(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for cognitive and speech therapy and testing, as substantially shown and described.

DESCRIPTION

The single FIGURE is a front view of a display screen with graphical user interface for cognitive and speech therapy and testing.

The broken line on the outer boundary of the FIGURE illustrates a display screen and forms no part of the claimed design. The broken lines within the graphical user interface denote environment and forms no part of the claimed design.
