(57) **CLAIM**

The ornamental design for a golf glove, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a back portion of the golf glove of this invention;

FIG. 2 is an elevation view of an open wrist end portion of the golf glove of this invention;

FIG. 3 is an elevation view of a closed finger-tip end portion of the golf glove of this invention;

FIG. 4 is a lateral side elevation view of the golf glove of this invention;

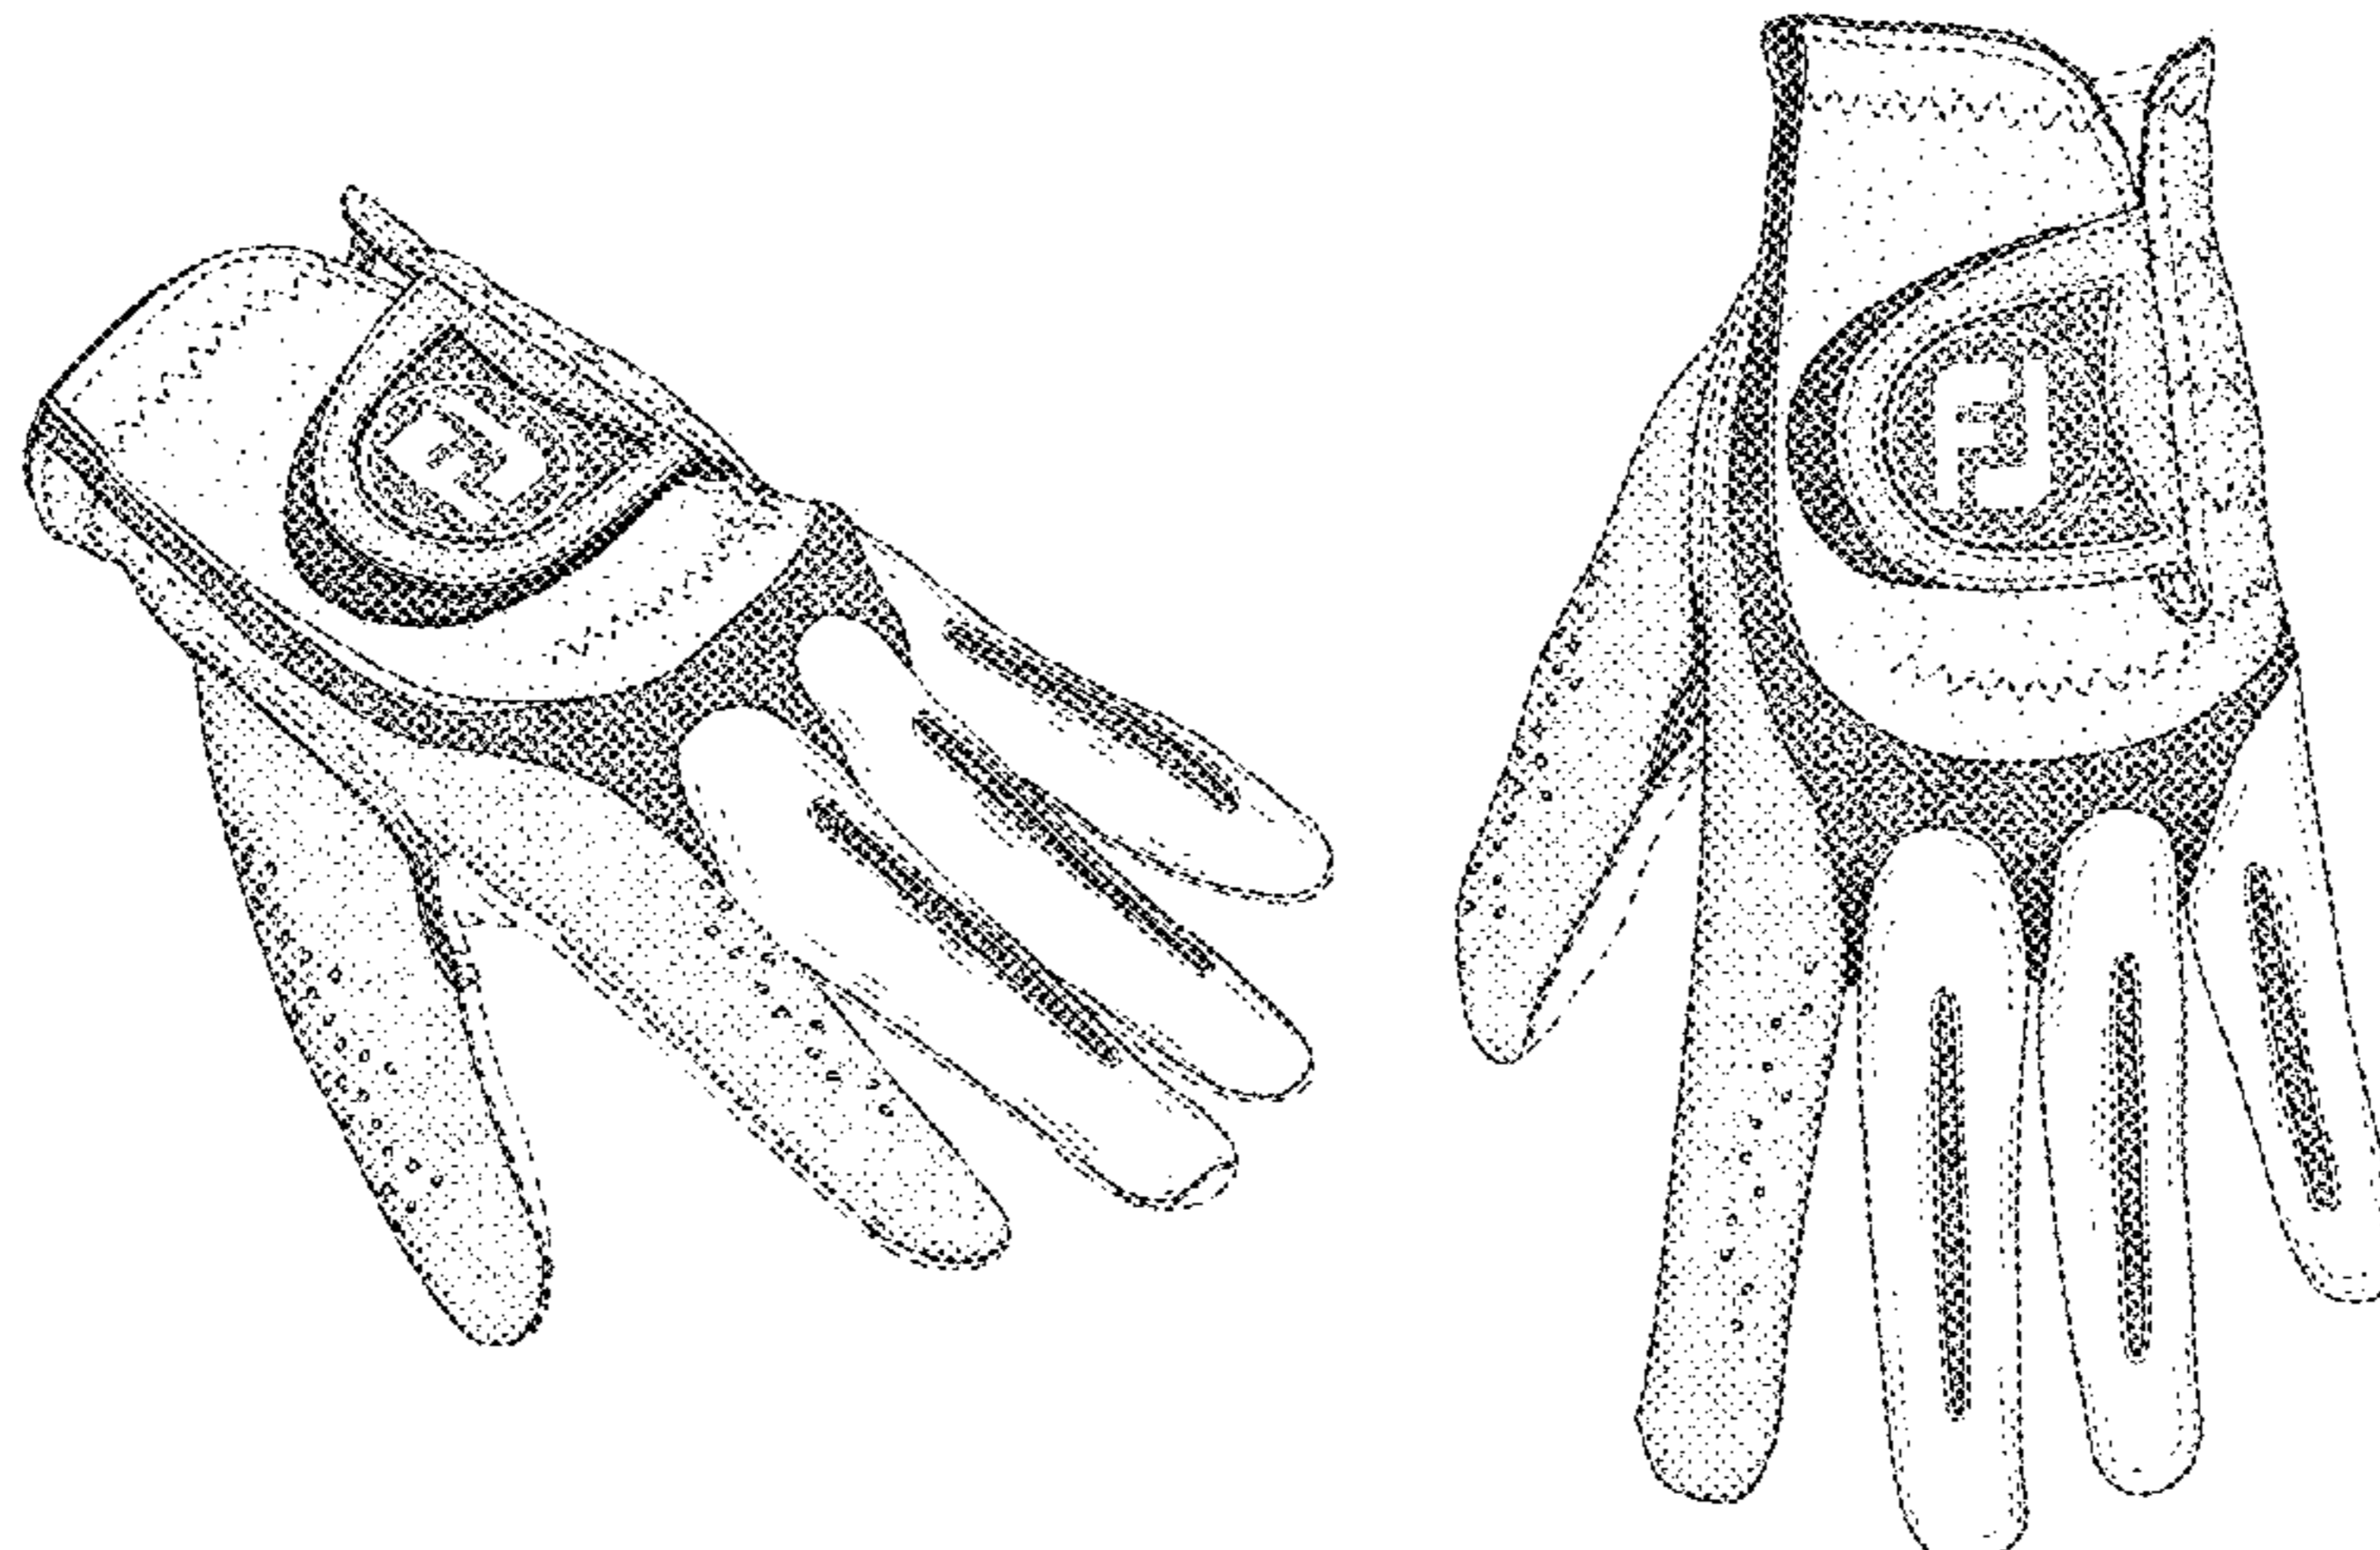

FIG. 5 is a plan view of a back portion of the golf glove of this invention;

FIG. 6 is a plan view of a front portion of the golf glove of this invention; and,

FIG. 7 is a medial side elevation view of the golf glove of this invention.

In the drawings, the shorter broken lines shown in the glove indicate stitching. The longer broken lines are for illustrative purposes only and form no part of the claimed design. For example, in FIG. 1, the thumb casing portion includes shorter, thicker, shorter-incremented broken lines shown on the surface of the glove depict stitching and form a part of the claimed design. The thinner, longer-incremented broken lines that depict a hollow circle and a logo on the fastening tab, as well as the palmar side of the glove, indicate unclaimed features of the article in which the claimed design is embodied. The different stippling shown in the thumb and index finger casings versus the stippling in the knuckle region indicates a contrast in colors between the respective sections; however, no particular colors are claimed.
