(57) **CLAIM**

The ornamental design for a display panel or screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first image of a display panel or screen with transitional graphical user interface; and, FIG. 2 is a front elevational view of a second image thereof. The broken line showing of the display panel or screen and unclaimed portions of the transitional graphical user interface form no part of the claimed design.

The appearance of the image transitions sequentially between the images shown in FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design.
