OTHER PUBLICATIONS

Unpublished U.S. Appl. No. 13/947,193, filed on the same date as the present design application on Jul. 22, 2013. The utility application is commonly assigned and has a common inventor, Zhu Hong. The utility application is directed to the functional aspects of the pump, while the present design application is directed to the appearance of the handle for the pump. The handle is shown in the drawings of the utility application.

(57) **CLAIM**

The ornamental design for a handle for pump, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a handle for pump showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a first side elevational view thereof;

FIG. 5 is an opposite side elevational view thereof;

FIG. 6 is a top plan view thereof; and,

FIG. 7 is a bottom plan view thereof.

The broken lines in FIGS. 1-7 represent the boundary of the design, while the broken lines showing the remainder of the handle for pump illustrate the environment in which the design resides. The broken lines form no part of the claim.
