The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the full tire showing my new design, it being understood that the pattern repeats uniformly throughout the circumference of the tread.

FIG. 2 is a front view of the full tire thereof.

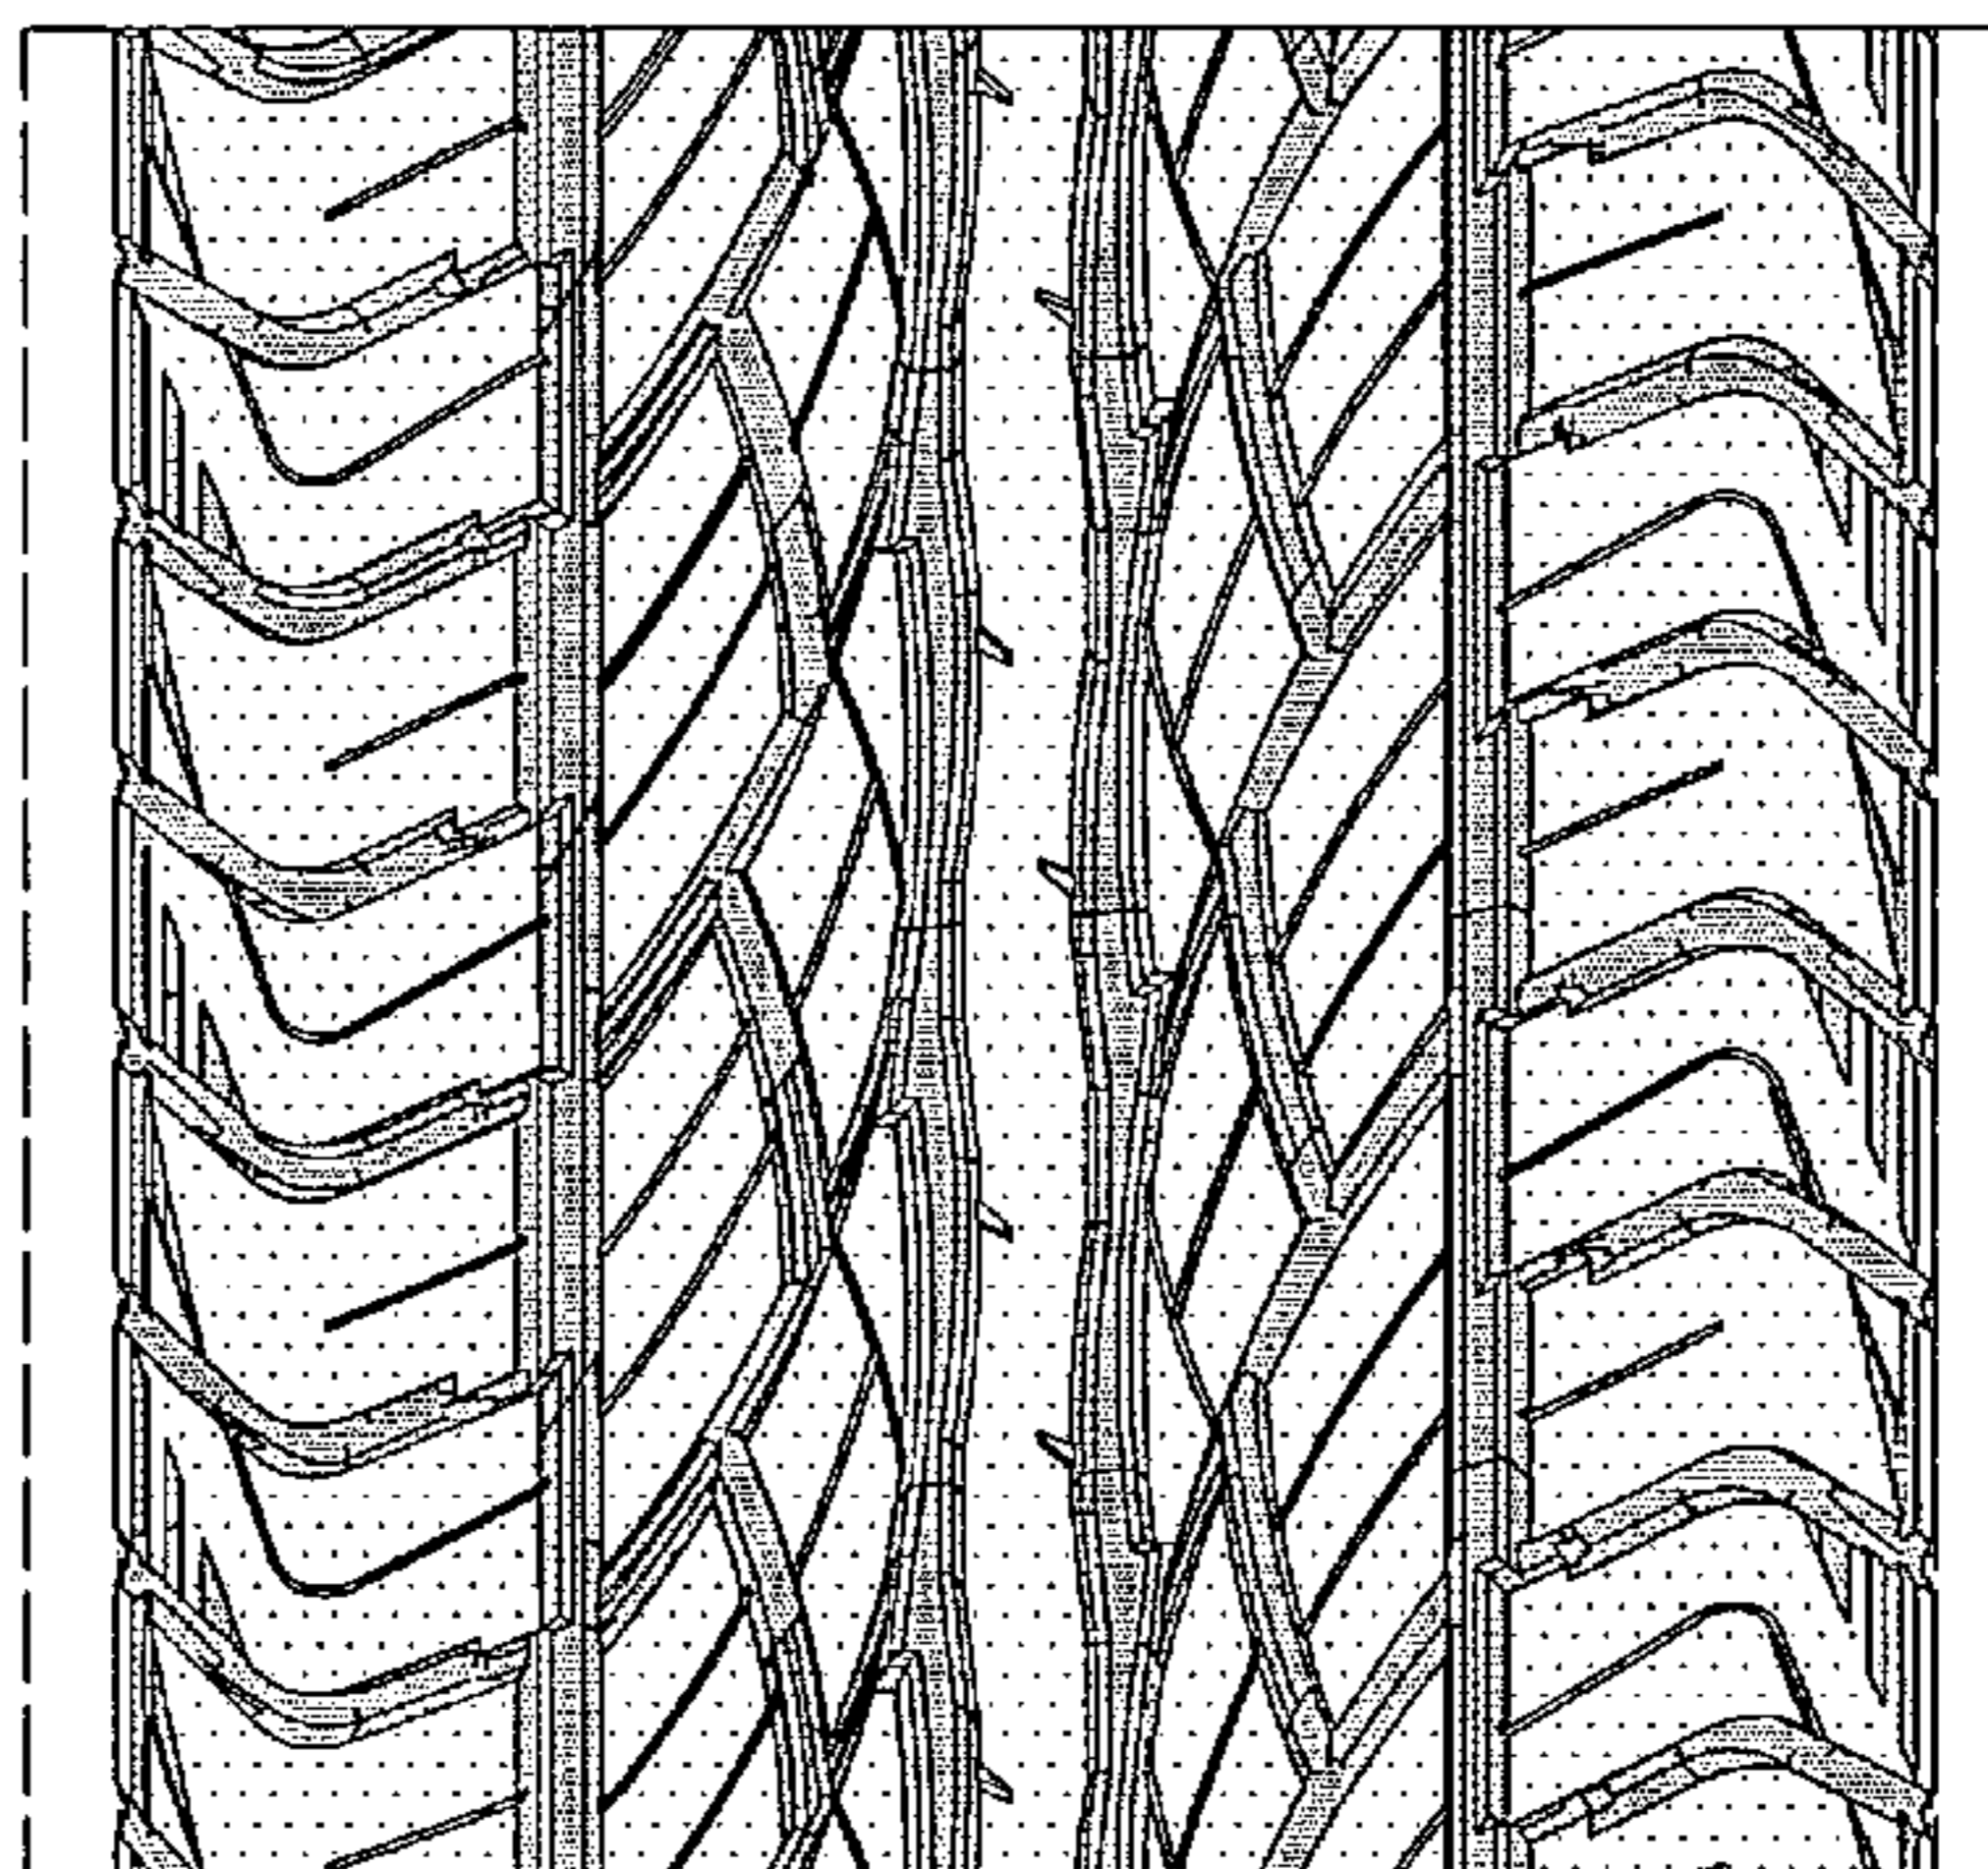

