(57) **CLAIM**

The ornamental design for a display panel or screen with a computer generated image, as shown and described.

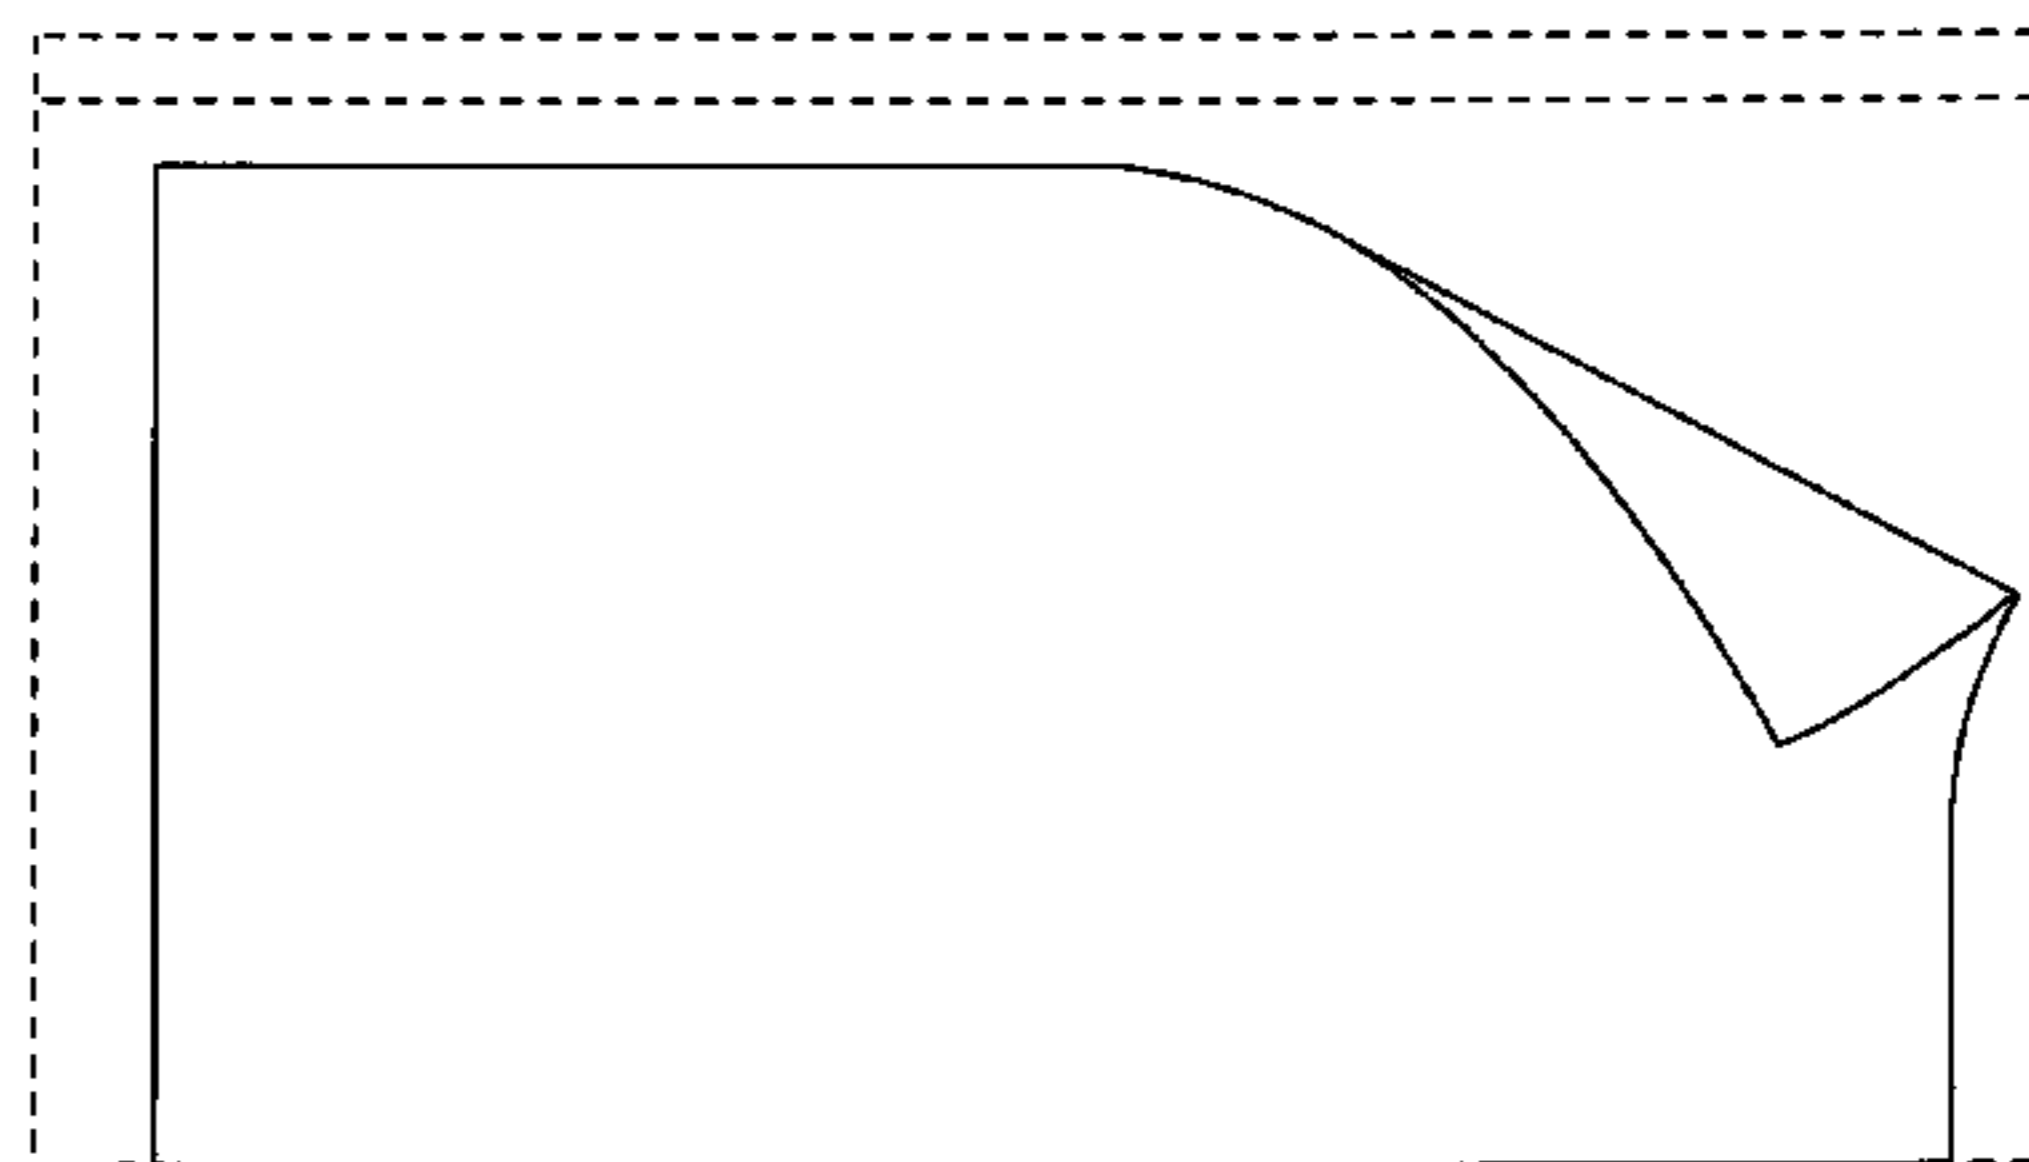

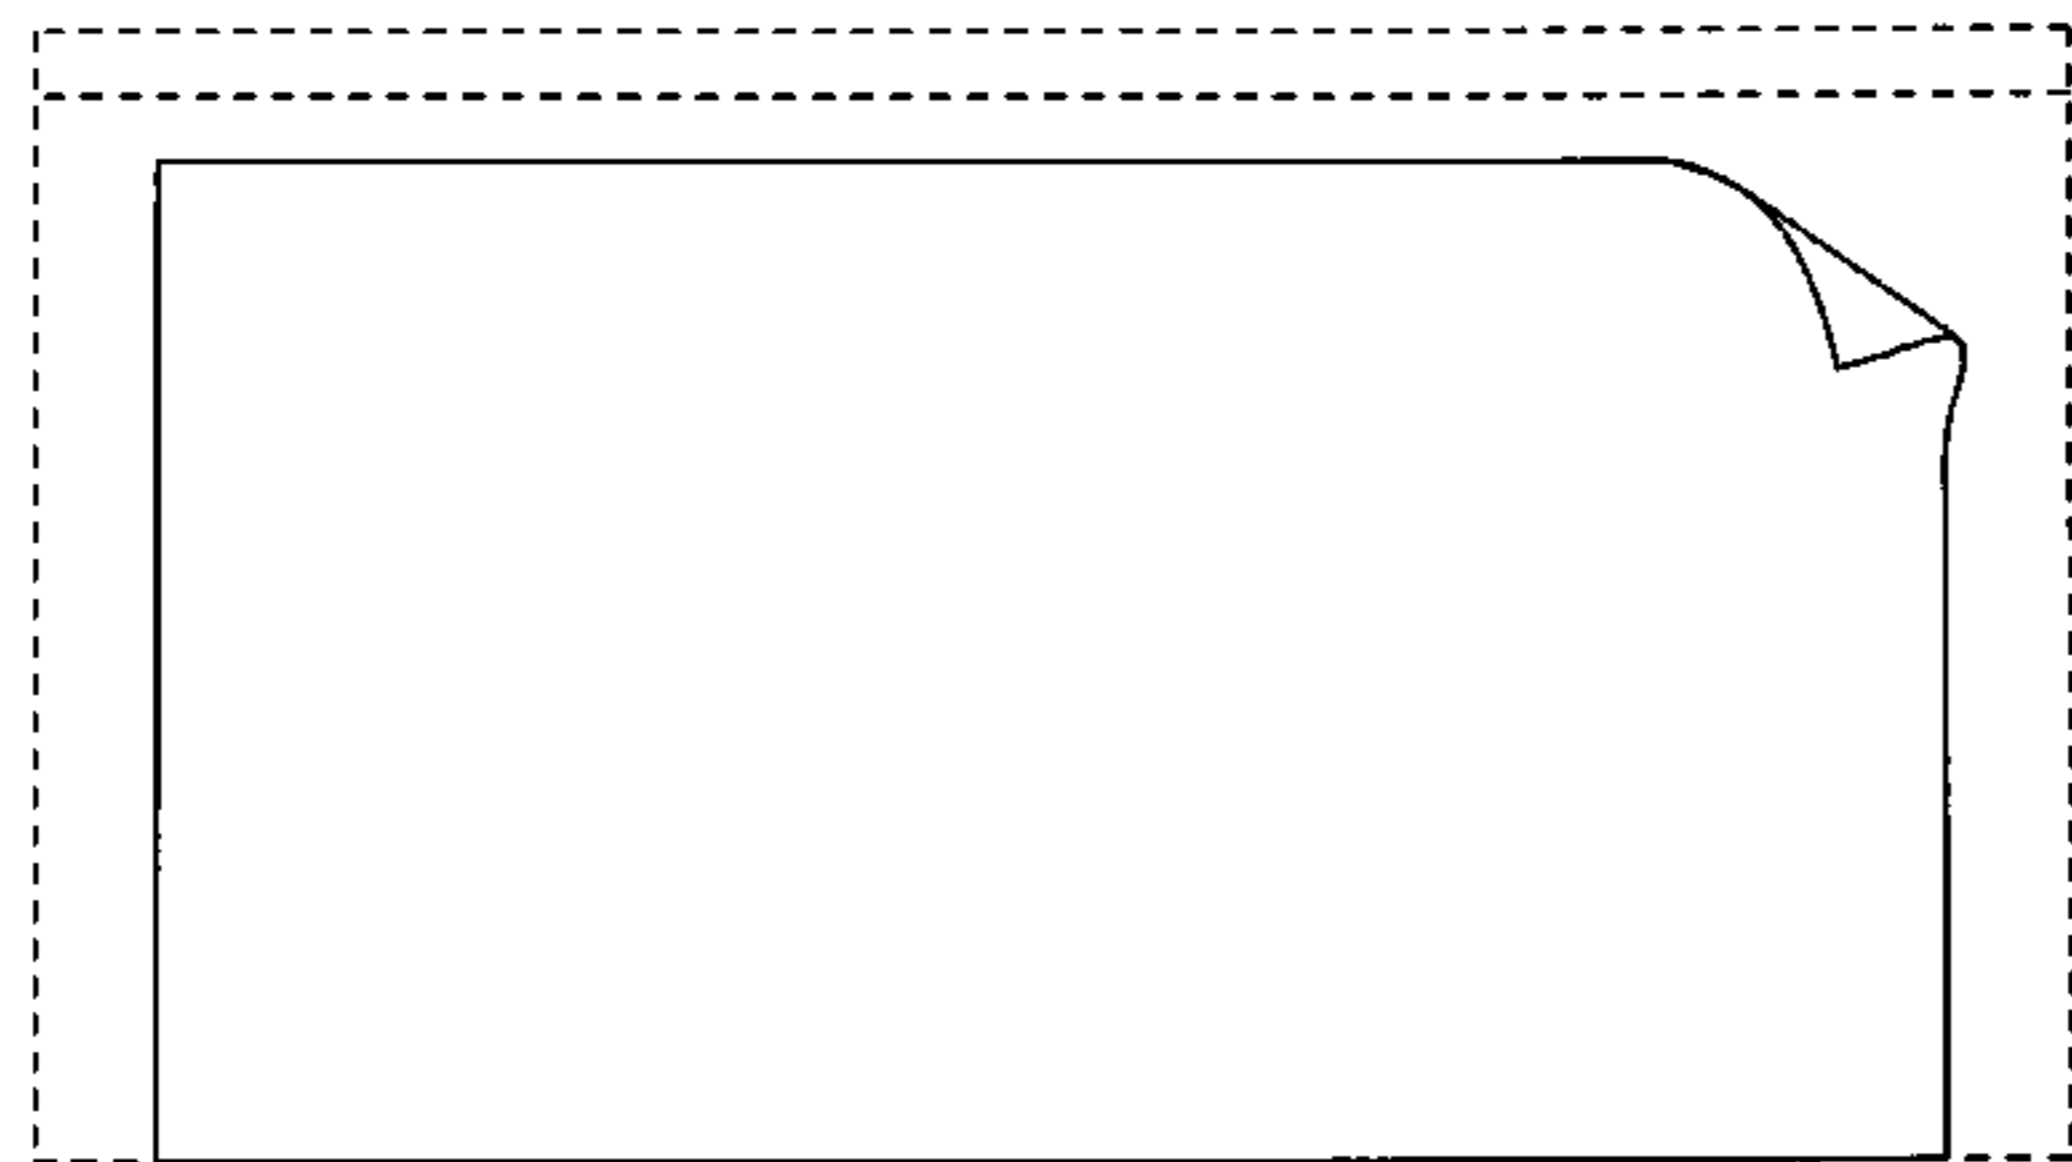

DESCRIPTION

FIG. 1 is a front elevational view of a first image of a display panel or screen with a computer generated animated image showing our new design;
FIG. 2 is a front elevational view of a second image of a display panel or screen with a computer generated animated image showing our new design; and,
FIG. 3 is a front elevational view of a third image of a display panel or screen with a computer generated animated image showing our new design.

The appearance of the image transitions sequentially between or among the images shown in FIGS. 1-3. The process or period in which an image transitions to another forms no part of the claimed design.

The even broken lines showing of a display panel or screen and other elements form no part of the claimed design.
