(57) **CLAIM**

I claim the ornamental design for a key tool, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing a first embodiment of the key tool;

FIG. 2 is a left side elevational view thereof.

FIG. 3 is a right side elevational view thereof.

FIG. 4 is a top plan view thereof.

FIG. 5 is a bottom plan view thereof.

FIG. 6 is a front elevational view thereof.

FIG. 7 is a rear elevational view thereof.

FIG. 8 is a further left side elevational view of the first embodiment of the key tool with the key shown positioned for manipulating the key tool.

FIG. 9 is a perspective view showing a second embodiment of the key tool.

FIG. 10 is a left side elevational view thereof.

FIG. 11 is a right side elevational view thereof.

FIG. 12 is a top plan view thereof.

FIG. 13 is a bottom plan view thereof.

FIG. 14 is a front elevational view thereof.

FIG. 15 is a rear elevational view thereof.

FIG. 16 is a further left side elevational view of the second embodiment of the key tool with the key shown positioned for manipulating the key tool.

FIG. 17 is a perspective view showing a third embodiment of the key tool.

FIG. 18 is a left side elevational view thereof.

FIG. 19 is a right side elevational view thereof.

FIG. 20 is a top plan view thereof.

FIG. 21 is a bottom plan view thereof.

FIG. 22 is a front elevational view thereof.

FIG. 23 is a rear elevational view thereof.

FIG. 24 is a further left side elevational view of the third embodiment of the key tool with the key shown positioned for manipulating the key tool.

FIG. **25** is a perspective view showing a fourth embodiment of the key tool.

FIG. **26** is a left side elevational view thereof.

FIG. **27** is a right side elevational view thereof.

FIG. **28** is a top plan view thereof.

FIG. **29** is a bottom plan view thereof.

FIG. **30** is a front elevational view thereof.

FIG. **31** is a rear elevational view thereof.

FIG. **32** is a further left side elevational view of the fourth embodiment of the key tool with the key shown positioned for manipulating the key tool.

FIG. **33** is a perspective view showing a fifth embodiment of the key tool.

FIG. **34** is a left side elevational view thereof.

FIG. **35** is a right side elevational view thereof.

FIG. **36** is a top plan view thereof.

FIG. **37** is a bottom plan view thereof.

FIG. **38** is a front elevational view thereof.

FIG. **39** is a rear elevational view thereof.

FIG. **40** is a further left side elevational view of the fifth embodiment of the key tool with the key shown positioned for manipulating the key tool.

FIG. **41** is a perspective view showing a sixth embodiment of the key tool.

FIG. **42** is a left side elevational view thereof.

FIG. **43** is a right side elevational view thereof.

FIG. **44** is a top plan view thereof.

FIG. **45** is a bottom plan view thereof.

FIG. **46** is a front elevational view thereof.

FIG. **47** is a rear elevational view thereof; and,

FIG. **48** is a further left side elevational view of the sixth embodiment of the key tool with the key shown positioned for manipulating the key tool.

The writing shown on FIGS. **25-48** are two-dimensional indicia.

The broken line showing of environment is included for the purpose of illustrating portions of the key tool and form no part of the claimed design.
