(**) Term: **14 Years**

(57) **CLAIM**

The ornamental design for a holder for a device for delivering cellular material and physiologic fluids, as shown and described.

(21) Appl. No.: **29/415,973**

DESCRIPTION

(22) Filed: **Mar. 16, 2012**

(51) **LOC (9) Cl.** **24-02**

(52) **U.S. Cl.**
USPC **D24/113**

(58) **Field of Classification Search**

See application file for complete search history.

FIG. 1 is a top, right, front isometric view of a holder for use in a device for delivering cellular material and physiologic fluids showing our new design;
FIG. 2 is a bottom, left, rear isometric view;
FIG. 3 is a front elevational view;
FIG. 4 is a right side elevational view;
FIG. 5 is a rear elevational view;
FIG. 6 is a left side elevational view;
FIG. 7 is a top plan view;
FIG. 8 is a bottom plan view;
FIG. 9 is a top, right, front isometric view of the holder in a device for delivering cellular material and physiologic fluids that includes a micrometer and syringe and needle assembly, shown in broken lines;
FIG. 10 is a rear elevational view of the holder in the device; and,
FIG. 11 is a bottom plan view of the holder in the device.
The broken lines depict environmental structure only and form no part of the claimed design.
