See application file for complete search history.

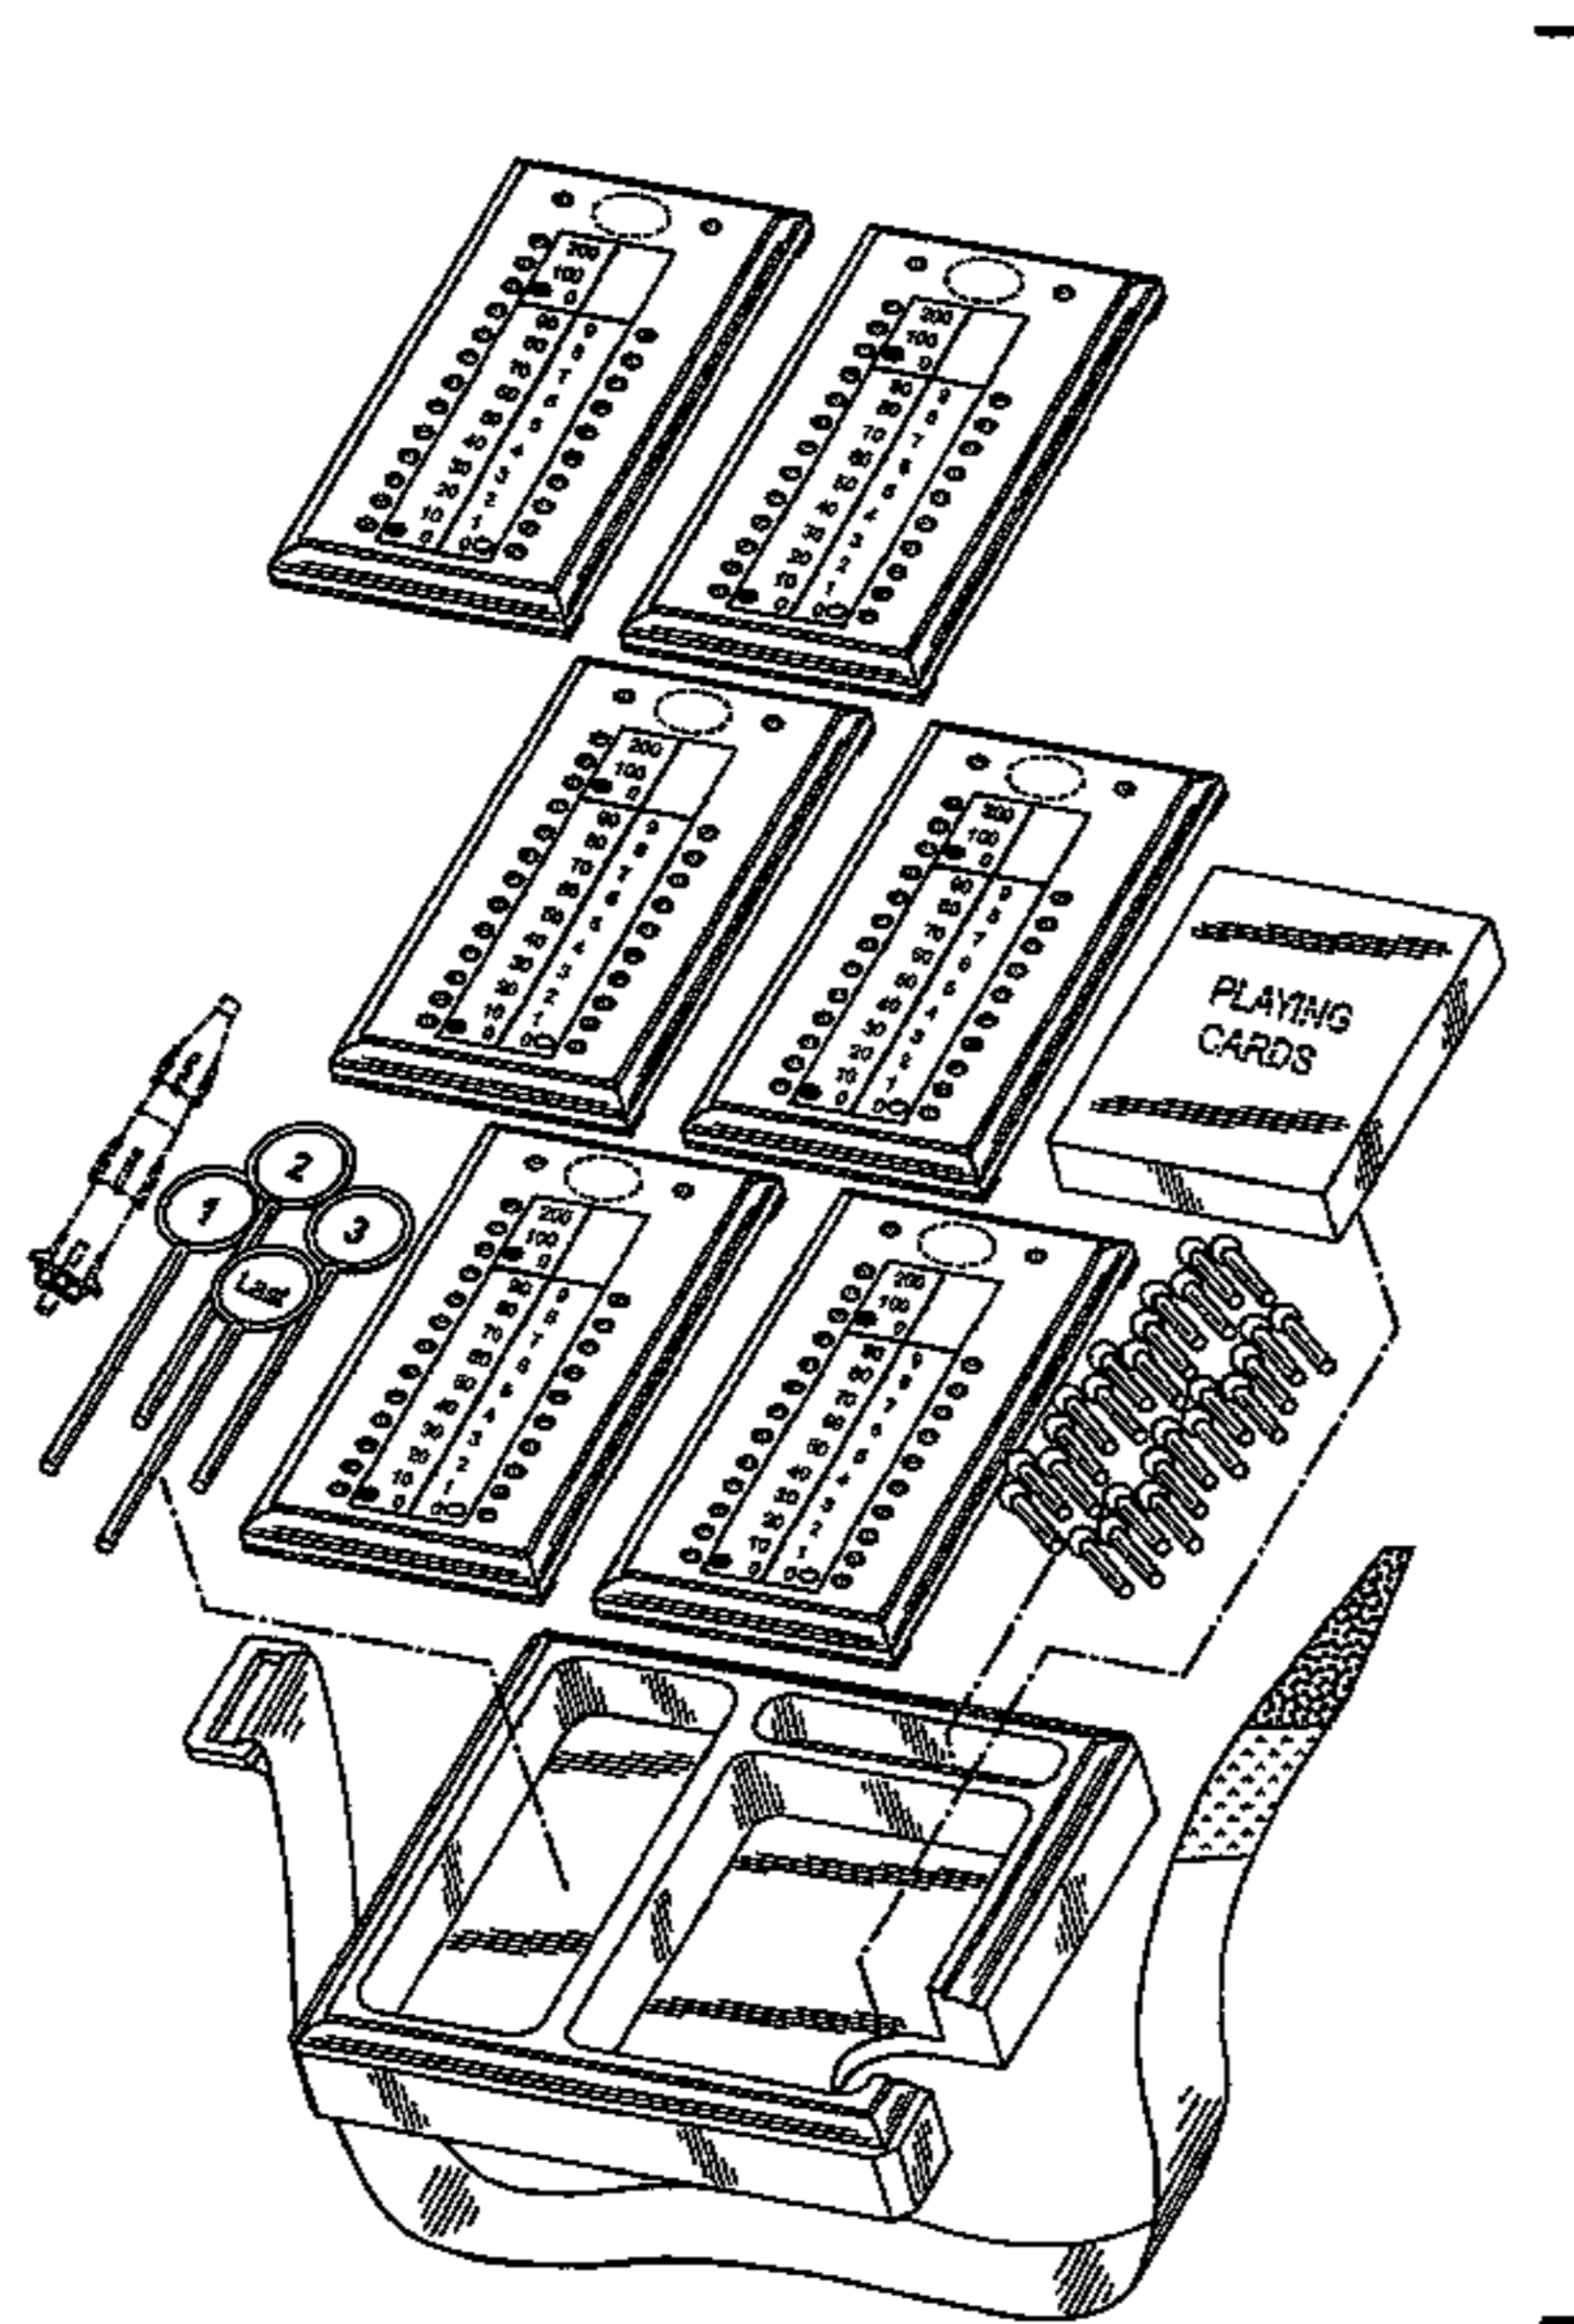

FIG. 1 is a perspective view of a package for a card game using individual scoring boards and a storage container for pegs, place flags, and cards showing my new design; FIG. 2 is an exploded perspective view thereof; FIG. 3 is a top plan view thereof; FIG. 4 is a top plan view of a bottom base with scoring pegs, flags, playing cards, and rocket stored therein; FIG. 5 is a front elevational view thereof; FIG. 6 is a rear elevational view thereof; FIG. 7 is a right side elevational view thereof; FIG. 8 is a left side elevational view thereof; FIG. 9 is a bottom plan view thereof; and, FIG. 10 is a perspective view of one of the individual scoring boards and shown in the environmental use. The bottom base in FIG. 4 and an individual scoring board in FIG. 10, with elements stored within, are shown separately for clarity of illustration. The broken lines are for illustrative purpose only and form no part of the claimed design. It is understood that pegs in FIG. 10 can be placed in holes in any multiple numbers and combination.
