(57) **CLAIM**

I claim the ornamental design for a faucet, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, right perspective view of an embodiment of the claimed design;
FIG. 2 is a right elevation view thereof;
FIG. 3 is a left elevation view thereof;
FIG. 4 is a front elevation view thereof;
FIG. 5 is a rear elevation view thereof;
FIG. 6 is a top plan view thereof;
FIG. 7 is a bottom plan view thereof;
FIG. 8 is a sectional view thereof along line 8-8;
FIG. 9 is a top, front, right perspective view thereof with a handle of the faucet in an alternate position; and,
FIG. 10 is a front elevation view thereof with the handle of the faucet in the alternate position of FIG. 9.

The ornamental design which is claimed is shown in solid lines in the drawings. The broken lines in the drawings are for illustrative purposes only and form no part of the claimed design. Broken lines formed by equal length dashes show unclaimed portions of the design. Broken lines formed of unequal length dashes (i.e., dash-dot) show boundaries between claimed and unclaimed portions of the design. Broken lines having a jagged element show that the no particular length of the portion is claimed. Portions shown in stipple shading, as opposed to line shading, show contrasting surfaces unlimited by colors.

While the accompanying drawings illustrate one or more exemplary embodiments, it should be understood that according to other exemplary embodiments that should be considered to be within the possession of the inventors of the present application at the time this application is being filed, and at the time the parent application was filed, it is contemplated that any illustrated solid lines (or portions thereof) may be converted to broken lines and that any illustrated broken lines (or portions thereof) may be converted to solid lines so as to claim or disclaim portions, components, or sub-components of the designs shown. It is further contemplated that shading may be added or removed to claim or disclaim the corresponding surfaces.
