(57) **CLAIM**

I claim the ornamental design for a card pocket for portable
electronic device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the product disposed on a
portable electronic device.

FIG. 2 is an elevated top view of the product disposed on a
portable electronic device.

FIG. 3 is an elevated side view of the product disposed on a
portable electronic device, and has an identical mirror image
on the opposite elevated side view disposed on the same
portable electronic device not shown in the FIGS. 1-6 or FIG.
12.

FIG. 4 is an elevated end view of the product disposed on a
portable electronic device.

FIG. 5 is an elevated end view of the opposite end of FIG. 4 of
the product disposed on a portable electronic device.

FIG. 6 is an elevated rear view of the product disposed on a
portable electronic device.

FIG. 7 is an elevated front view of the product to illustrate the
configuration of the product of FIGS. 1-6 prior to attachment
to the portable electronic device.

FIG. 8 is an elevated side view of the product of FIG. 7 and has
an identical mirror image of an opposite side view of the
product not shown in the FIGS. 7-11.

FIG. 9 is an elevated bottom view of the product of FIG. 7.

FIG. 10 is an elevated rear view of the product of FIG. 7.

FIG. 11 is an elevated end view of the opposite end of FIG. 9
of the product of FIG. 7.

FIG. 12 is a perspective elevated rear view of the stitching
look product disposed on a portable electronic device. FIGS.
3 through **6** would have the identical configuration on this
device, and FIG. 2 is only different in the stitching look of
FIG. 12.

FIG. 13 is an elevated front view of the product of FIG. 12 to
illustrate the configuration of the product prior to attachment
to the portable electronic device.

FIG. 14 is an elevated side view of the product of FIG. 13 and
has an identical mirror image of an opposite side view of the
product not shown in the FIGS. 13-17.

FIG. 15 is an elevated bottom view of the product of FIG. 13.

FIG. 16 is an elevated rear view of the product of FIG. 13; and,
FIG. 17 is an elevated end view of the opposite end of FIG. 15
of the product of FIG. 13.

The broken lines showing an electronic device are included
for the purpose of illustrating environment and form no part
of the claimed design.

The bold broken lines represent stitching and are part of the
claimed design.

1 Claim, 6 Drawing Sheets
