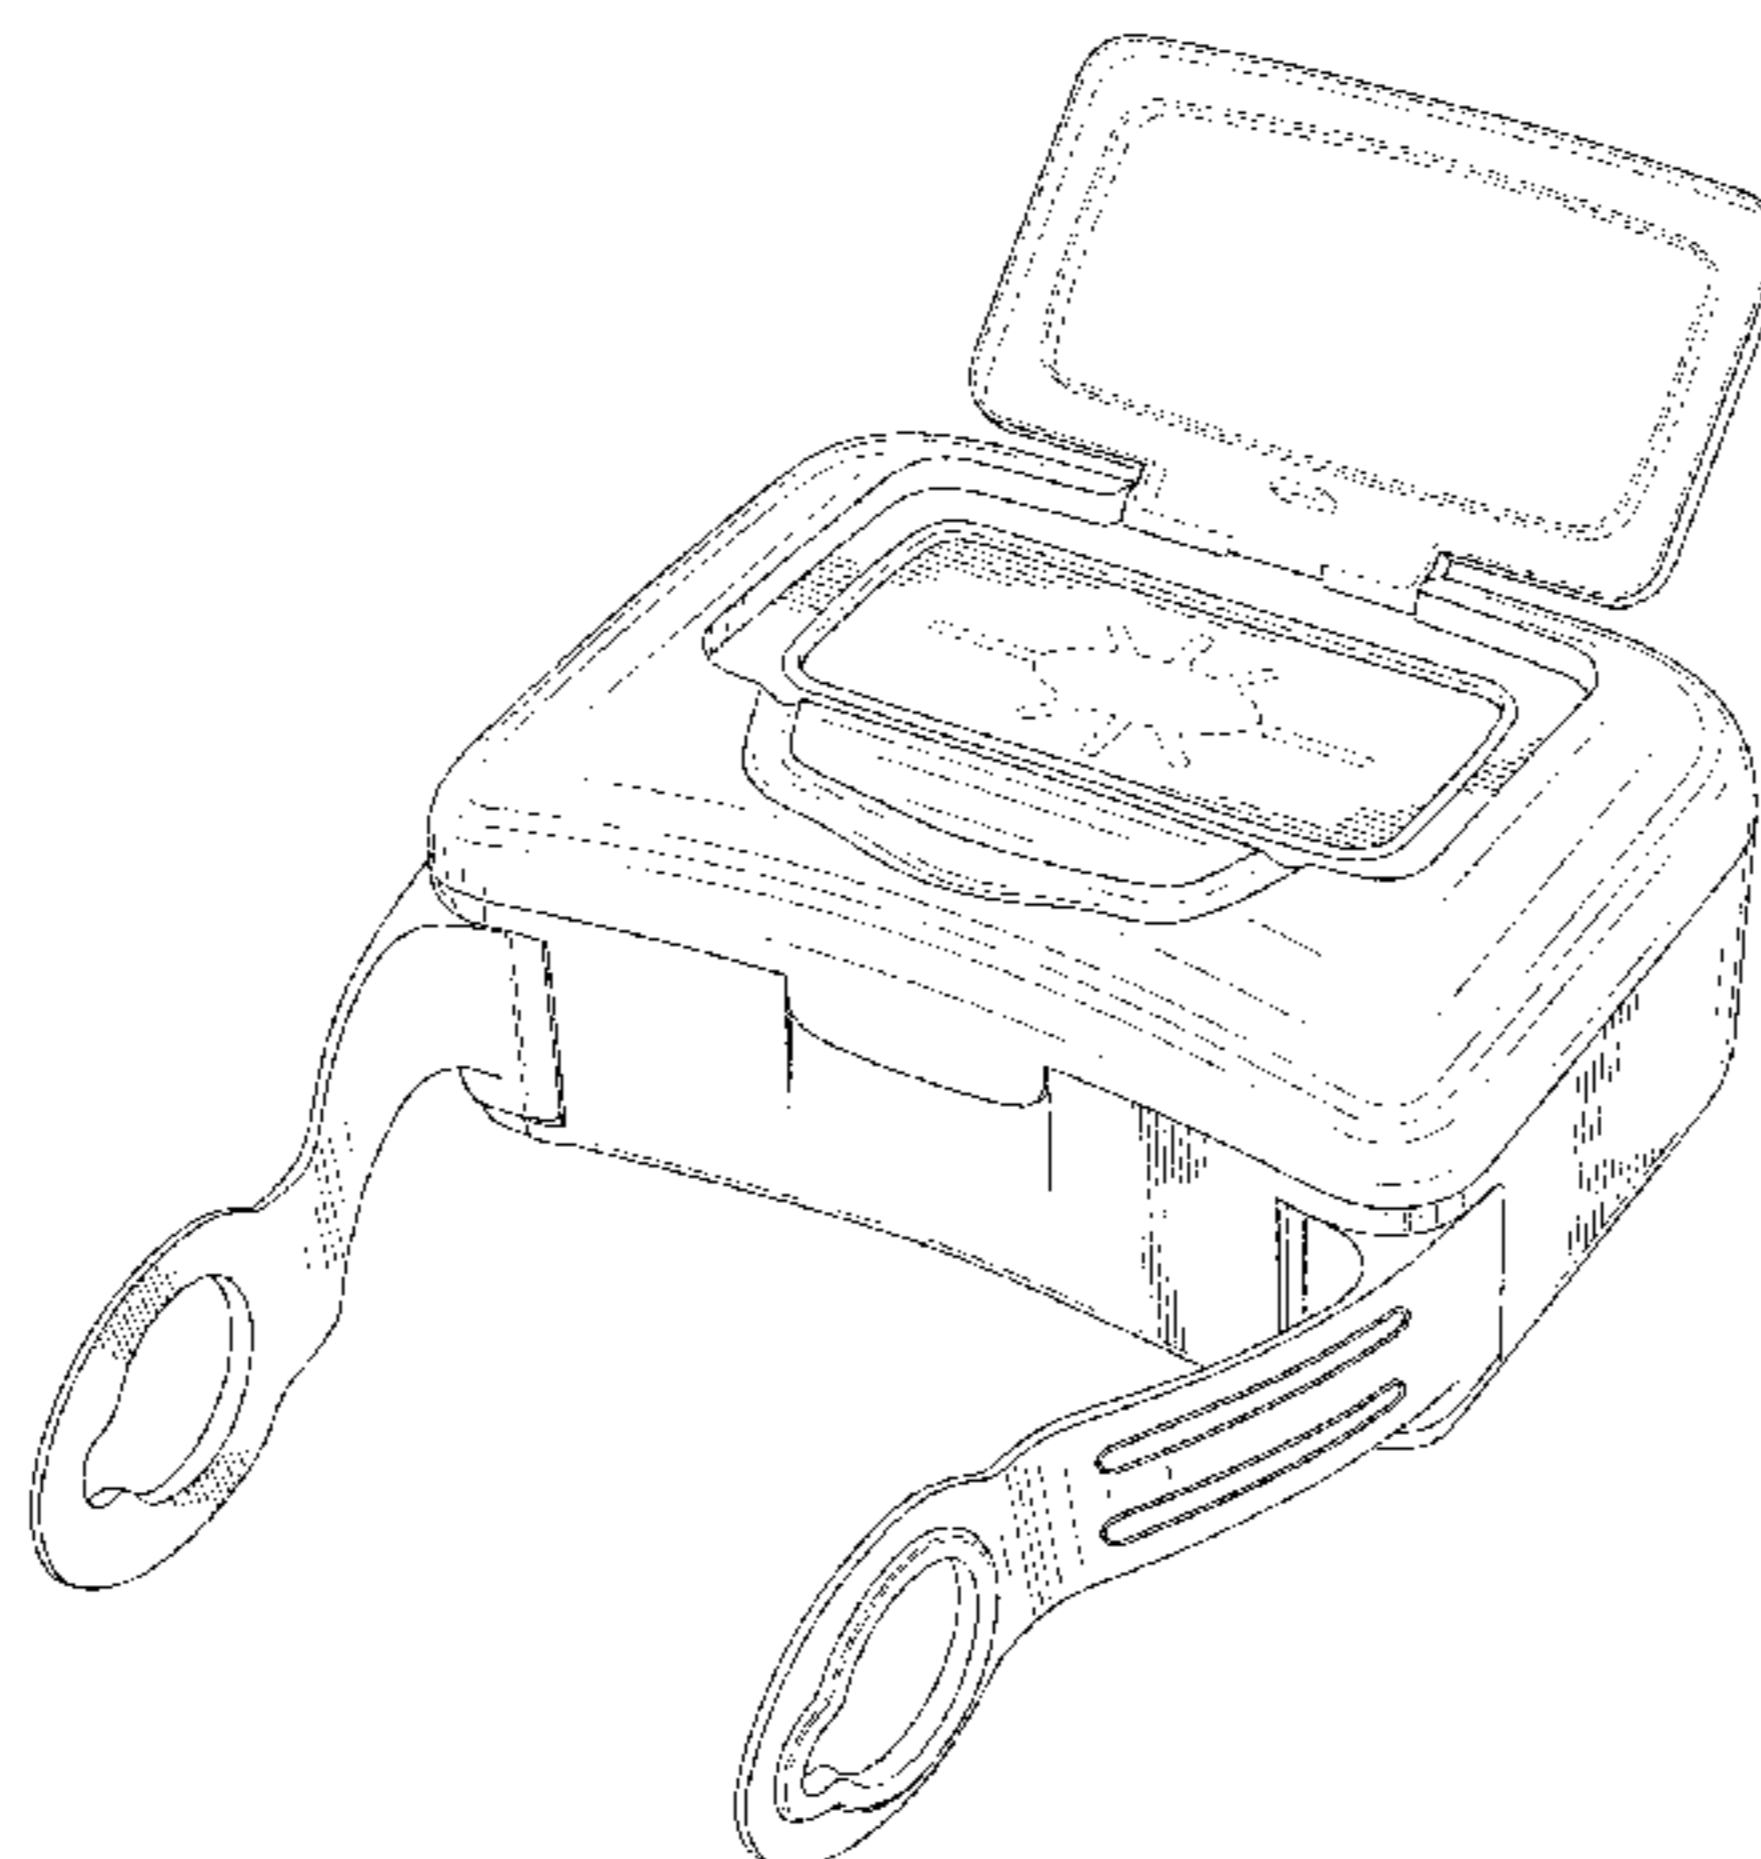

The ornamental design for a wipes canister, as shown and described.

**DESCRIPTION**

FIG. 1 is an upper front perspective view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 2 is a lower front view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 3 is a front view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 4 is a rear view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 5 is a left side view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 6 is a right side view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 7 is a top view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 8 is a bottom view with the support arms collapsed with upper lid and middle section closed;  
 FIG. 9 is an upper front perspective view with the support arms extended with upper lid open and middle section closed;  
 FIG. 10 is a lower front view with the support arms extended and lower spacer extended;  
 FIG. 11 is a front view with the support arms extended with upper lid open and middle section closed, and lower spacer extended;  
 FIG. 12 is a rear view with the support arms extended with upper lid open and middle section closed, and lower spacer extended;  
 FIG. 13 is a right side view with the support arms extended with upper lid open and middle section closed, and lower spacer extended;  
 FIG. 14 is a top view with the support arms extended with upper lid open and middle section closed; and,  
 FIG. 15 is a bottom view with the support arms extended with lower spacer extended.

The broken-line disclosure represents an unclaimed portion of the article in which the claimed design is embodied.
