(57) **CLAIM**

The ornamental design for a tourniquet, as shown and described.

**DESCRIPTION**

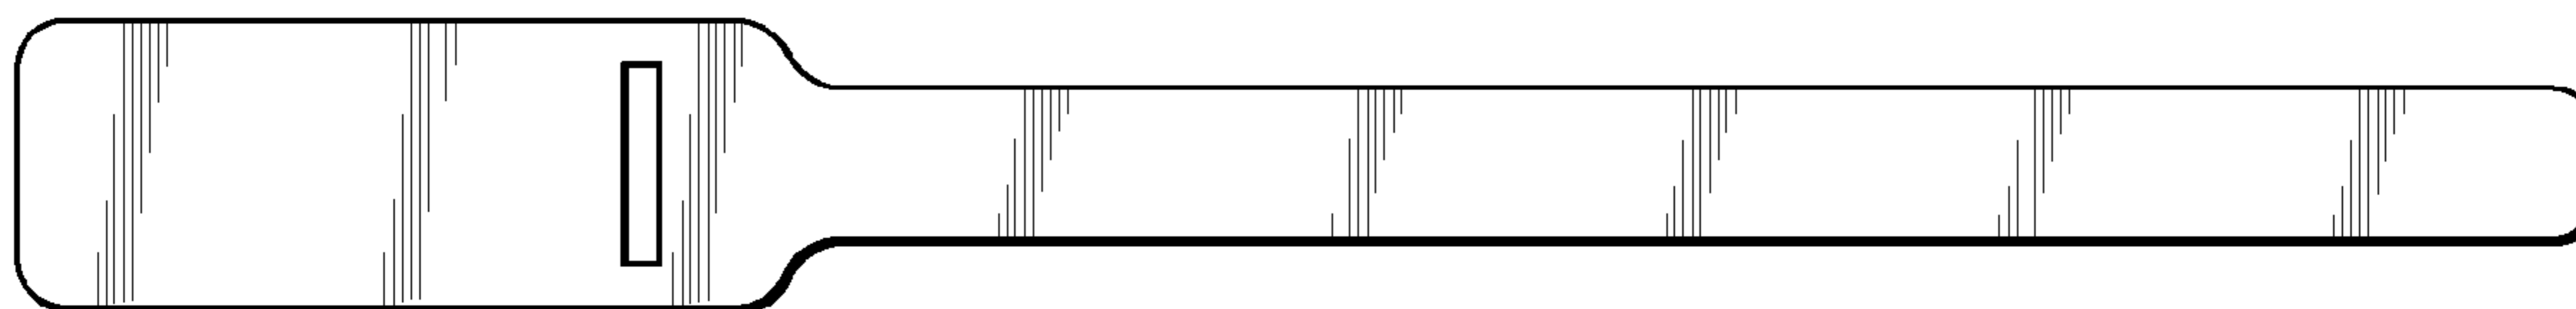

FIG. 1 is a top view of the tourniquet without indication of the removable area.

