(57) **CLAIM**

The ornamental design for an endoscope connector, as shown and described.

DESCRIPTION

FIG. 1 is a left side elevational view of an endoscope connector according to the present invention, the right side elevational view being a mirror image thereof.

FIG. 2 is a front elevational view of the endoscope connector of claim 1.

FIG. 3 is a rear elevational view of the endoscope connector of claim 1.

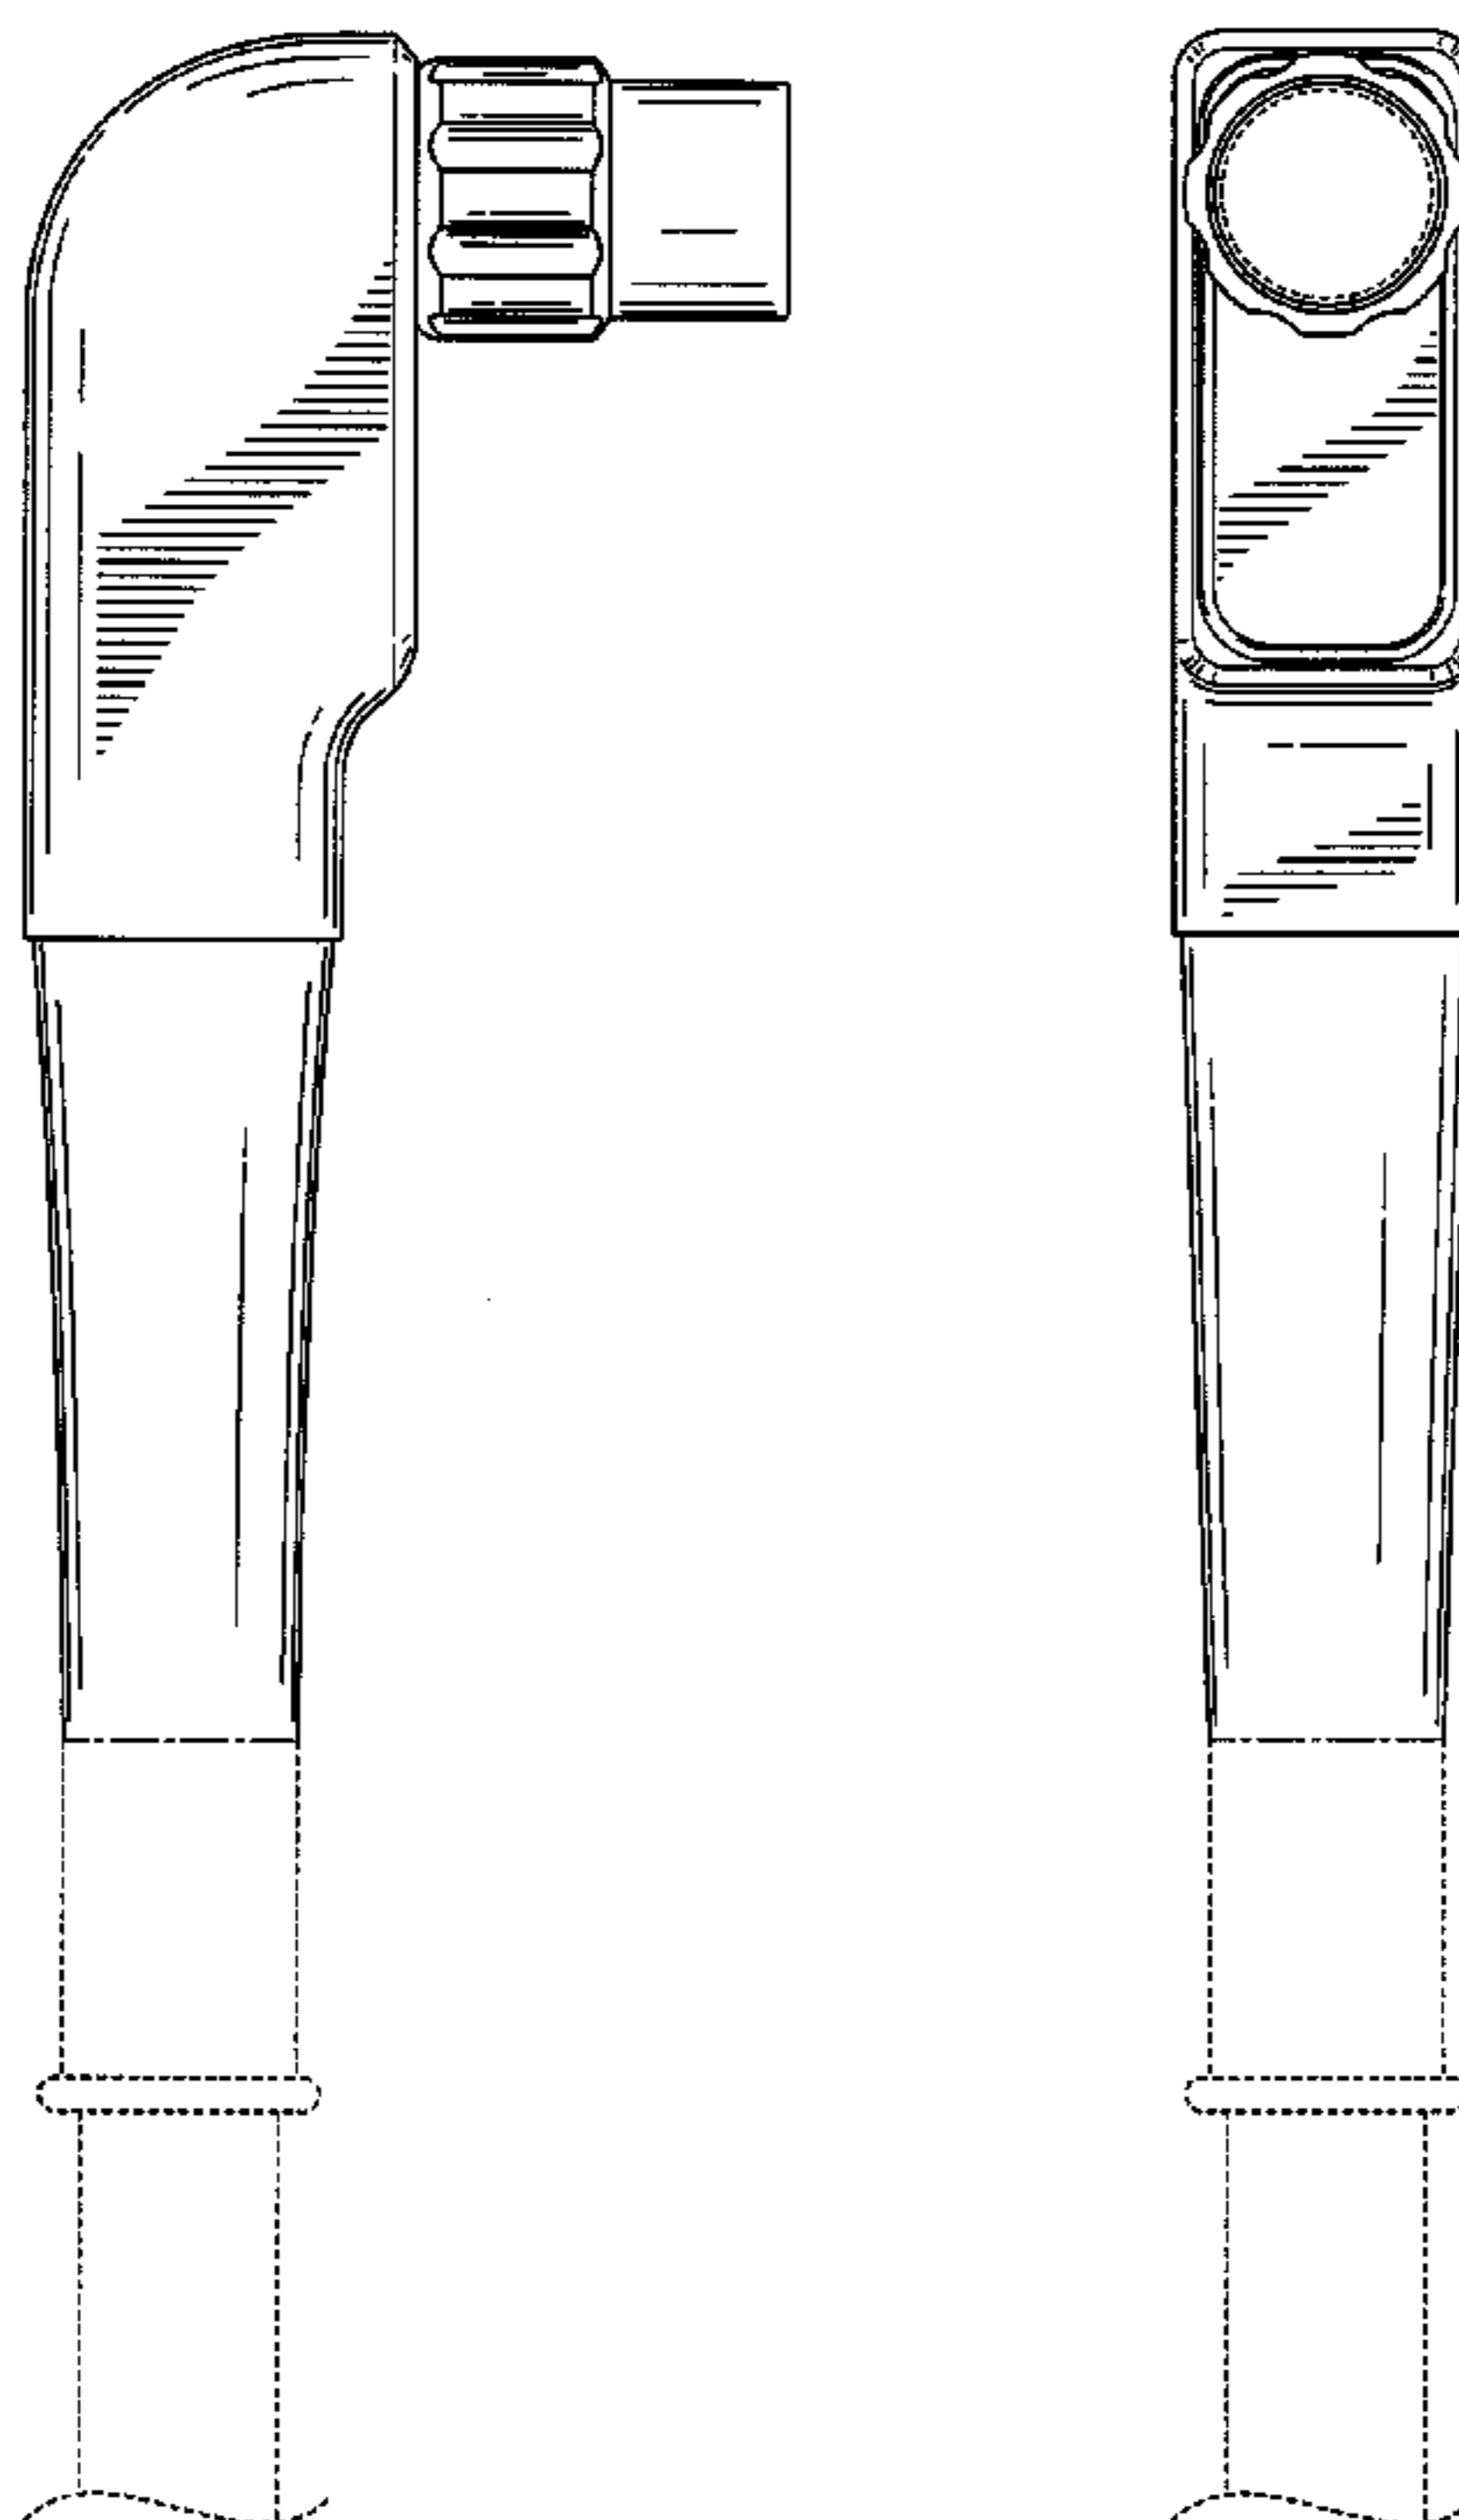

FIG. 4 is a top plan view of the endoscope connector of claim 1.

FIG. 5 is a bottom plan view of the endoscope connector of claim 1; and,

FIG. 6 is a perspective view of the endoscope connector of claim 1.

The broken lines immediately adjacent the shaded areas represent the bounds of the claimed design while all other broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design.
