(57) **CLAIM**

The ornamental design for a combined pin-hole liquid dispenser and cap, and holder therefor, as shown and described.

A combined pin-hole liquid dispenser and holder, for dispensing a liquid hand sanitizer through a bottom-facing pin-hole aperture, is provided. The malleable dispenser is detachable from the holder or may be seated in the holder. The pin-hole dispenser is also combined with a cap.

FIG. 1 is a perspective view of a combined pin-hole liquid dispenser and cap, and holder therefor showing my new design in an upright position;

FIG. 2 is a perspective view of the combined pin-hole liquid dispenser and cap, and holder therefor viewed from below;

FIG. 3 is a front elevation view of the combined pin-hole liquid dispenser and cap, and holder therefor;

FIG. 4 is a rear elevation view thereof;

FIG. 5 is a left side view thereof;

FIG. 6 is a right side view thereof;

FIG. 7 is a top plan view thereof;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a perspective view of the combined pin-hole liquid dispenser and cap, and holder therefor of FIG. 1 in a detached condition, wherein a combined pin-hole liquid dispenser and cap, and a holder, are detached one from another;

FIG. 10 is a perspective view of the combined pin-hole liquid dispenser and cap, and holder therefor of FIG. 2 in a detached condition, wherein a combined pin-hole liquid dispenser and cap, and a holder, are detached one from another;

FIG. 11 is right side view of the combined pin-hole liquid dispenser and cap, and holder therefor of FIG. 6 in a detached condition, wherein a combined pin-hole liquid dispenser and cap, and a holder, are detached one from another; and,

FIG. 12 is a rear perspective view of the combined pin-hole liquid dispenser and cap, and holder therefor in a detached condition, wherein a combined pin-hole liquid dispenser and cap, and a holder, are detached one from another. The broken line portions of the disclosure are for illustrative purposes only and form no part of the claimed design.
