(57) **CLAIM**

The ornamental design for a remote control for hands-free communications device, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of a remote control for hands-free communications device that has the design.

FIG. 2 is a rear elevation view of the remote control for hands-free communications device seen in FIG. 1.

FIG. 3 is a bottom plan view of the remote control for hands-free communications device.

FIG. 4 is a top plan view of the remote control for hands-free communications device.

FIG. 5 is a side elevation view of the device.

FIG. 6 is a front, top, and side view of the device.

FIG. 7 is a bottom plan view of the same device on a support.

FIG. 8 is a top plan view of the device on the support.

FIG. 9 is a side elevation view of the device on the support; and,

FIG. 10 is a front, top, and side view of the device on the support.

The broken lines represent parts of the device and support that form no part of the claimed design.

Parrot is a registered trademark of Parrot S.A. of Paris, France.
