(57) **CLAIM**

The ornamental design for a location tracking device and connector port, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a first embodiment of a location tracking device and connector port showing our new design.

FIG. 2 is a bottom perspective view of the location tracking device and connector port.

FIG. 3 is a top view of the location tracking device and connector port.

FIG. 4 is a bottom view of the location tracking device and connector port.

FIG. 5 is a side view of a first side of the location tracking device and connector port.

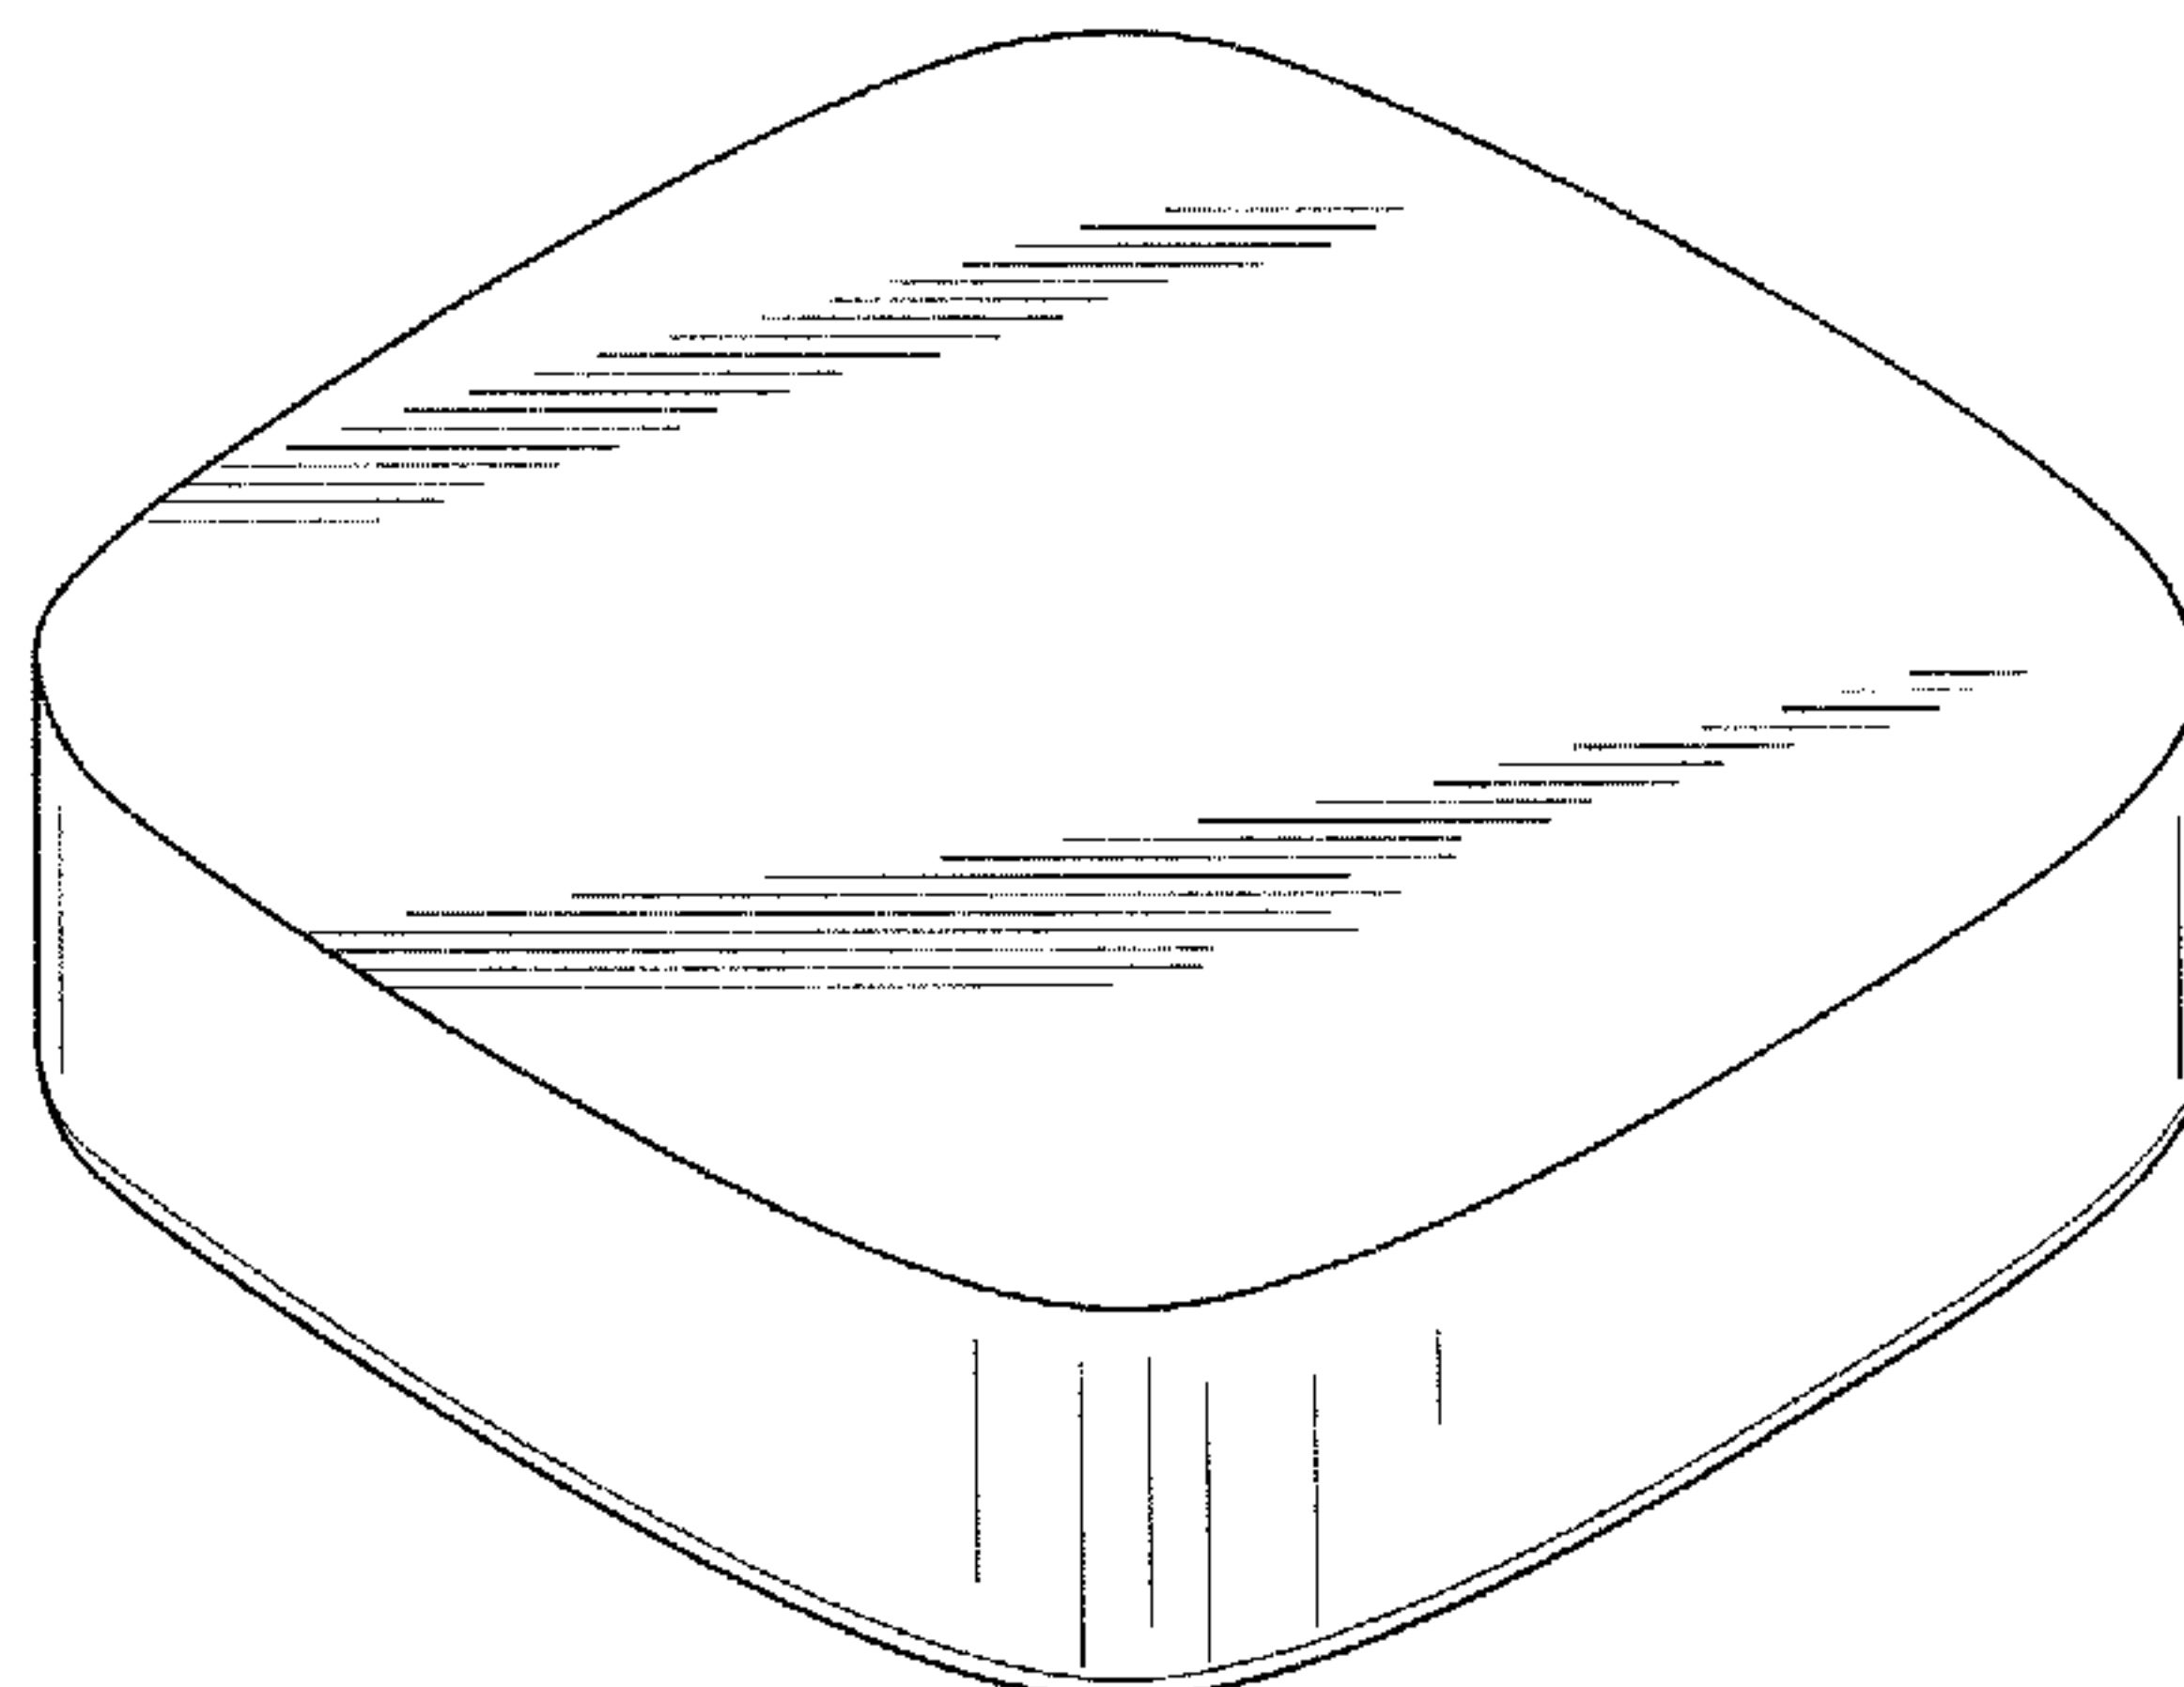

FIG. 6 is a side view of a second side of the location tracking device and connector port.

FIG. 7 is a side view of a third side of the location tracking device and connector port; and,

FIG. 8 is a side view of a fourth side of the location tracking device and connector port.

Throughout the Figures, aspects shown in broken lines are not considered a portion of the claimed ornamental design.
