(57) **CLAIM**

The new and ornamental design for an enveloped column core cosmetic applicator with feed hole, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the enveloped column core cosmetic applicator with feed hole with the end portion flocked;

FIG. 2 is a top plan view of the enveloped column core cosmetic applicator with feed hole;

FIG. 3 is a view in right side elevation of the enveloped column core cosmetic applicator with feed hole with the view in left side elevation being a mirror image thereof;

FIG. 4 is a bottom plan view of the enveloped column core cosmetic applicator with feed hole;

FIG. 5 is a view in rear elevation of the enveloped column core cosmetic applicator with feed hole;

FIG. 6 is a view in front elevation of the enveloped column core cosmetic applicator with feed hole;

FIG. 7 is a perspective view of the enveloped column core cosmetic applicator with feed hole with the end portion flocked as affixed to an applicator wand depicted with broken lines, the applicator wand not forming part of the invention;

FIG. 8 is a top plan view of the enveloped column core cosmetic applicator with feed hole with the end portion flocked as affixed to an applicator wand depicted with broken lines, the applicator wand not forming part of the invention;

FIG. 9 is a view in right side elevation of the enveloped column core cosmetic applicator with feed hole with the end portion flocked as affixed to an applicator wand depicted with broken lines, the applicator wand not forming part of the invention, and with the view in left side elevation being a mirror image thereof;

FIG. 10 is a bottom plan view of the enveloped column core cosmetic applicator with feed hole with the end portion flocked as affixed to an applicator wand depicted with broken lines, the applicator wand not forming part of the invention;

FIG. 11 is a view in front elevation of the enveloped column core cosmetic applicator with feed hole with the end portion flocked as affixed to an applicator wand depicted with broken lines, the applicator wand not forming part of the invention; and,

FIG. 12 is a view in rear elevation of the enveloped column core cosmetic applicator with feed hole with the end portion flocked as affixed to an applicator wand depicted with broken lines, the applicator wand not forming part of the invention. The broken lines are shown for illustrative purposes only and form no part of the claimed design.
