(57) **CLAIM**

The ornamental design for a radiography or radiation treatment garment, as shown and described.

DESCRIPTION

FIG. 1 is a front view showing the radiography or radiation treatment garment of my new design, wherein the front chest

cover is folded to cover the chest of the wearer, wherein the dotted lines on the surface of the garment represent stitching. FIG. 2 is a front view showing the radiography or radiation treatment garment of my new design, wherein the right portion of the front chest cover is unfolded to expose right side of the chest of the wearer, wherein the left portion of the front chest cover is symmetrical to the right portion of the front chest cover that the left portion can be unfolded to expose left side of the chest of the wearer, wherein the dotted lines on the surface of the garment represent stitching.

FIG. 3 is a front view showing the radiography or radiation treatment garment of my new design, wherein the front chest cover is folded to un-cover part of the chest of the wearer and the right shoulder portion is folded upwardly, wherein the left portion of the front chest cover is symmetrical to the right portion of the front chest cover that the left portion can be unfolded and the left shoulder portion can be folded upwardly, wherein the dotted lines on the surface of the garment represent stitching.

FIG. 4 is a right side view showing the radiography or radiation treatment garment of my new design, wherein the front chest cover is folded to cover the chest of the wearer, wherein the dotted lines on the surface of the garment represent stitching.

FIG. 5 is a right side view showing the radiography or radiation treatment garment of my new design, wherein the front chest cover is unfolded to expose the chest of the wearer, wherein the dotted lines on the surface of the garment represent stitching.

FIG. 6 is a left side view showing the radiography or radiation treatment garment of my new design, wherein the front chest cover is folded to cover the chest of the wearer, wherein the dotted lines on the surface of the garment represent stitching.

FIG. 7 is a left side view showing the radiography or radiation treatment garment of my new design, wherein the front chest cover is unfolded to expose the chest of the wearer, wherein the dotted lines on the surface of the garment represent stitching; and,

FIG. 8 is a rear view showing the radiography or radiation treatment garment of my new design, wherein the dotted lines on the surface of the garment represent stitching.

The broken line showing of a person is included for the purpose of illustrating environment and forms no part of the claimed design.

1 Claim, 8 Drawing Sheets
