(57) **CLAIM**

We claim the ornamental design for a satellite mounting pole,
as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of the satellite mounting pole of
this invention, the hidden line on the right end of the pole
indicates the interior is not part of the invention;

FIG. 2 is a side view thereof, the opposite side view being a
mirror image thereof;

FIG. 3 is a front view;

FIG. 4 is a back view;

FIG. 5 is a top view, with the broken lines internally thereof
not forming a part of the invention; and,

FIG. 6 is a bottom view, with the internal broken lines not
forming a part of the invention.

The satellite mounting pole is shown broken away to indicate
that no particular length is claimed beyond what is shown.
