(57) **CLAIM**

The ornamental design for a massager with flexible handles and connection members, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view of an embodiment of a massager with flexible handles and connection members of my new design in a taut state.

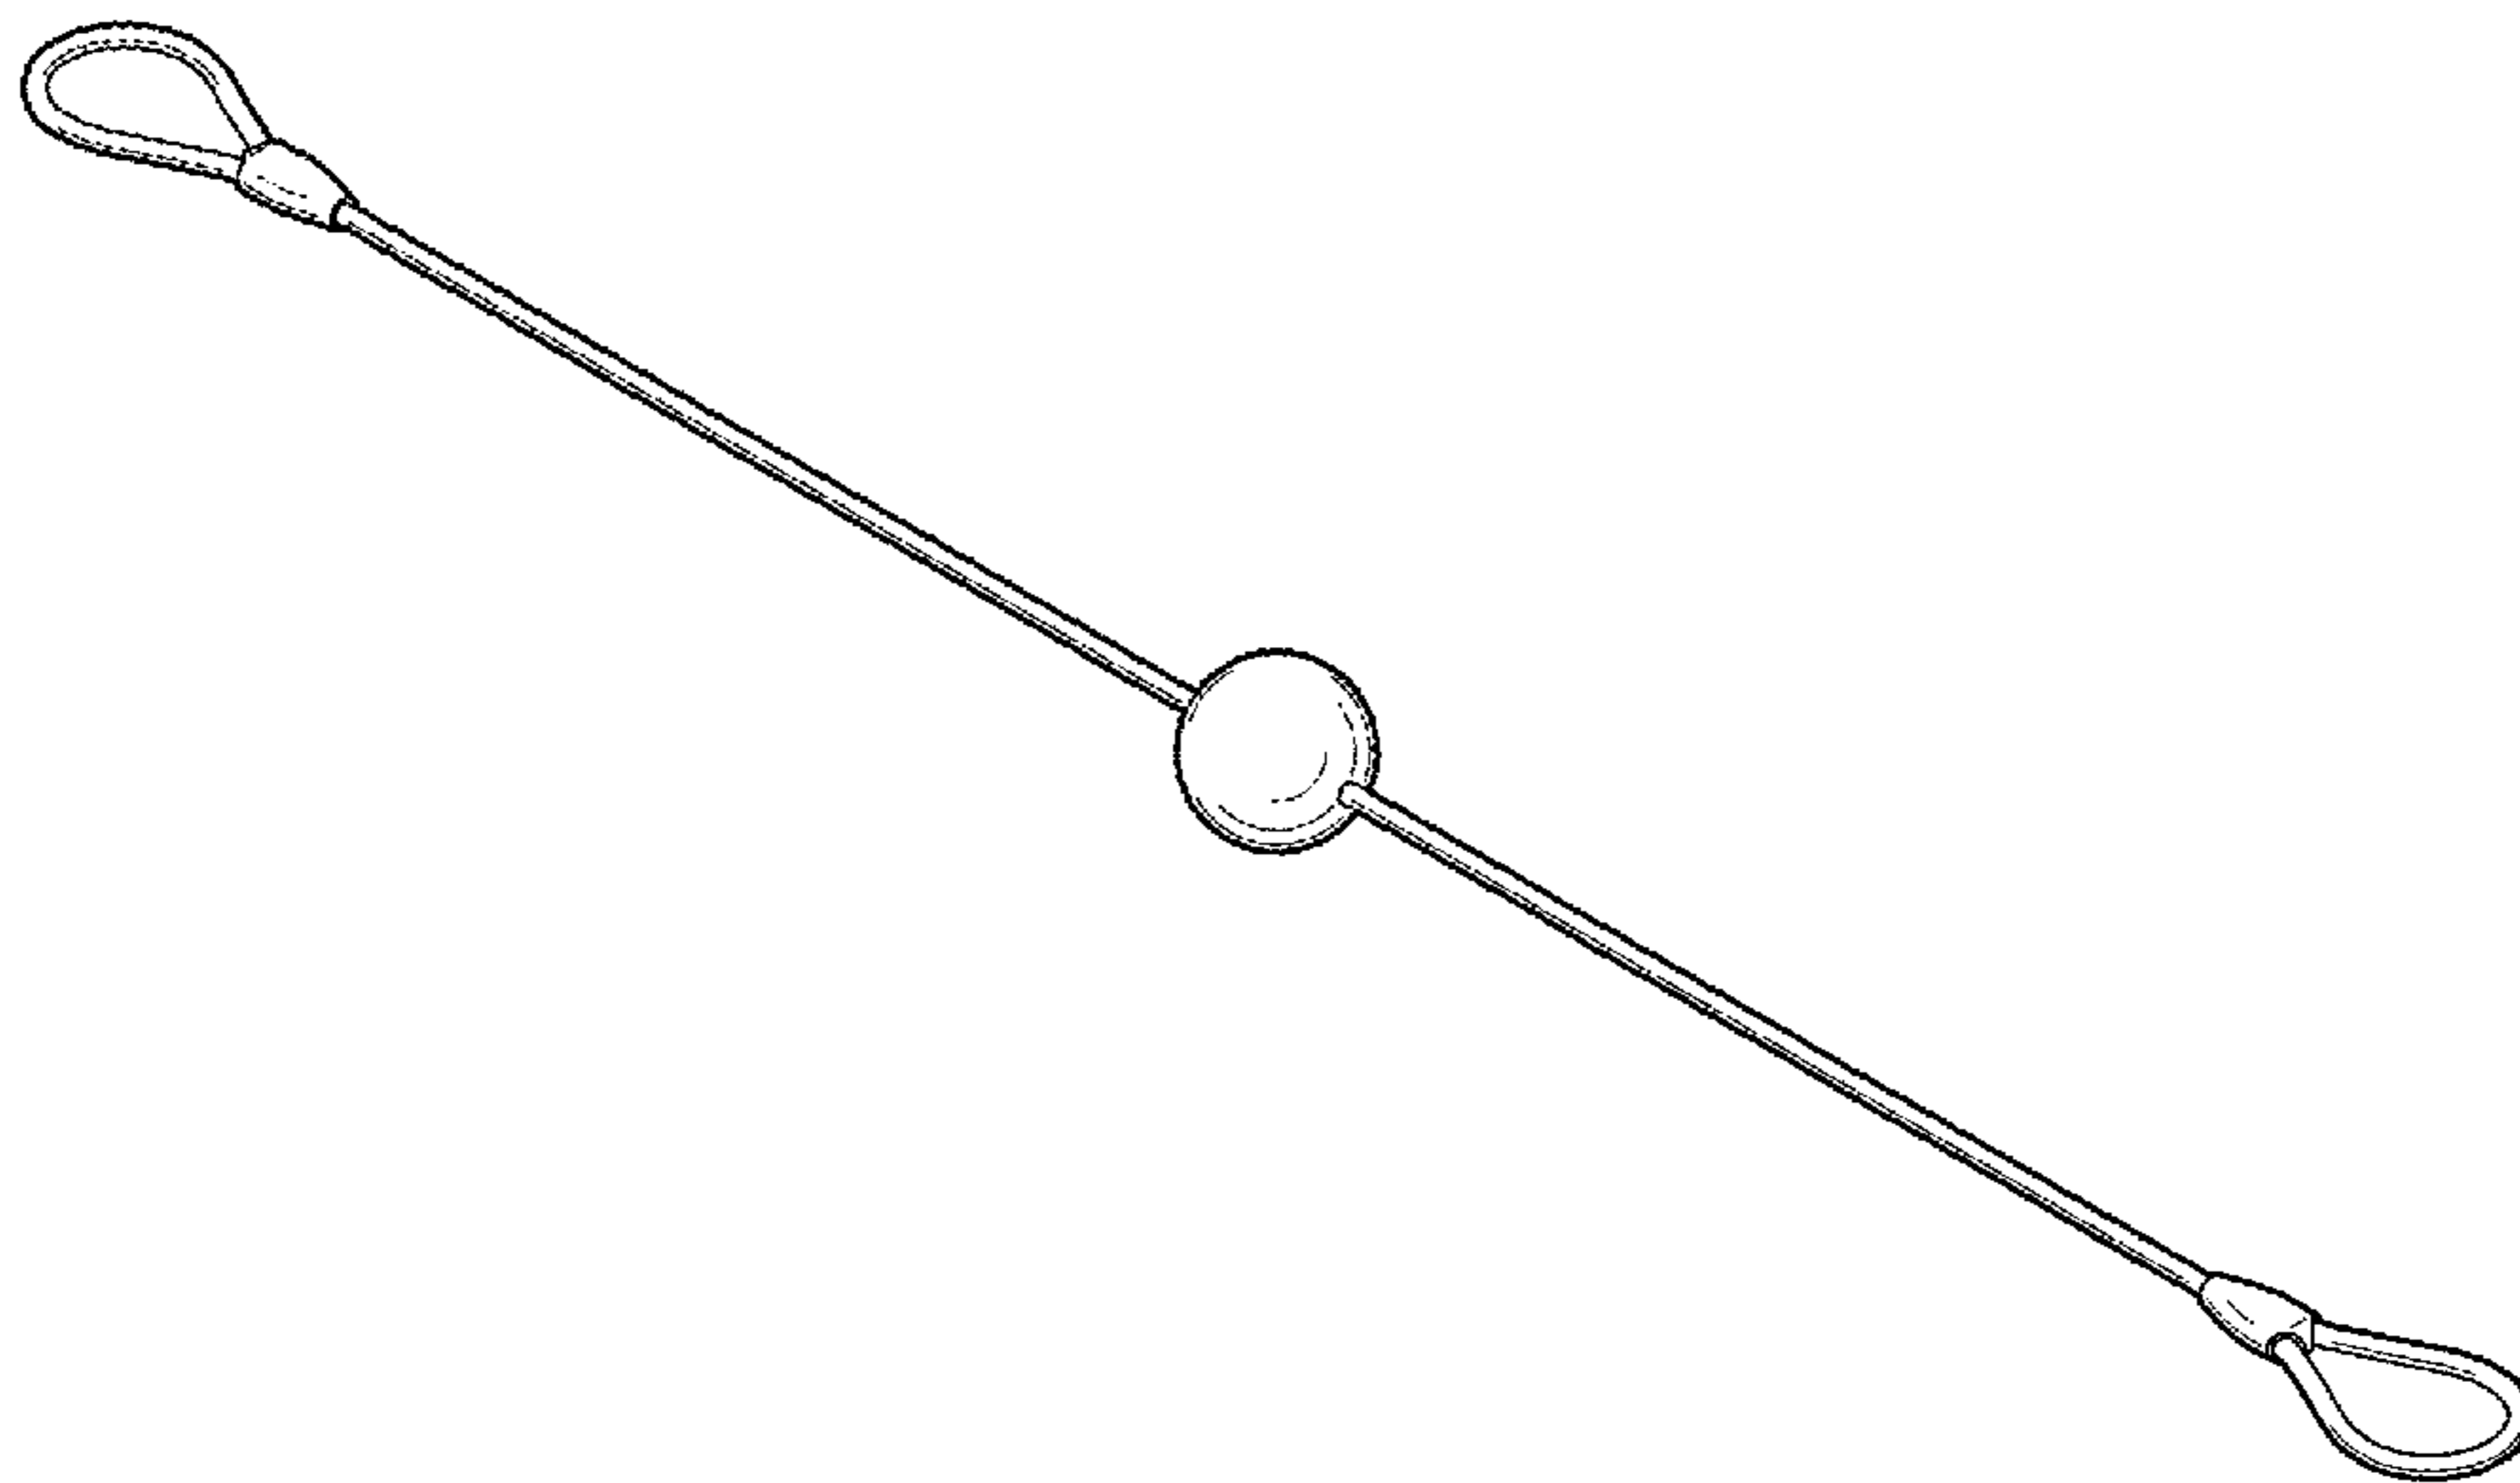

FIG. 2 is a top plan view of the massager with flexible handles and connection members of FIG. 1. The bottom plan view is the same.

FIG. 3 is a right side view of the massager with flexible handles and connection members of FIG. 1. The left side view is the same.

FIG. 4 is a front plan view of the massager with flexible handles and connection members of FIG. 1. The back view is the same; and,

FIG. 5 is a perspective view of the massager with flexible handles and connection members of FIG. 1 with the handles and the connection members of the massager in a relaxed state.
