(57) **CLAIM**

I claim the ornamental design for a sheet pile connector, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a sheet pile connector; and, FIG. 2 is a front elevational view thereof.

The front and rear of the design are mirror images of one another, and so only the front elevational view is shown.

The broken line showing of connector is included for the purpose of illustrating portions of the article and forms no part of the claimed design.
