(57) **CLAIM**

The ornamental design for an adjustable bracket, as shown and described.

DESCRIPTION

FIG. 1 is a rear perspective view of an adjustable bracket showing my new design.

FIG. 2 is a top orthogonal view of the adjustable bracket of FIG. 1; the bottom orthogonal view of the adjustable bracket of FIG. 1 is the mirror image of FIG. 2.

FIG. 3 is a right side orthogonal view of the adjustable bracket of FIG. 1; the left side orthogonal view of the adjustable bracket of FIG. 1 is the mirror image of FIG. 3.

FIG. 4 is a front orthogonal view of the adjustable bracket of FIG. 1.

FIG. 5 is a rear orthogonal view of the adjustable bracket of FIG. 1.

FIG. 6 is a rear orthogonal view of a forward component of adjustable bracket of FIG. 3 taken at line "6-6."

FIG. 7 is a front orthogonal view of a rearward component of adjustable bracket of FIG. 3 taken at line "7-7;" and,

FIG. 8 is a front perspective view of FIG. 1 in a sneeze guard environment. The broken lines showing of a partial vertical elongated support is for illustrative purposes only and forms no part of the claimed design.

The broken lines in the figures indicate portions of the adjustable bracket which form no part of the claimed design.
