(57) **CLAIM**

The ornamental design for a luminaire, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of a luminaire showing our new design;  
FIG. 2 is a bottom perspective view thereof;  
FIG. 3 is a front elevational view thereof;  
FIG. 4 is a left side elevational view thereof, the right side being a mirror image;  
FIG. 5 is a rear elevational view thereof;  
FIG. 6 is a top plan view thereof; and,  
FIG. 7 is a bottom plan view thereof.

The broken lines are directed to environment and are for illustrative purposes only; the broken lines form no part of the claimed design. In FIGS. 1-3 the broken line representation of an elongated rectangle shows environment in the nature of an elongated gestural control switch at the bottom of the luminaire for turning on different lighting elements of the luminaire by hand movements in proximity to the switch. In FIGS. 2 and 4-7, the broken lines show environment in the nature of attachment hardware for attaching the luminaire to a stand or mounting bracket.
