(57) **CLAIM**

The ornamental design for a color sample holding baseplate,
as shown and described.

FIG. 1 is a front view of the color sample holding baseplate of the present invention.

FIG. 2 is a rear view of the color sample holding baseplate of FIG. 1.

FIG. 3 is a top view of the color sample holding baseplate of FIG. 1.

FIG. 4 is a bottom view of the color sample holding baseplate of FIG. 1.

FIG. 5 is a left side view of the color sample holding baseplate of FIG. 1.

FIG. 6 is a right side view of the color sample holding baseplate of FIG. 1.

FIG. 7 is a cross-sectional view taken along A-A of the color sample holding baseplate of FIG. 1.

FIG. 8 is a cross-sectional view taken along B-B of the color sample holding baseplate of FIG. 1.

FIG. 9 is a reference front view of the color sample holding baseplate of FIG. 1 in use, wherein color sample indication tools are inserted into the baseplate, some of the illustrated color sample indication tools including concave parts near the ends of the tools, and including dental resins with predetermined color tones inserted in the concave parts, for tooth-color evaluation.

FIG. 10 is a reference perspective view showing the color sample holding baseplate of FIG. 1 in use, wherein color sample indication tools are inserted into the baseplate, some of the illustrated color sample indication tools including concave parts near the ends of the tools; and,

FIG. 11 is a reference perspective view showing the color sample holding baseplate of FIG. 1 in use, wherein color sample indication tools are inserted into the baseplate, some of the illustrated color sample indication tools including concave parts near the ends of the tools, and including dental resins with predetermined color tones inserted in the concave parts, for tooth-color evaluation.

The broken line showing of the environment in the Figures is for illustrative purpose only and forms no part of the claimed design.
