(57) **CLAIM**
The ornamental design for a liquid extraction device, as shown and described.

DESCRIPTION

FIG. 1 is a right side prospective view of a liquid extraction device shown in a partially closed position according to the present invention.

FIG. 2 is a front elevation view of a liquid extraction device according to the present invention.

FIG. 3 is a rear elevation view of a liquid extraction device according to the present invention.

FIG. 4 is a top plan view of a liquid extraction device according to the present invention.

FIG. 5 is a bottom plan view of a liquid extraction device according to the present invention.

FIG. 6 is a right side elevation view of a liquid extraction device according to the present invention; and,

FIG. 7 is a left side elevation view of a liquid extraction device according to the present invention.

The dotted-lines illustrated in the Figures are directed to subject matter that forms no part of the claimed design.
