(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of an animated graphical user interface displayed on a portion of a display screen of the claimed design.

FIG. 2 is a front view of a second image of an animated graphical user interface displayed on a portion of a display screen of the claimed design; and,

FIG. 3 is a front view of a third image of an animated graphical user interface displayed on a portion of a display screen of the claimed design.

The appearance of the animated graphical user interface image, which is displayed on the portion of the display screen as shown in the drawings, transitions sequentially from the first image shown in FIG. 1 to the second image shown in FIG. 2, to the third image shown in FIG. 3. The process or period in which the first image transitions to the second image or the second image transitions to the third image forms no part of the claimed design.

The broken lines showing the display screen are for illustrative purposes only and form no part of the claimed design. The broken lines showing text, numbers, and elements in the drawings form no part of the claimed design.
