(57) **CLAIM**

The ornamental design for a slim wallpack light fixture, substantially as shown and described.

DESCRIPTION

FIG. 1 is a bottom-right perspective view of an embodiment of the new design;

FIG. 2 is a front perspective view of the embodiment of FIG. 1;

FIG. 3 is a front view of the embodiment of FIG. 1;

FIG. 4 is a left side view of the embodiment of FIG. 1;

FIG. 5 is a bottom view of the embodiment of FIG. 1;

FIG. 6 is a top view of the embodiment of FIG. 1;

FIG. 7 is a rear view of the embodiment of FIG. 1;

FIG. 8 is a front view of a first illustrative example width of the embodiment of FIG. 1;

FIG. 9 is a front view of a second illustrative example width of the embodiment of FIG. 1; and,

FIG. 10 is a front view of a third illustrative example width of the embodiment of FIG. 1.

The broken lines shown in the drawings are for the purpose of illustrating portions of the article that form no part of the claimed design. The right side view is a mirror image of the left side view and is therefore omitted. The body of the design in FIGS. 1-3 and 5-7 is represented in broken away style to show that no particular width of the light fixture is claimed. The perspective, left, right, bottom, top, and rear views are omitted for the first, second, and third illustrative example widths of the new design shown in FIGS. 8-10. These views are omitted because they are the same as the corresponding views for FIGS. 1-7, with the exception of the difference in the width of the various examples of the design.
