(57) **CLAIM**

The ornamental design for a portion of a display screen with icon, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the first image in a sequence of the portion of a display screen with icon, showing my new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof; and,

FIG. 4 is a front view of a fourth image thereof.

The appearance of the portion of a display screen with icon sequentially transitions between the images shown in FIGS. 1 through 4. The subject matter of this patent includes a process or period in which an image changes into another image. This process forms no part of the claimed design.

The broken line perimeter of the portion of a display screen with icon represents the boundaries of the claim and forms no part thereof.