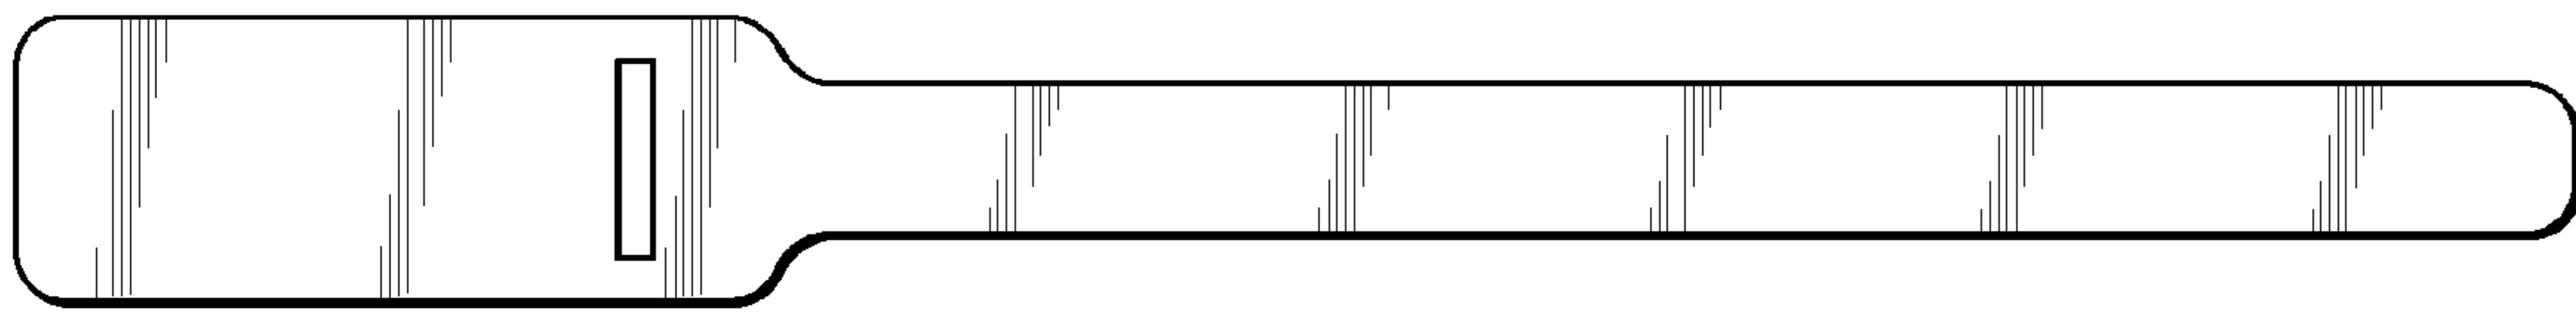

FIGS. 2, 3 and 4 are top views of the tourniquet each illustrating a removable area that can be removed to reveal an adhesive area; and,

FIG. 5 is a perspective view of the device in use, the end of the device has been contacted with an exposed adhesive area, so that the circular form is maintained.

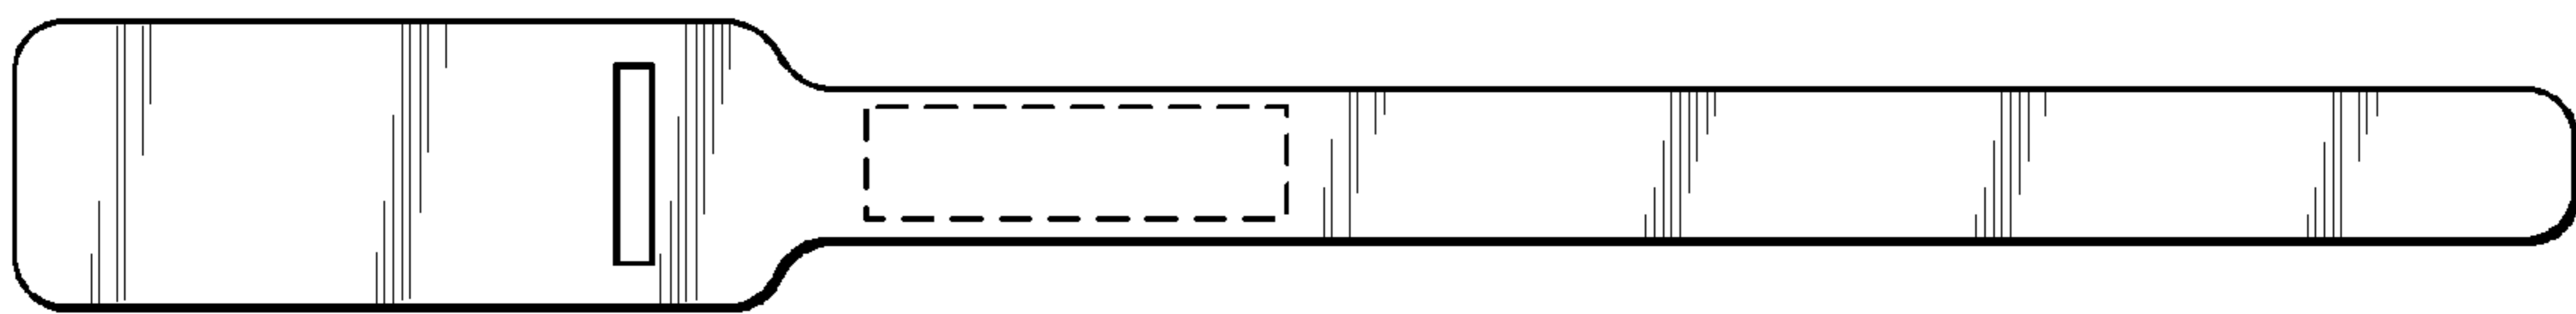

The broken line showing is for environmental purposes only and forms no part of the claimed design.
