(57) **CLAIM**

What is claimed is the ornamental design for a sporting goal practice screen, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a sporting goal practice screen, showing our new design with its six panels each in a fully closed position;

FIG. 2 is a front elevational view showing the perimeter tabs and loops in an alternate, extended position;

FIG. 3 is a rear elevational view of FIG. 2;

FIG. 4 is a perspective view similar to FIG. 1 but showing the upper right panel in an open position; and

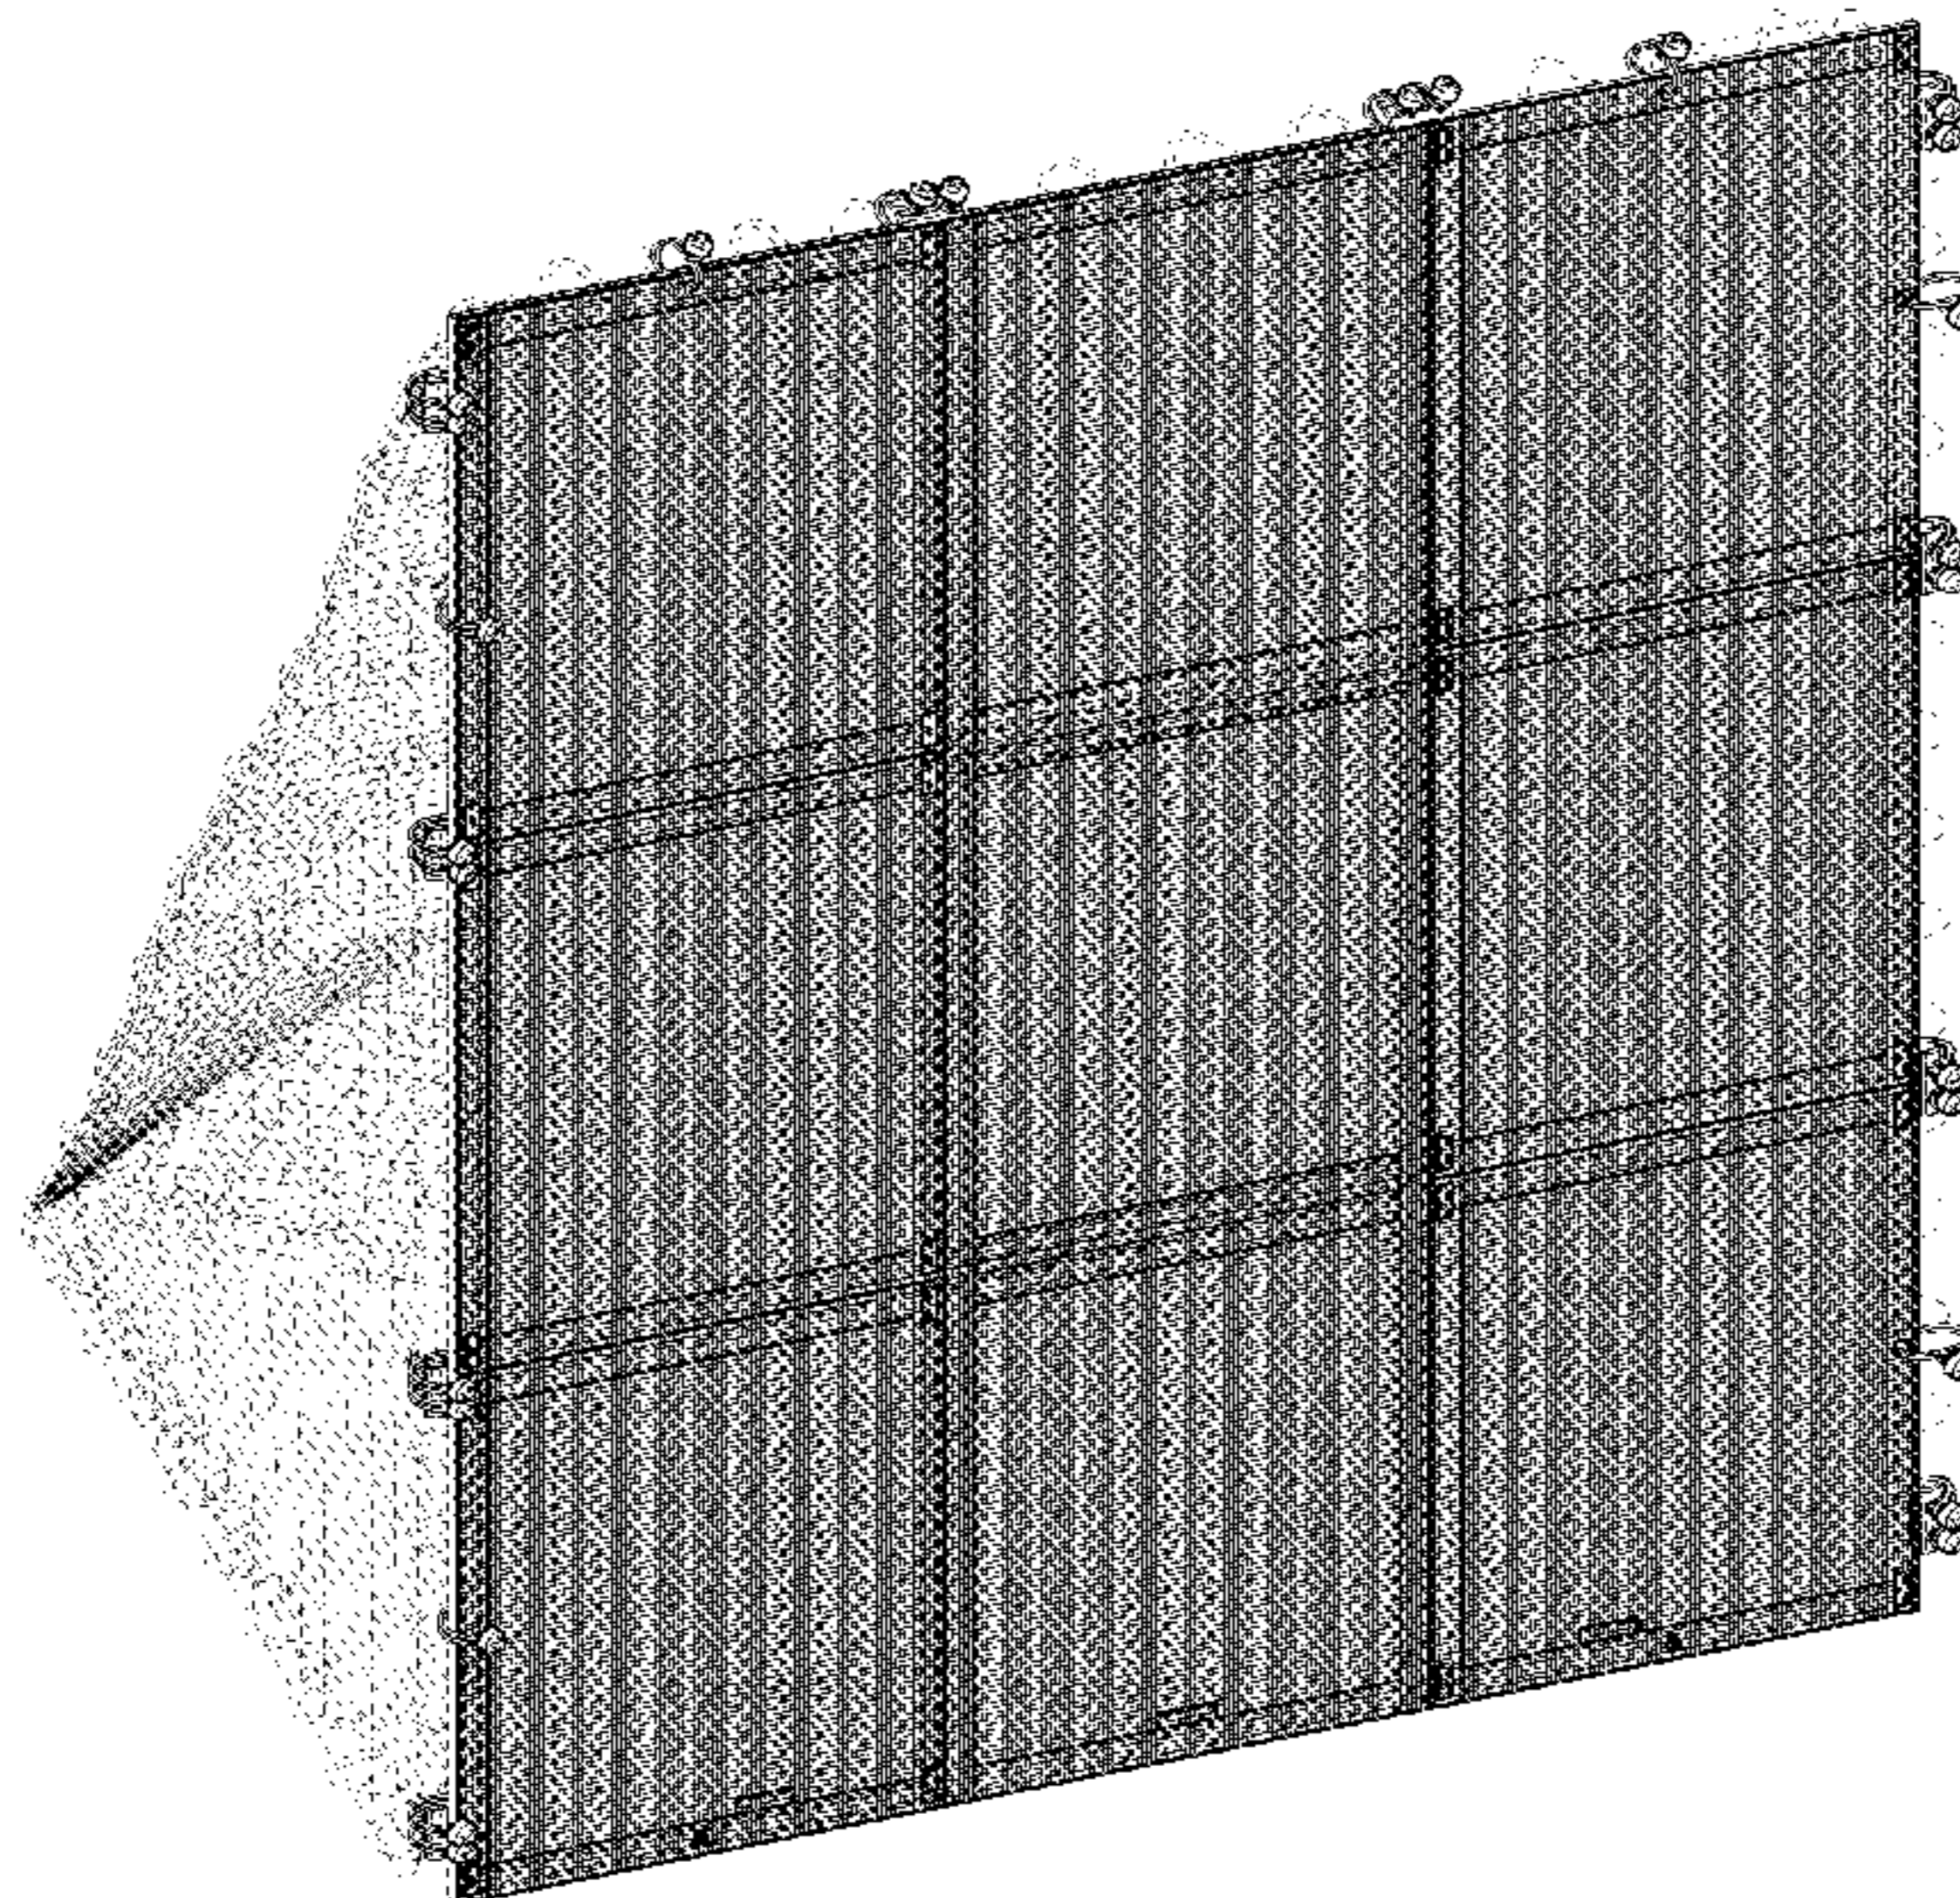

FIG. 5 is a perspective view similar to FIG. 1 but showing the three left panels each in a partially closed position;

FIG. 6 is a perspective view thereof, illustrated with the upper right panel in an open position; and,

FIG. 7 is a perspective view thereof, illustrated with three left panels each in a partially closed position.

The broken lines showing a goal and net in FIGS. 1, 6 and 7 are included for the purpose of illustrating the invention in use, and form no part of the claimed design. The double-ended hook shaped details shown in broken lines along the lower border in FIG. 3 likewise form no part of the claimed design. The remaining broken lines on the figures represent stitching, and form part of the claimed design.
