(57) **CLAIM**

The ornamental design for a display screen with transitional user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen with transitional user interface showing our new design;
FIG. 2 is the second image thereof;
FIG. 3 is the first image in a sequence for a display screen with transitional user interface showing an alternate embodiment of our new design; and,
FIG. 4 is the second image thereof.

The broken line showing of the display screen is included to illustrate environmental features and forms no part of the claimed design.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
