(57) **CLAIM**

The ornamental design for a scaffolding module and scaffolding module frame, as shown and described.

DESCRIPTION

FIG. **1** is a top, front, and side perspective view of a scaffolding module frame in accordance with a first embodiment of the invention.

FIG. **2** is a top view of the scaffolding module frame of FIG. **1**.

FIG. **3** is a front view of the scaffolding module frame of FIG. **1**.

FIG. **4** is a side view of the scaffolding module frame of FIG. **1**.

FIG. **5** is a top, front, and side perspective view of a scaffolding module frame in accordance with a second embodiment of the invention.

FIG. **6** is a top view of the scaffolding module frame of FIG. **5**.

FIG. **7** is a front view of the scaffolding module frame of FIG. **5**.

FIG. **8** is a side view of the scaffolding module frame of FIG. **5**.

FIG. **9** is a top, front, and side perspective view of a scaffolding module in accordance with a first embodiment of a related invention.

FIG. **10** is a top view of the scaffolding module of FIG. **9**.

FIG. **11** is a front view of the scaffolding module of FIG. **9**.

FIG. **12** is a side view of the scaffolding module of FIG. **9**.

FIG. **13** is a top perspective view of a scaffolding module in accordance with a second embodiment of the related invention.

FIG. **14** is a top view of the scaffolding module of FIG. **13**.

FIG. **15** is a front view of the scaffolding module of FIG. **13**.

FIG. **16** is a side view of the scaffolding module of FIG. **13**.

FIG. **17** is a top, front, and side perspective view of a scaffolding module in accordance with a third embodiment of the related invention.

FIG. **18** is a top view of the scaffolding module of FIG. **17**.

FIG. **19** is a front view of the scaffolding module of FIG. **17**.

FIG. **20** is a side view of the scaffolding module of FIG. **17**; and,

FIG. **21** is a top, front and side perspective view of the scaffolding module in accordance with a fourth embodiment of the related invention.
