(57) **CLAIM**

I claim the ornamental design for a curvy cat collar cover, as shown and described.

DESCRIPTION

FIG. 1 is a top, right front perspective view of a curvy cat collar cover showing my new design;
 FIG. 2 is a front elevational view, the rear elevational view being a mirror image thereof;
 FIG. 3 is a bottom plan view thereof;
 FIG. 4 is a top plan view thereof;
 FIG. 5 is an end elevational view, the opposite end being a mirror image thereof; and,
 FIG. 6 is a perspective view thereof shown in use.
 The broken line depiction of the cat and the stitching have been shown to illustrate environmental features that form no part of the claimed design.
 The curvy cat collar cover is a sleeve of fabric that is sewn together on the long curvy edge and remains open at each end, allowing for the insertion of a cat collar.
