Primary Examiner — Karen E Kearney

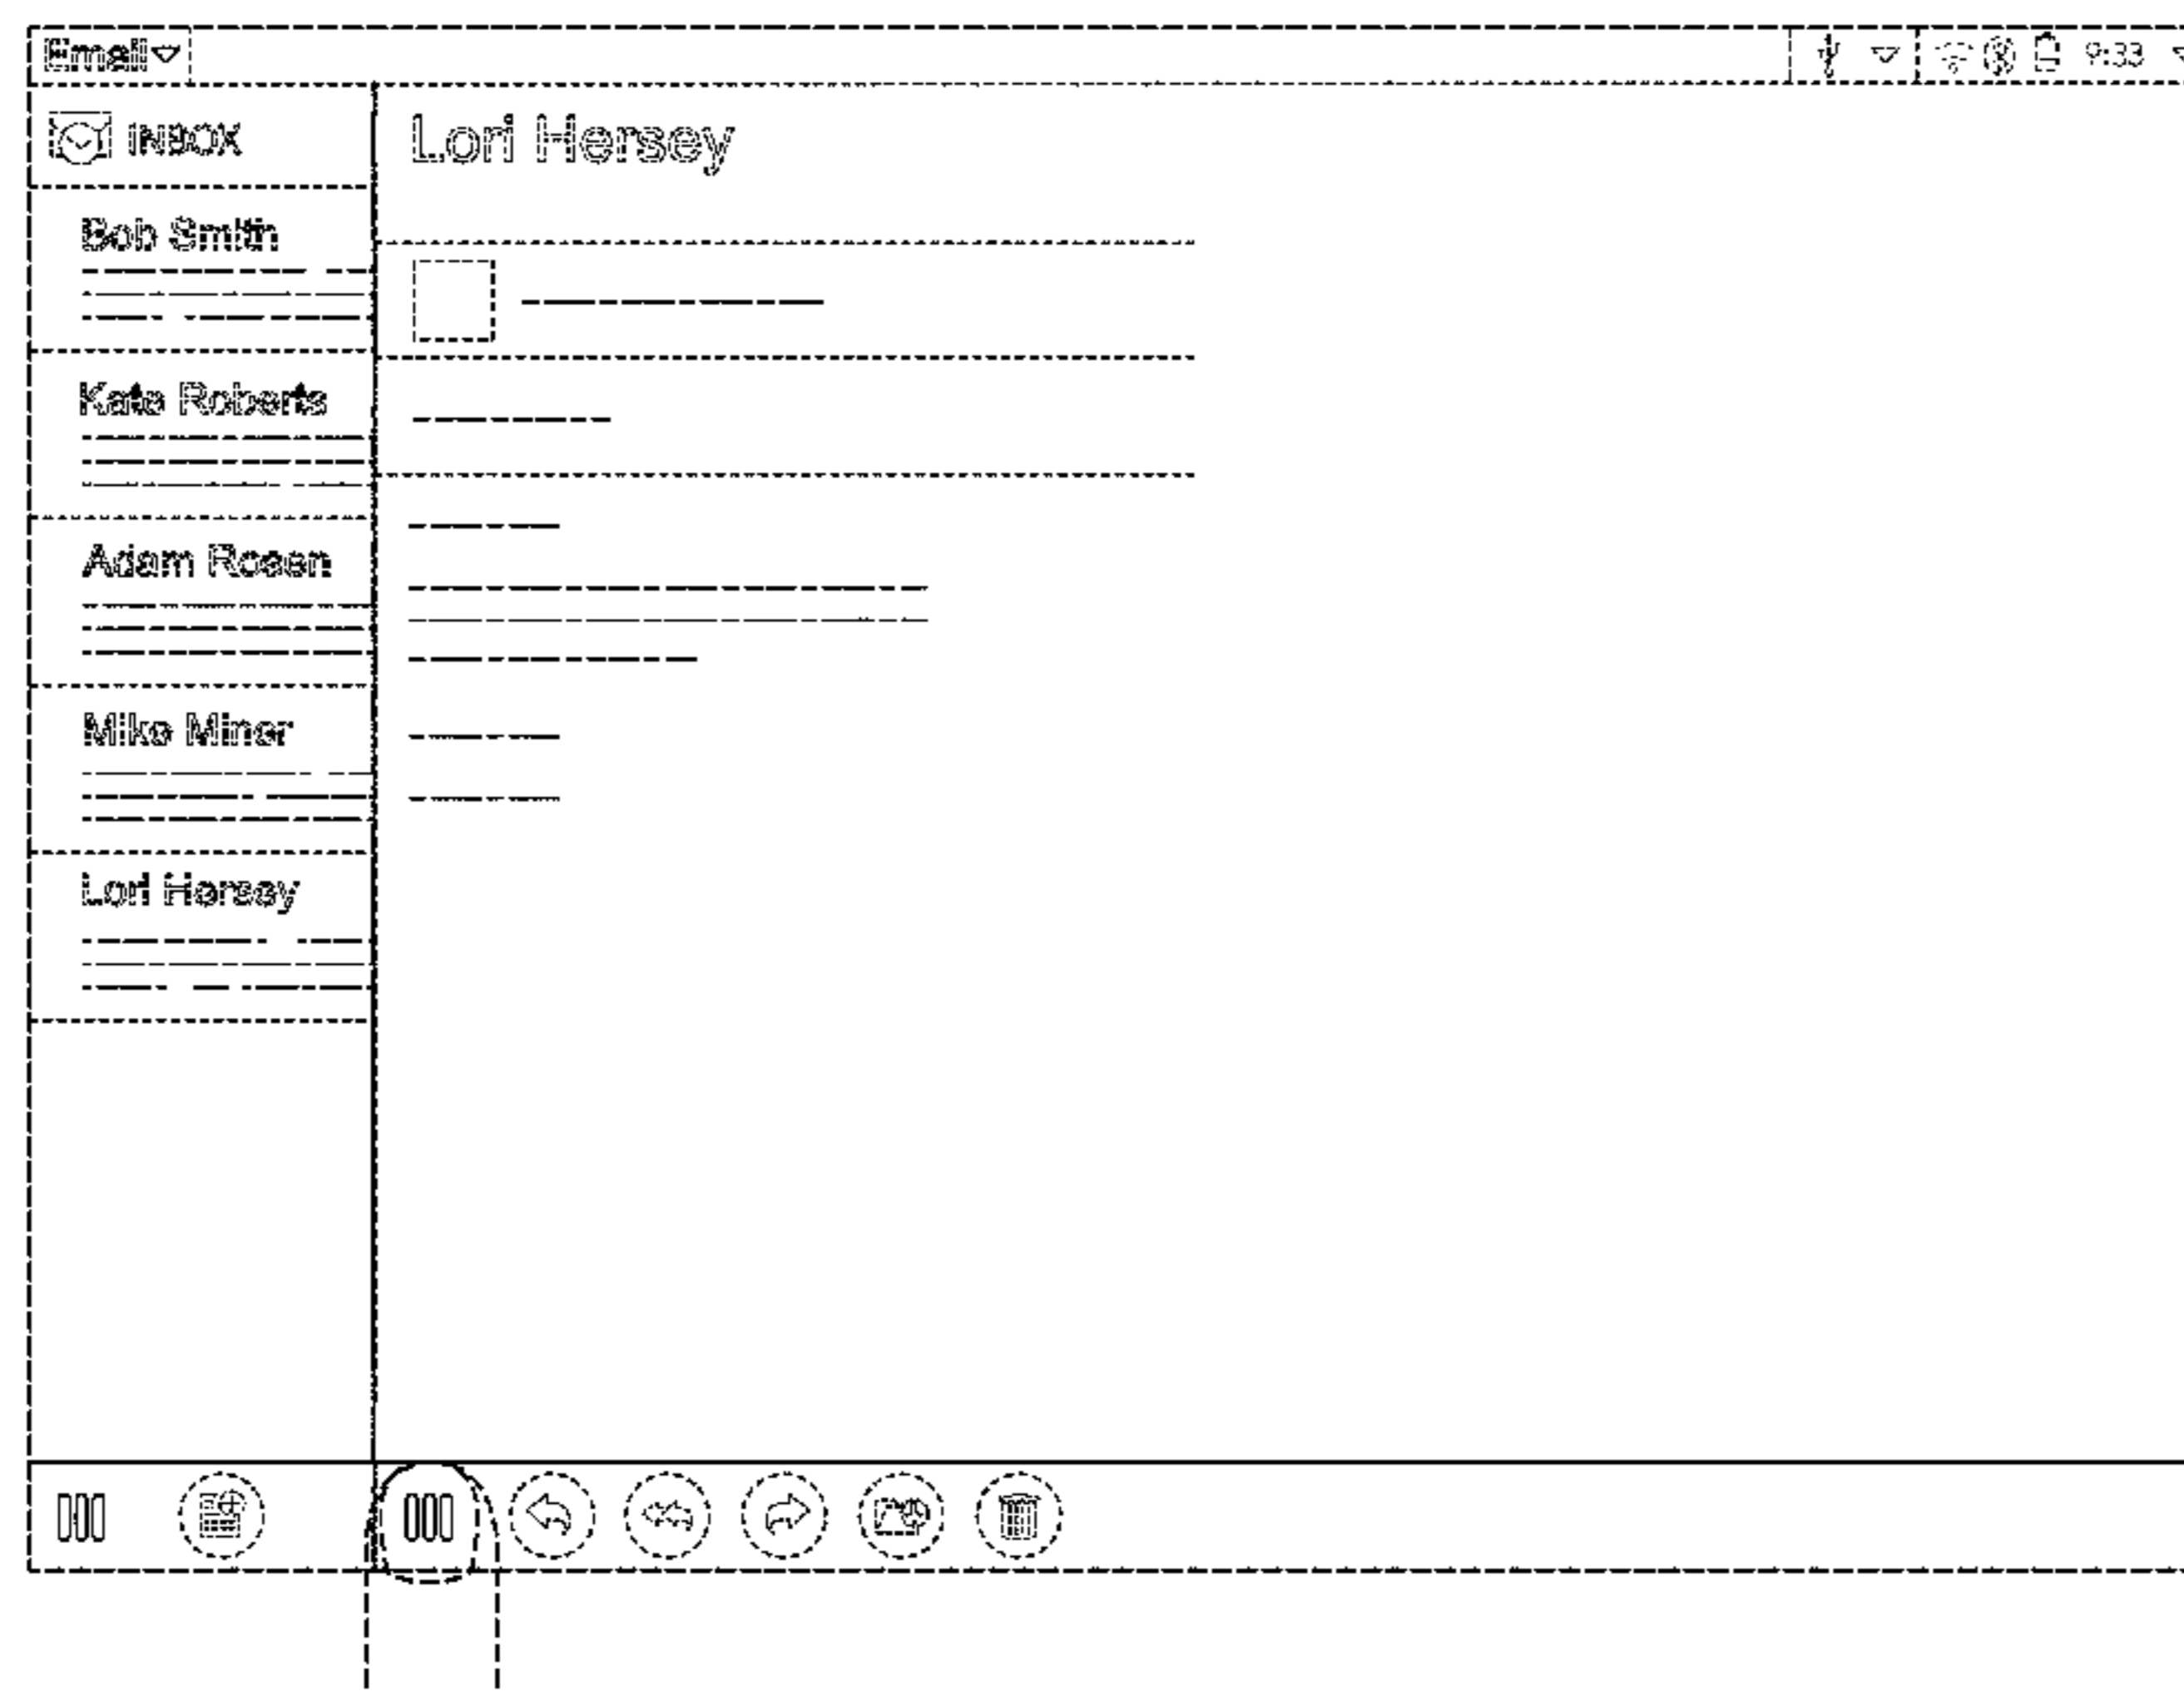

(57) **CLAIM**

The ornamental design for a computing device display screen with computer-generated user interface comprising a separation line feature showing our new design, as shown and described.

DESCRIPTION

The FIGURE is a front view of a computing device display screen with computer-generated user interface comprising a separation line feature showing our new design. The broken lines shown in the drawings are for the purpose of illustrating a display screen of a computing device, text, and other images, and form no part of the claimed design.
