(57) **CLAIM**

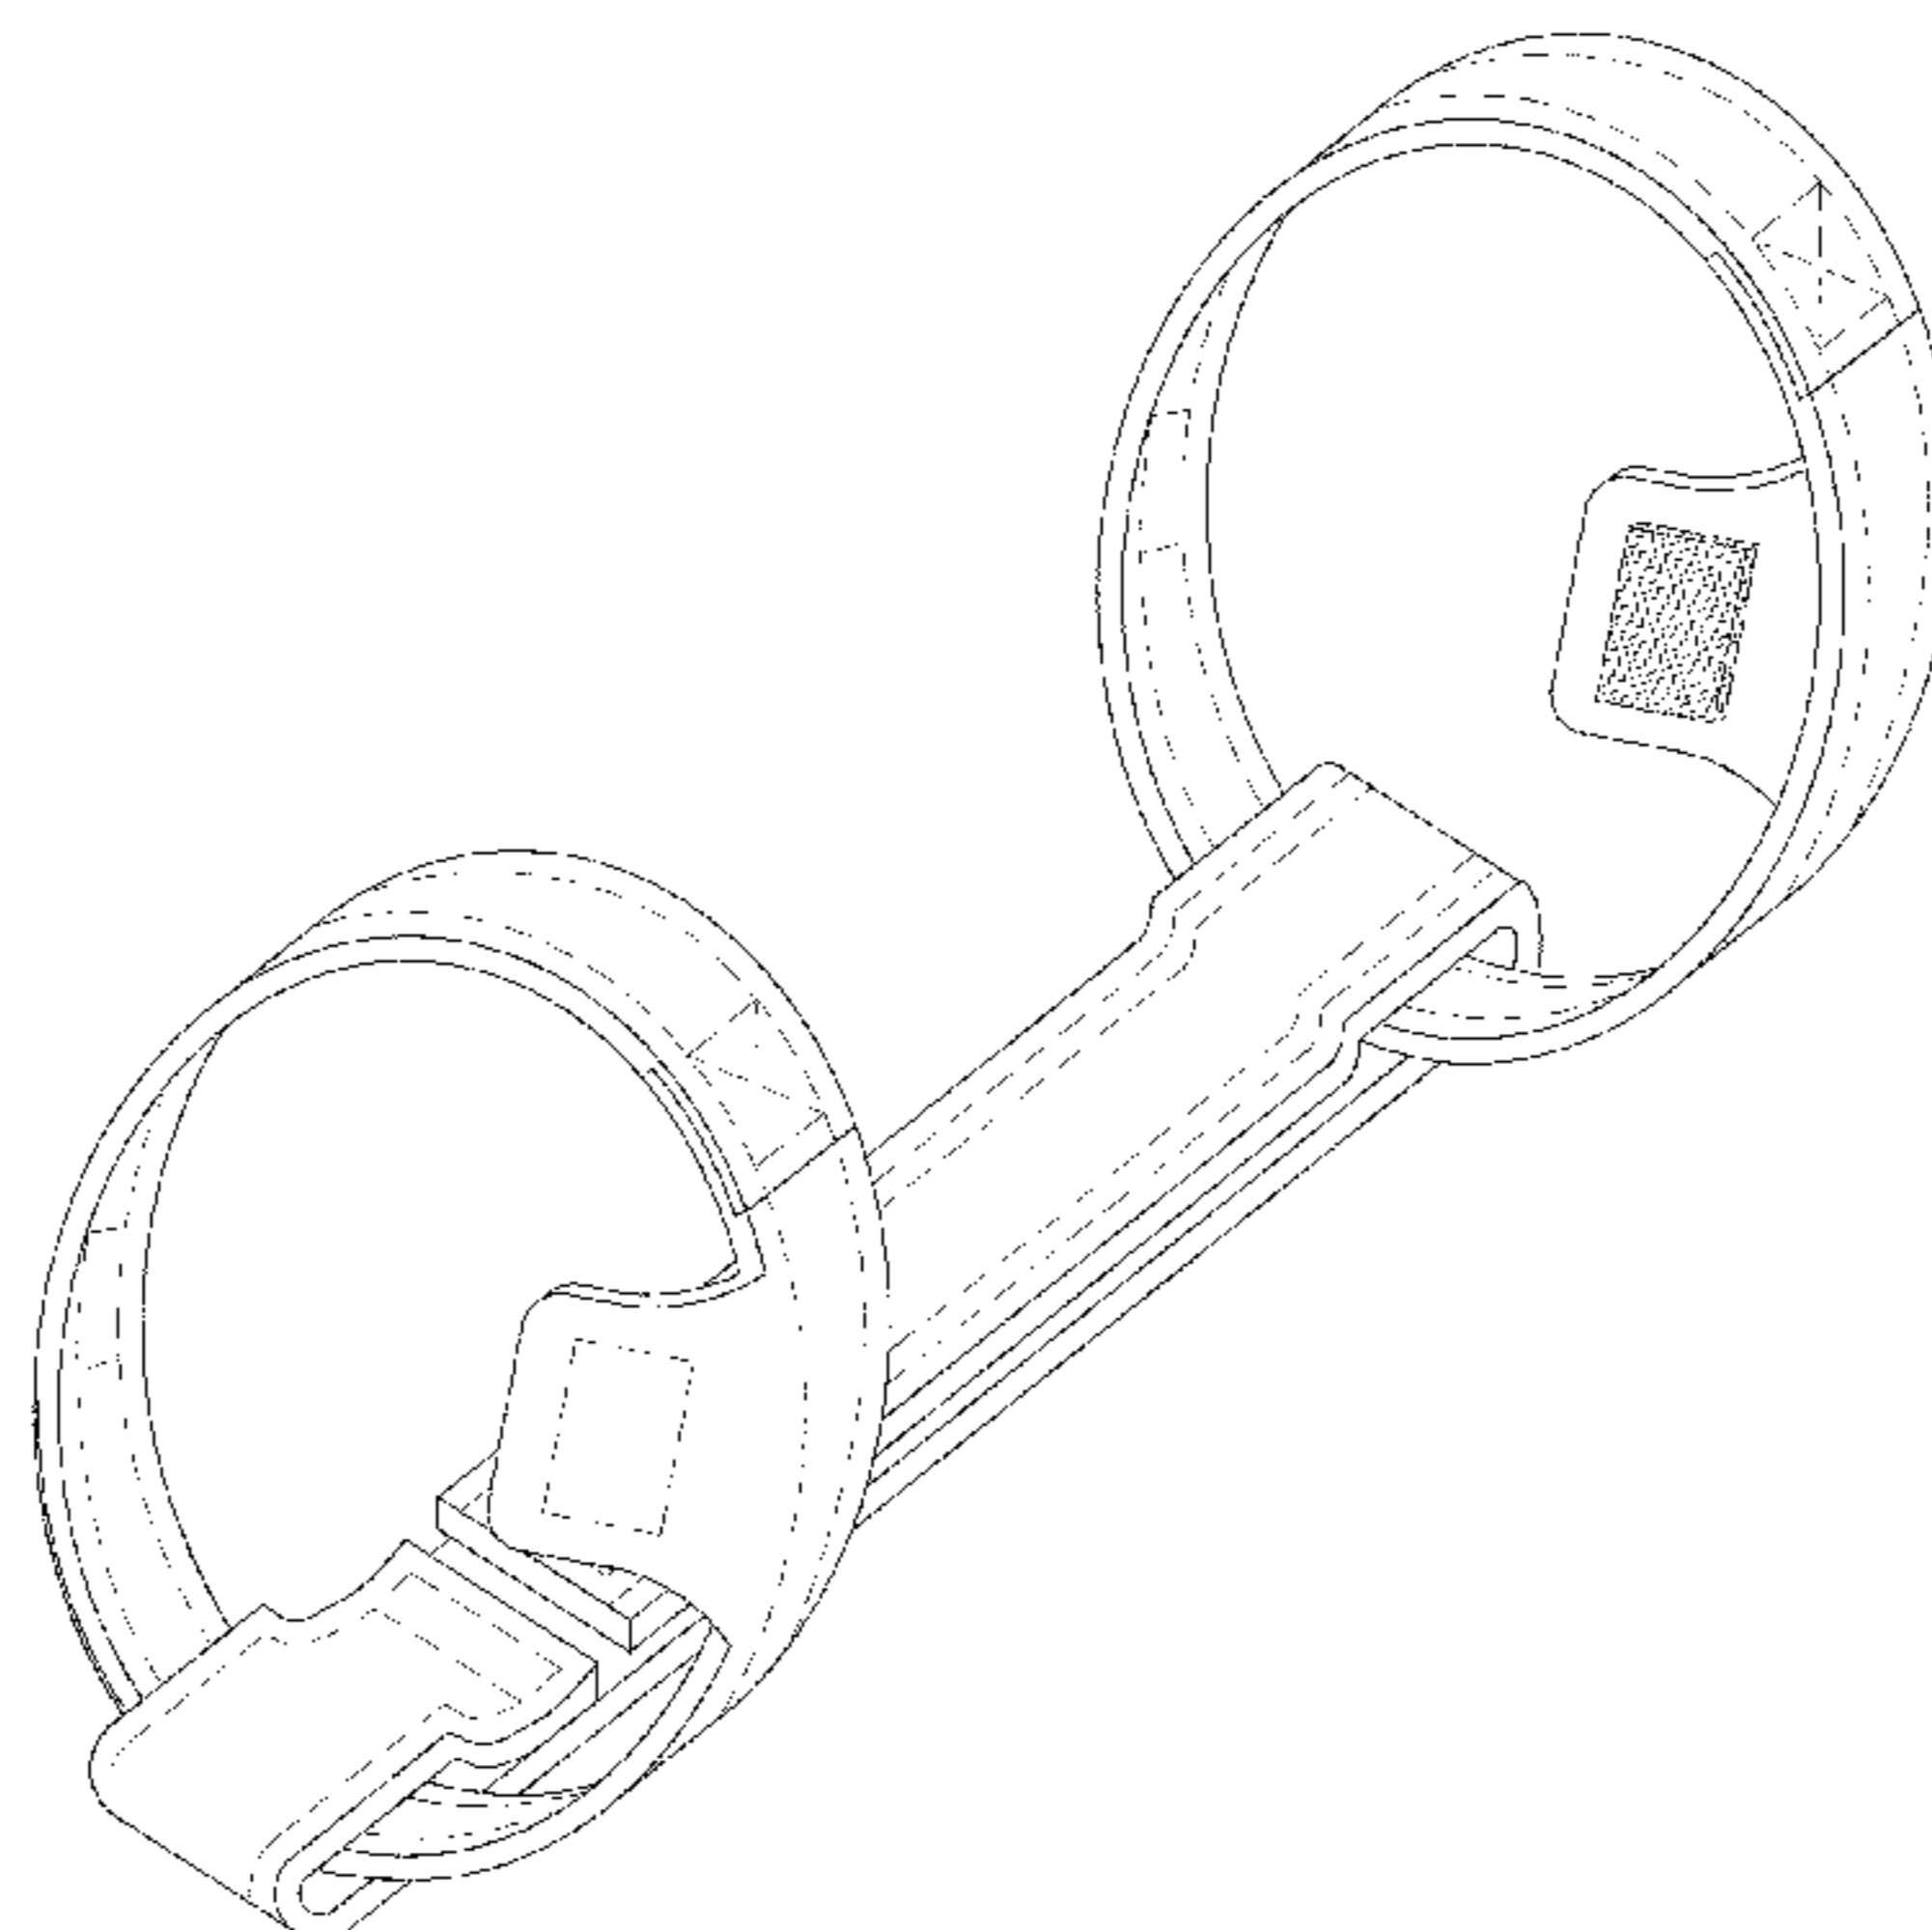

The ornamental design for an arm restraint for a patient, as shown and described.

DESCRIPTION

FIG. 1 is a top, front isometric view of an arm restraint for a patient according to the new design, wherein the straps extending from the loops are mirror images of one another; FIG. 2 is a front view thereof; FIG. 3 is a rear view thereof; FIG. 4 is a top view thereof; FIG. 5 is a bottom side view thereof; FIG. 6 is a right side view thereof; and, FIG. 7 is a left side view thereof.

The broken lines shown in the drawings illustrate a disclaimed stitching pattern that forms no part of the churned design. The stippled portions indicate fastener elements.

1 Claim, 7 Drawing Sheets
