(57) **CLAIM**

The ornamental design for an auxiliary cyclonic dust collector, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of an auxiliary cyclonic dust collector, showing my new design. Interior surfaces of the cyclonic dust collector are represented in broken line and do not form part of the design.

FIG. 2 is a front elevation view thereof. Interior surfaces of the cyclonic dust collector and an associated dust collection drum are shown in broken line, and do not form part of the design.

FIG. 3 is a left side elevation view thereof. An associated dust collection drum is shown in broken line and does not form part of the design.

FIG. 4 is a right side elevation view thereof. An associated dust collection drum is shown in broken line and does not form part of the design.

FIG. 5 is a rear elevation view thereof. An associated dust collection drum is shown in broken line and does not form part of the design.

FIG. 6 is a top plan view thereof; and,

FIG. 7 is a bottom view thereof.
