(57) **CLAIM**

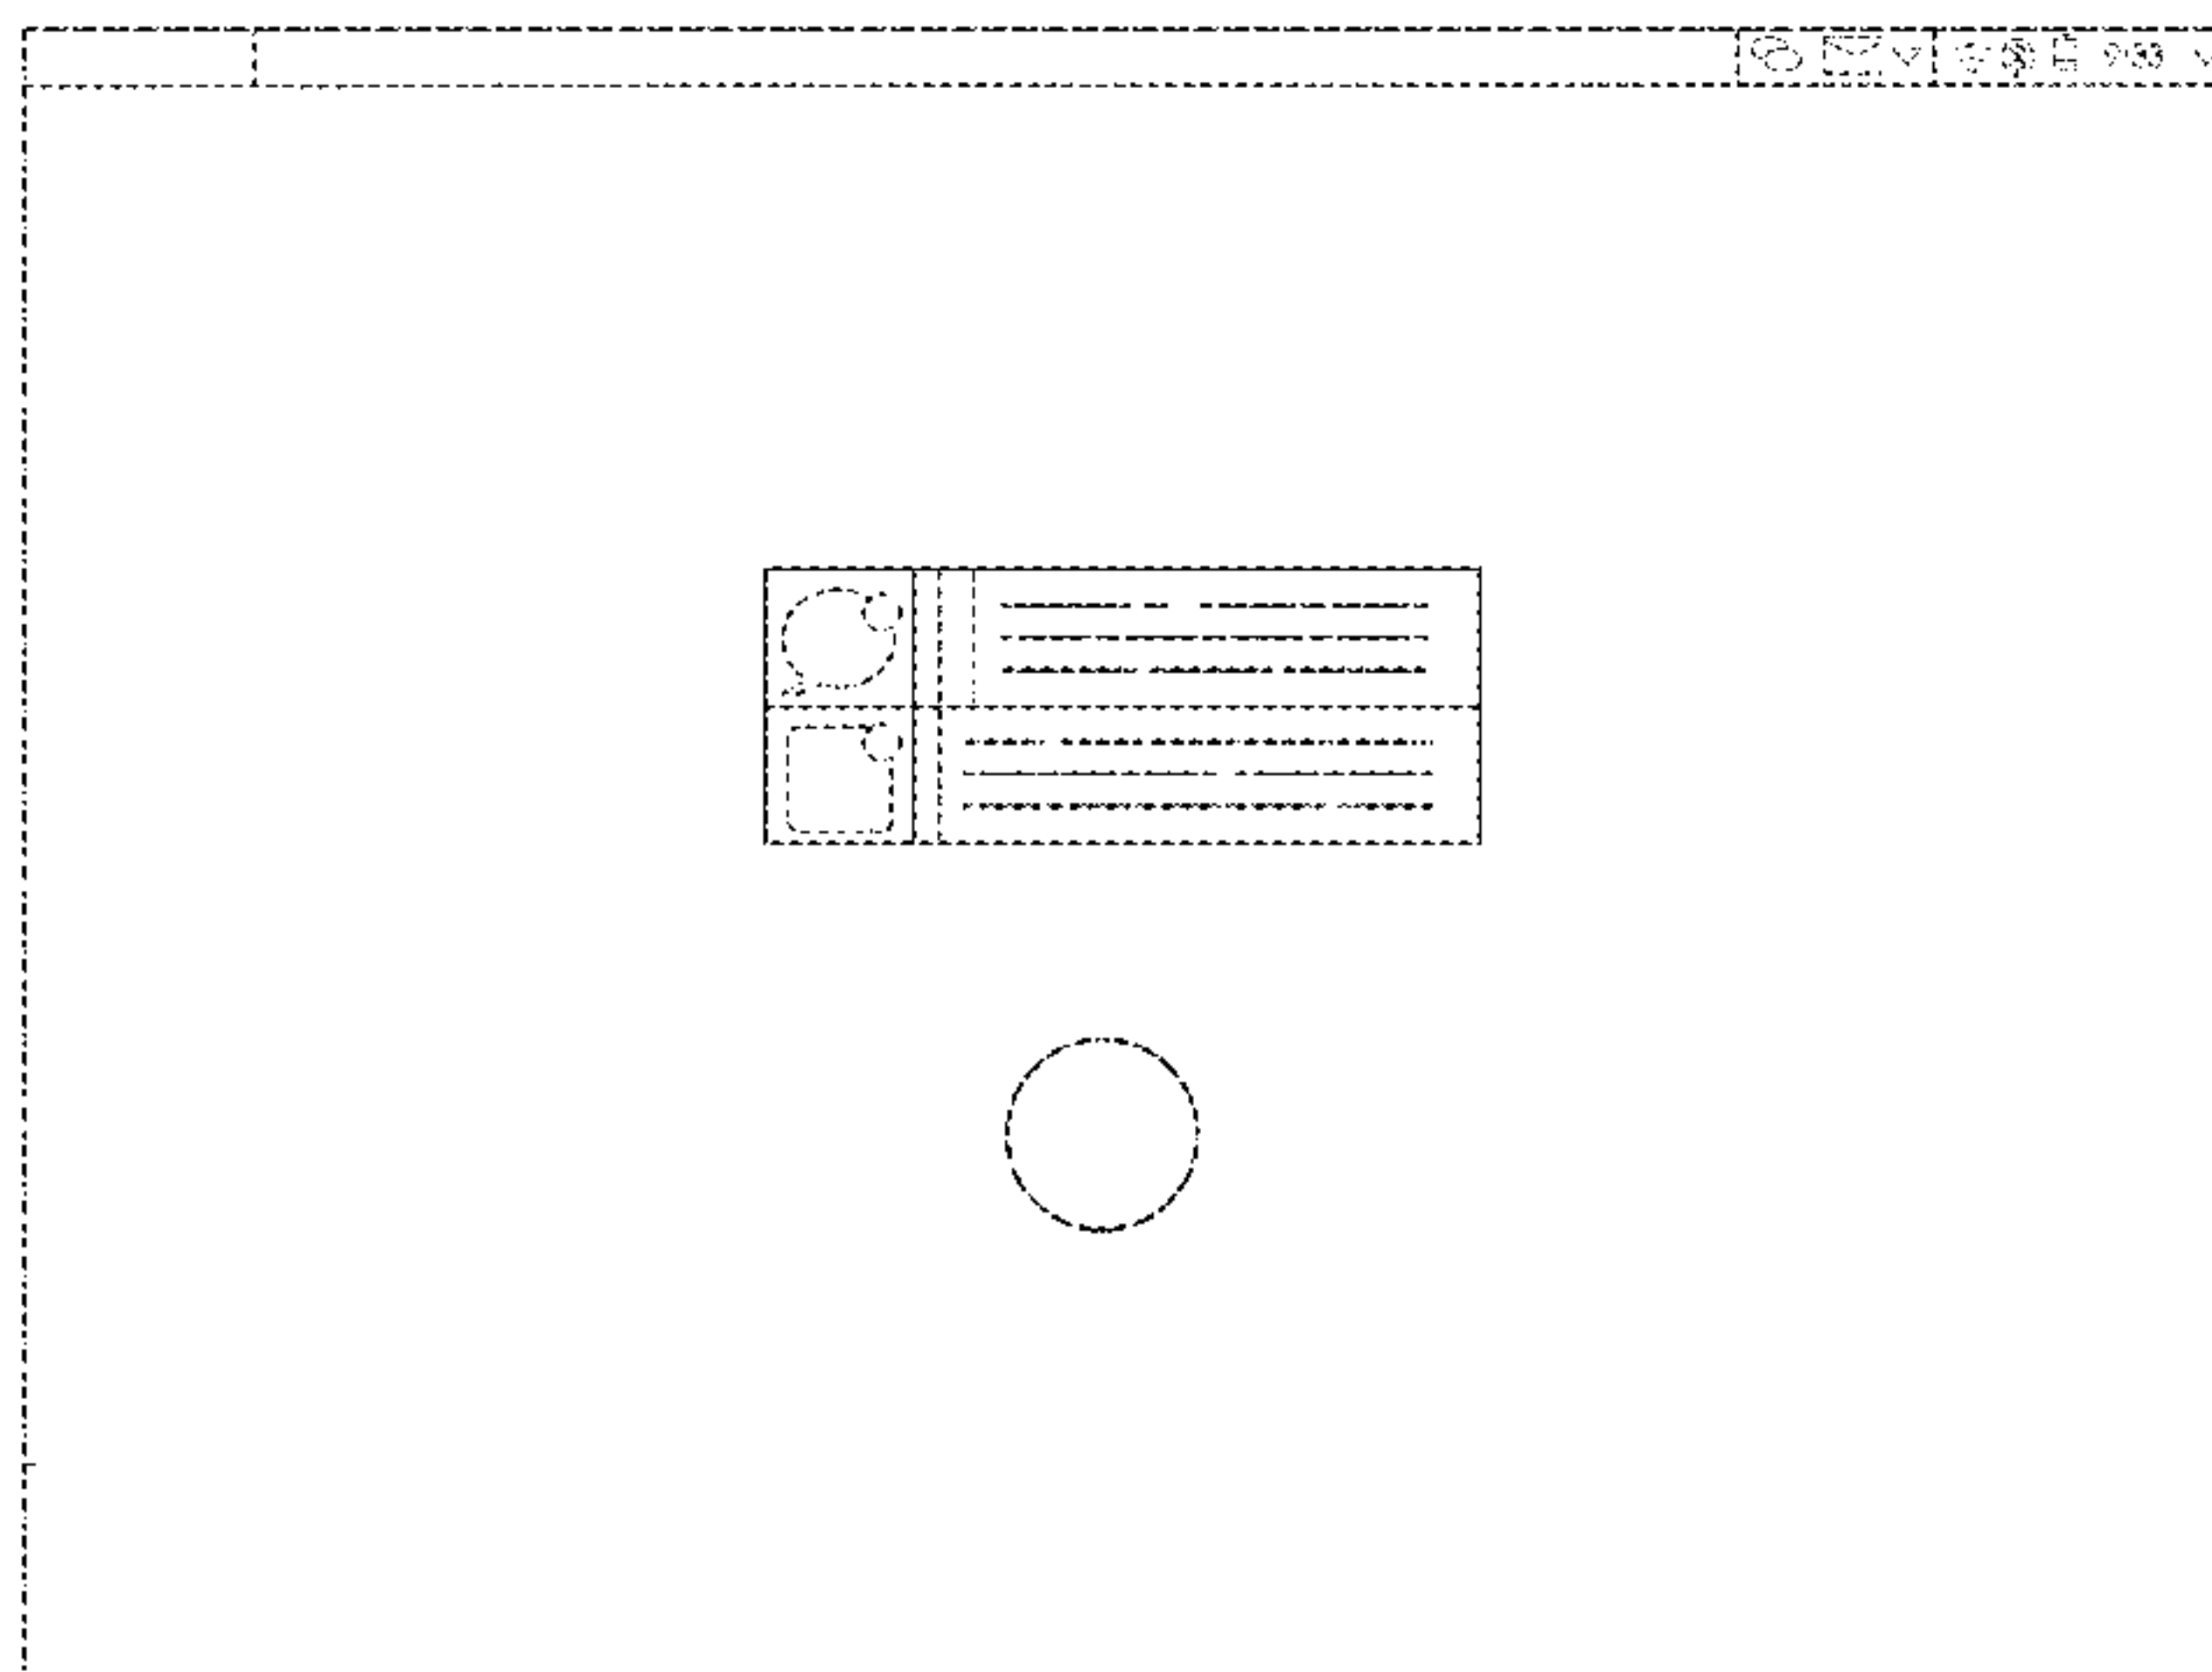

The ornamental design for a computing device display screen with computer-generated notification feature, as shown and described.

DESCRIPTION

The FIGURE is a front view of a computing device display screen with computer-generated notification bar for a computing device that is locked or in a standby mode, under an embodiment.

The broken lines shown in the drawings are for the purpose of illustrating a display screen of a computing device, text, and other images, and form no part of the claimed design.
