(57) **CLAIM**

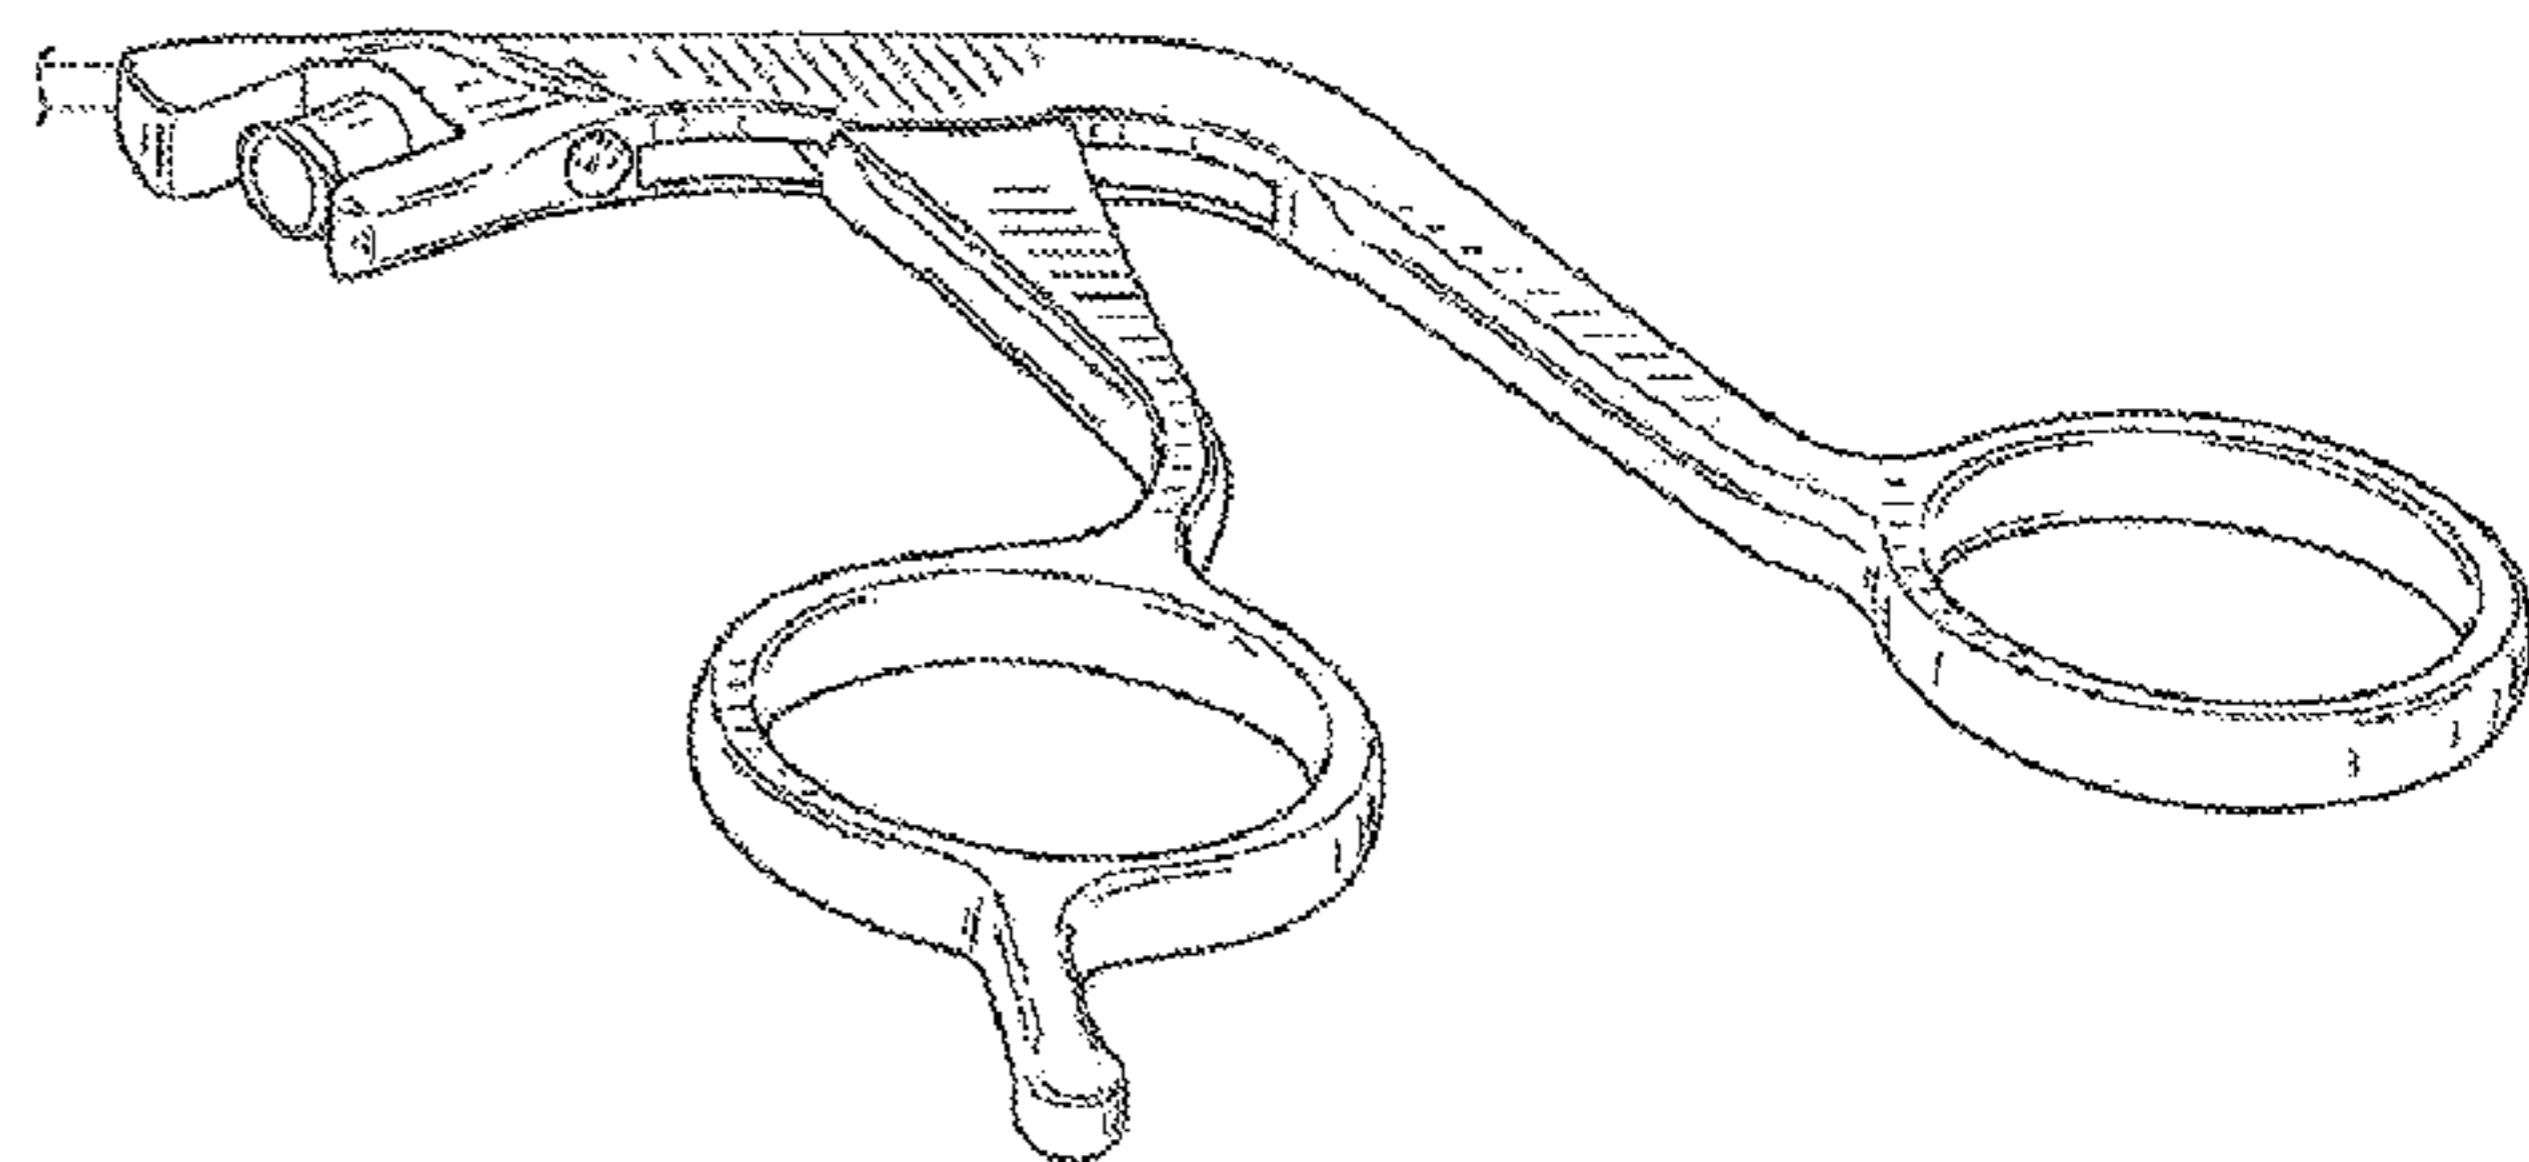

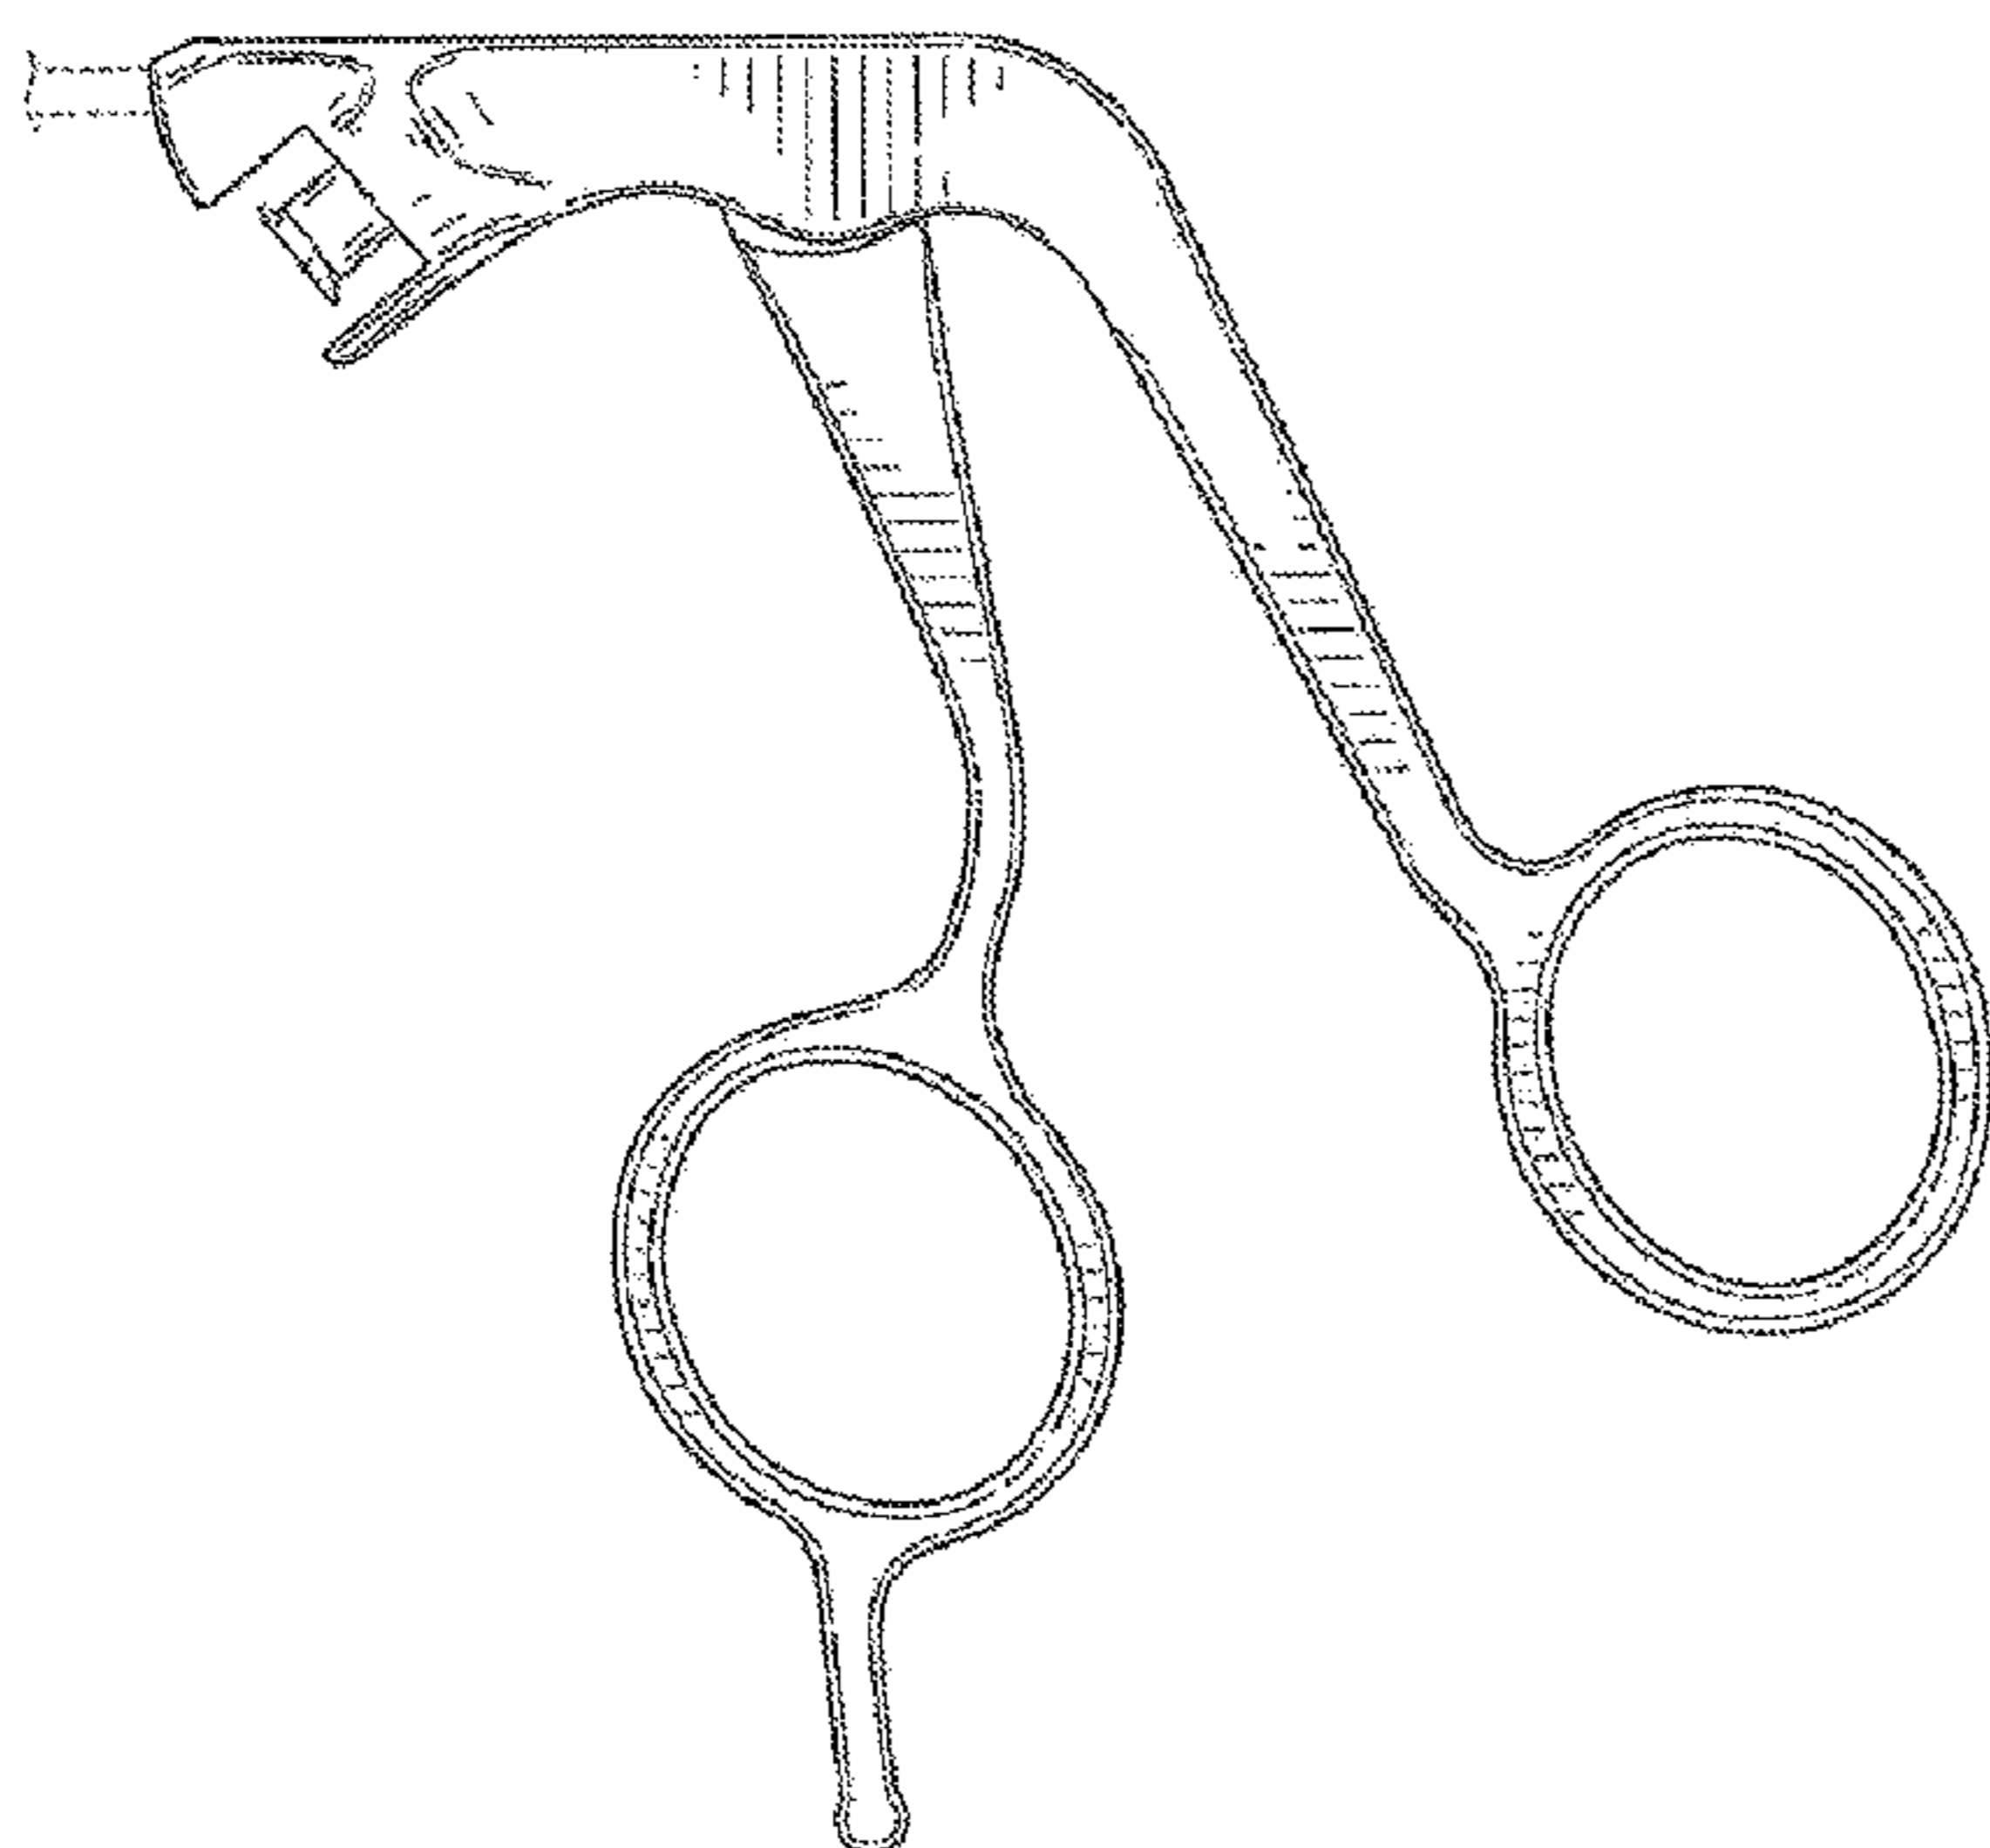

The ornamental design for a medical instrument handle with connector, as shown and described.

DESCRIPTION

FIG. 1 is a right side elevational view of a medical instrument handle with connector according to the present invention; FIG. 2 is a left side elevational view of the medical instrument handle with connector of FIG. 1; FIG. 3 is a top perspective view of the medical instrument handle with connector of FIG. 1; FIG. 4 is a bottom perspective view of the medical instrument handle with connector of FIG. 1; FIG. 5 is a front perspective view of the medical instrument handle with connector of FIG. 1; and, FIG. 6 is a rear perspective view of the medical instrument handle with connector of FIG. 1.

The dashed lines illustrate environment that does not form a part of the present invention, and no claim is made to the material illustrated with dashed lines.