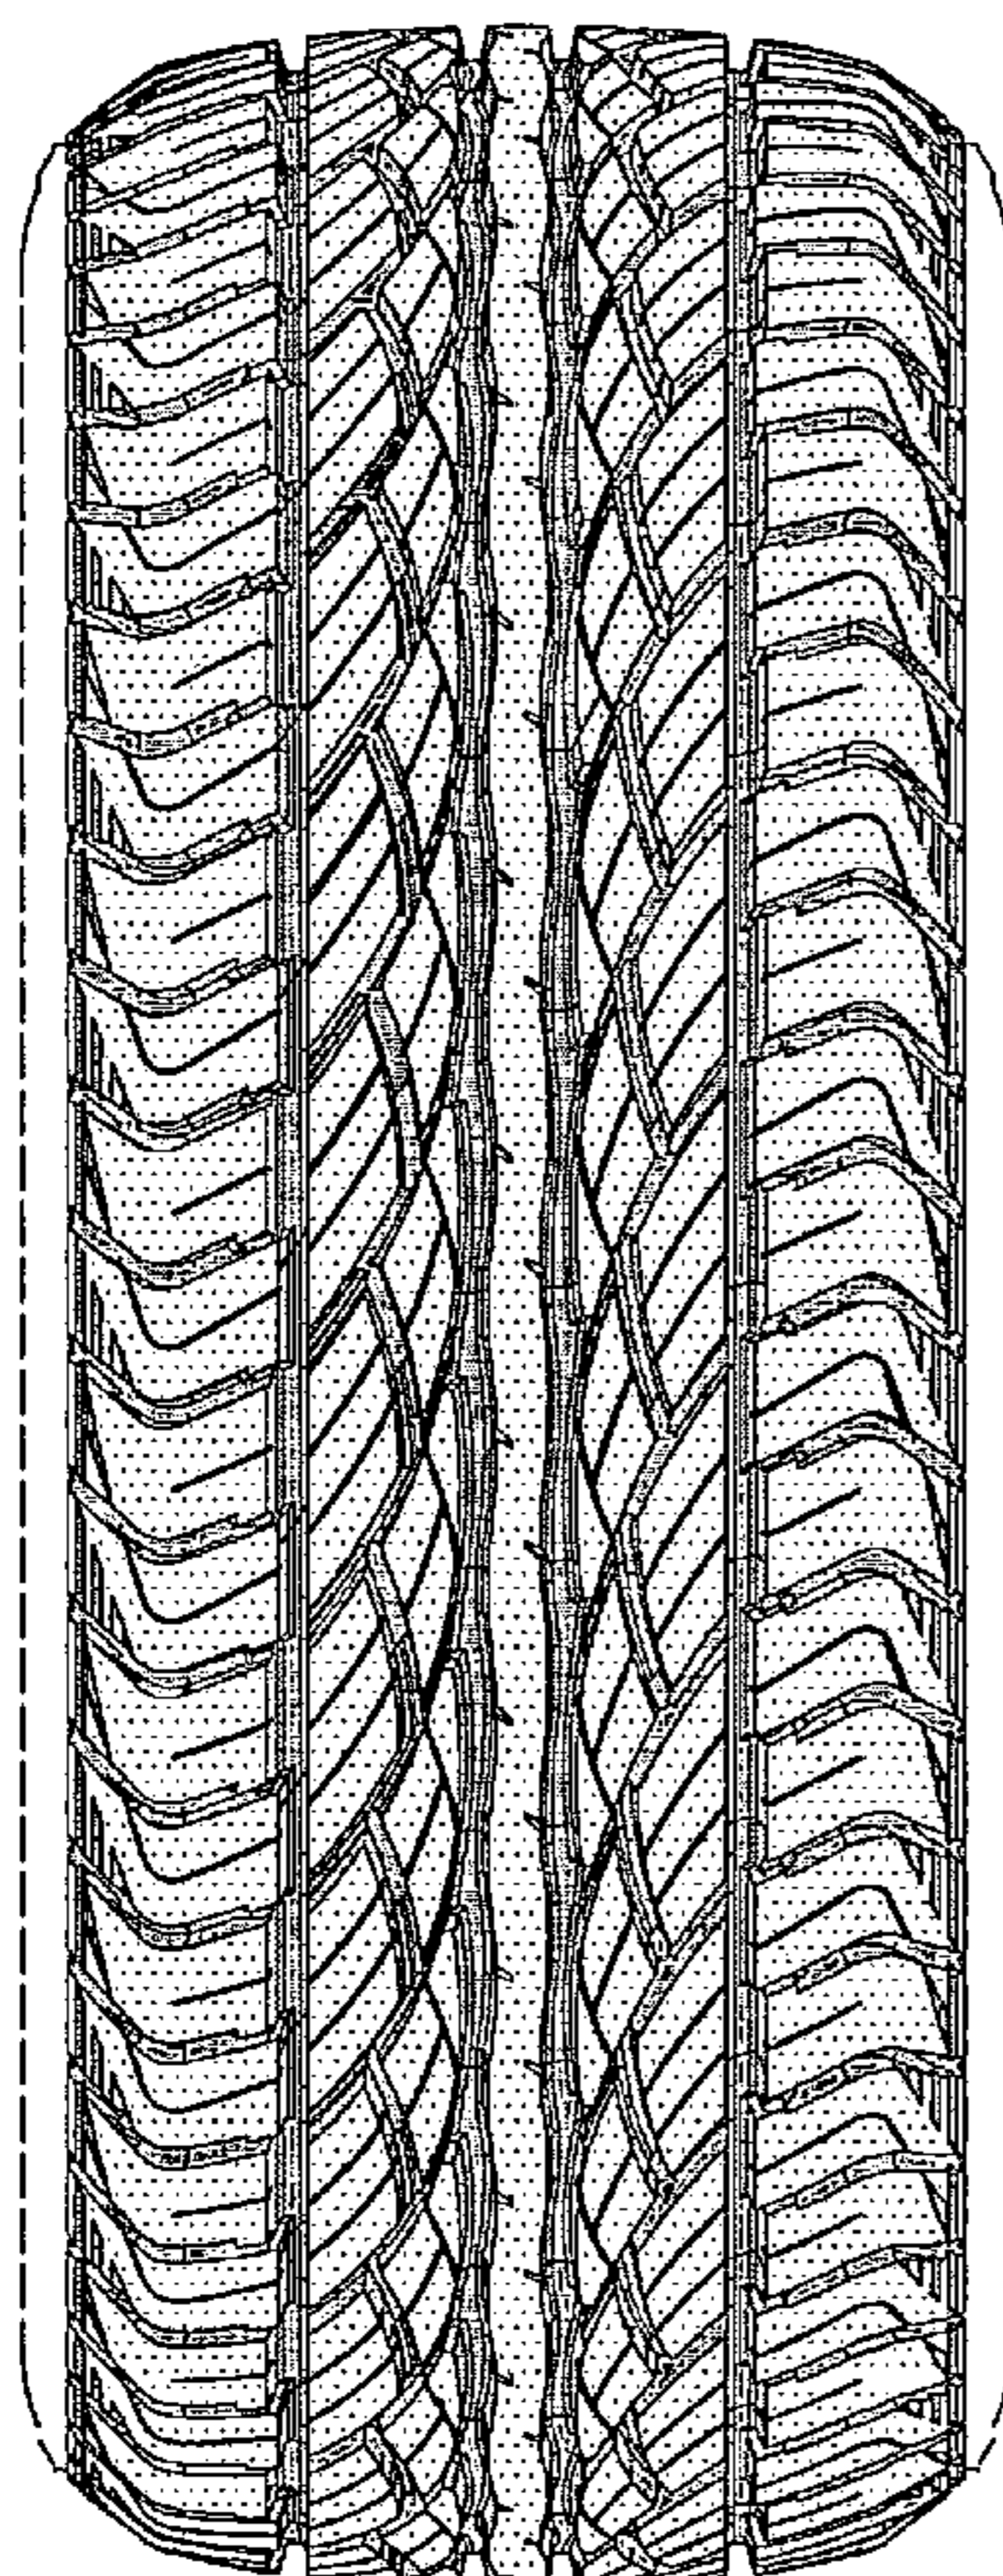

FIG. 3 is a side view of the full tire thereof; the opposite side view being identical thereto; and,

FIG. 4 is a partial close up front view thereof.

In the drawings, the broken lines defining the sidewall, inner bead and the peripheral boundary between the tire tread and the sidewall are for illustrative purposes only and form no part of the claimed design.
