(57) **CLAIM**

The ornamental design for a display with a transitional graphical user interface, as shown and described.

DESCRIPTION

A portion of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but otherwise reserves all other copyright rights whatsoever.

FIG. 1 is a front view of the first state in a sequence for a display with a transitional graphical user interface showing my new design; and

FIG. 2 is a front view of a second state thereof.

FIG. 3 is a face view of the first state thereof, illustrating a first modified embodiment thereof;

FIG. 4 is a face view of the second state thereof, illustrating the first modified embodiment thereof;

FIG. 5 is a face view of the first state thereof, illustrating a second modified embodiment thereof;

FIG. 6 is a face view of the second state thereof, illustrating the second modified embodiment thereof;

FIG. 7 is a face view of the first state thereof, illustrating a third modified embodiment thereof;

FIG. 8 is a face view of the second state thereof, illustrating the third modified embodiment thereof.

FIG. 9 is a face view of the first state thereof, illustrating a fourth modified embodiment thereof;

FIG. 10 is a face view of the second state thereof, illustrating the fourth modified embodiment thereof;

FIG. 11 is a face view of the second state thereof, illustrating a fifth modified embodiment thereof; and,

FIG. 12 is a face view of a third state thereof, illustrating the fifth modified embodiment thereof.

The broken line showings of the display and portions of the transitional graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.

The appearance of the transitional graphical user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
