(57) **CLAIM**

We claim the ornamental design for a display screen with a graphical user interface, as shown and described.

**DESCRIPTION**

The FIGURE is a front view of an embodiment of a display screen with a graphical user interface, for use with, for example, a building management system, as may be a component of a communications terminal.

The ornamental design which is claimed is shown in solid lines in the drawings. The dash-dot-dot broken line illustrates the portion of the display screen in which the claimed design is embodied and forms no part of the claimed design. The evenly-spaced broken lines in the drawings illustrate portions of the graphical user interface which form no part of the claimed design.
