(57) **CLAIM**

The ornamental design for an arm-binding connector for an automobile windshield wiper, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of the arm-binding connector for an automobile windshield wiper showing a new design.

FIG. 2 is a front view thereof.

FIG. 3 is a rear view thereof.

FIG. 4 is a left side view thereof.

FIG. 5 is a right side view thereof.

FIG. 6 is a top plan view thereof.

FIG. 7 is a bottom plan view thereof.

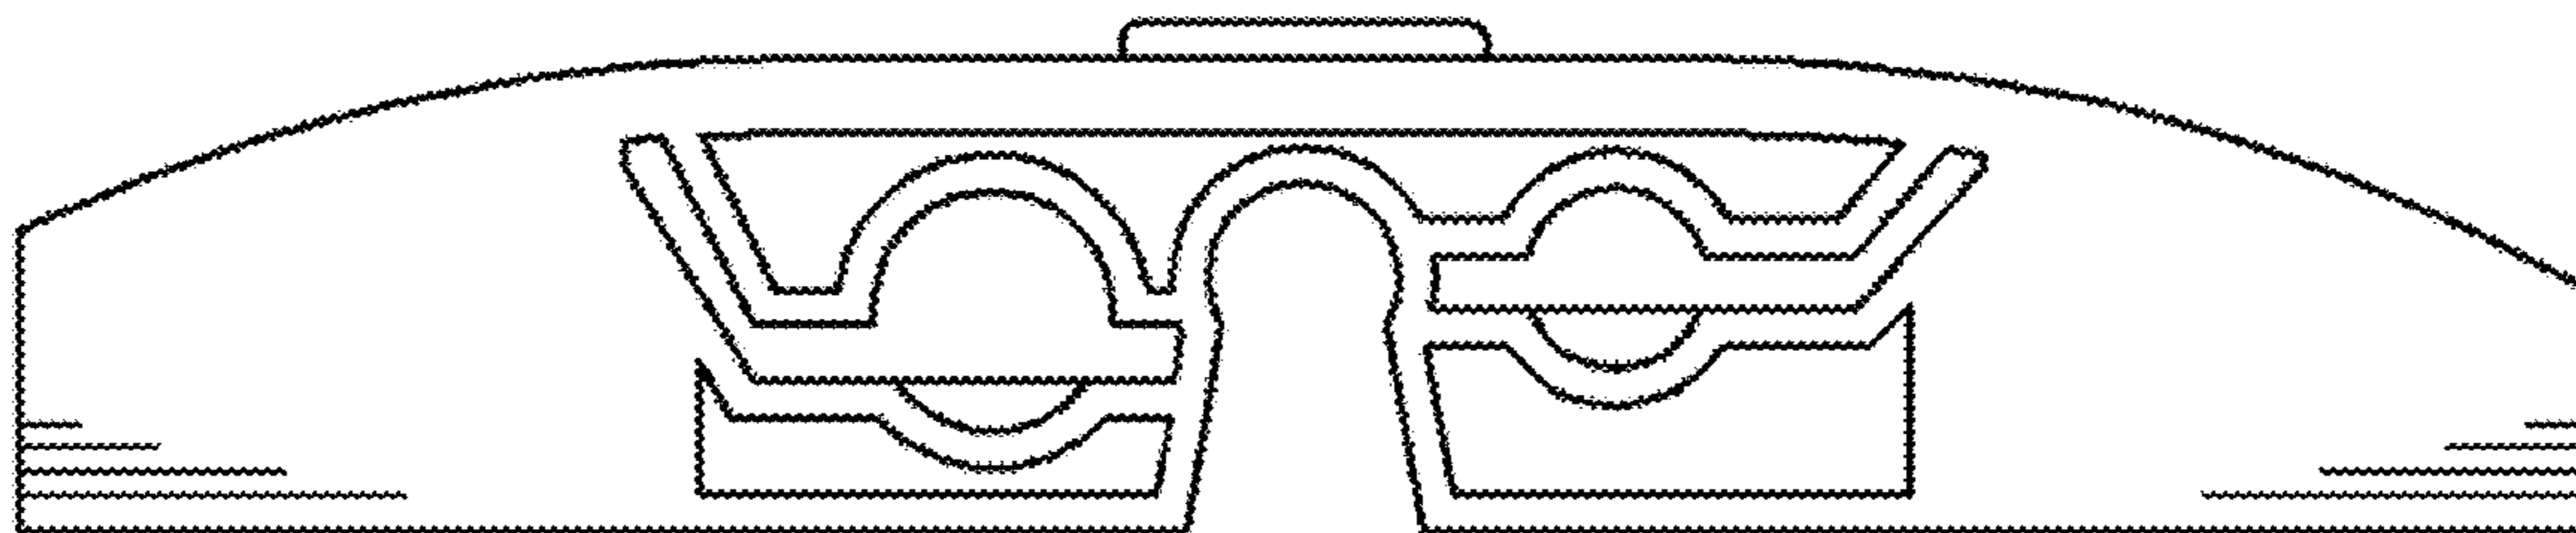

FIG. 8 is an isometric view from the lower front side showing the inner bottom portions of the design.

FIG. 9 is an isometric view from the lower rear side showing the inner bottom portions of the design; and,

FIG. 10 is an isometric view showing a state of use of the article of this design, which can be connected with a windshield wiper shown in broken lines.

The broken lines in the figures are for illustrative purposes only and form no part of the claimed design.
